Sacred Places British Columbias Early Ch By Downs Barry:

Pioneer Churches along the Gold Rush Trail Liz Bryan, 2022-06-14 A fascinating tour through BC's historical gold rush trails focusing on the nineteenth century churches that were pivotal to the establishment of early settler communities. Much has been written about the Cariboo gold rush from the trails and wagon roads to the rowdy mining camps from tales of great luck to those of disappointment and despair. This book paints a different picture of those pioneer days. It is a guide to the nineteenth century churches that were built during the gold rush or in the settlement days that followed. Most of these historic structures were handmade of local wood though they differed greatly in size and style. Some are now abandoned, untenanted but still worthy of inspection. All were built to fill the spiritual need of the European migrants who flooded to the area to nurture a sense of community that survived even after the gold was gone. Filled with beautiful colour photography and detailed maps, *Pioneer Churches along the Gold Rush Trail* highlights the history, geography, architecture, craftsmanship, and social context of dozens of gold rush era churches, preserving them in their varying states of decay for posterity. While acknowledging the destructive forces of colonialism, including Christianity on Indigenous Peoples, this book also examines the historical role of churches in community building and invites the reader to consider this dichotomy with an open and curious mind.

Alex Lord's British Columbia Alexander Russell Lord, 1991. Alex Lord, a pioneer inspector of rural BC schools, shares in these recollections his experiences in a province barely out of the stage coach era. Travelling through vast northern territory utilizing unreliable transportation and enduring climatic extremes, Lord became familiar with the aspirations of remote communities and their faith in the humanizing effects of tiny assisted schools. En route, he performed in resolute yet imaginative fashion the supervisory functions of a top government educator, developing an educational philosophy of his own based on an understanding of the provincial geography, a reverence for citizenship, and a work ethic tuned to challenge and accomplishment. Although not completed, these memoirs invite the reader to experience the British Columbia that Alex Lord knew. Through his words, we endure the difficulties of travel in this mountainous province. We meet many of the unusual characters who inhabited this last frontier and learn of their hopes, fears, joys, sorrows, and eccentricities. More particularly, we are reminded of the historical significance of the one-room rural school and its role as an indispensable instrument of community cohesion. John Calam has organized the memoirs according to the regions through which Lord travelled. He has included in his introduction a biography of Alex Lord, a brief description of the British Columbia he knew, a sketch of its public education system, and an assessment of the place Lord's writing now occupies among other works on education and society.

Indigenous Peoples and Religious Change Peggy Brock, 2005-05-01. This book explores a range of societies in and around the Pacific and southern Africa in the nineteenth and twentieth centuries that encountered religions introduced from elsewhere or fashioned their own responses to already established religious traditions. These changes, observed through the responses of the receiving societies, indicate that religious change is a creative dynamic rather than a passive acceptance of

new ideas beliefs and practices While change is often triggered by the introduction of new understandings it can only become entrenched within a community when it takes on meaning for individuals and becomes embedded within the social and cultural life of the community
