Animal Remains Sarah Bezan, Robert McKay, 2021-11-29. The dream of humanism is to cleanly discard of humanity's animal remains along with its ecological embeddings, evolutionary heritages and futures, ontogenies and phylogenies, sexualities and sensualities, vulnerabilities and mortalities. But as the contributors to this volume demonstrate, animal remains are everywhere and so animals remain everywhere. Animal remains are food, medicine, and clothing, extractive resources, and traces of animals' lifeworlds and ecologies; they are sites of political conflict and ontological fear, fetishized visual signs and objects of trade, veneration, and memory; they are biotechnological innovations and spill over viruses. To make sense of the material afterlives of animals, this book draws together multispecies perspectives from literary criticism and theory, cultural studies, anthropology, and ethnography, photographic and film history, and contemporary art practice to offer the first synoptic account of animal remains. Interpreting them in all their ubiquity, diversity, and persistence, *Animal Remains* reveals posthuman relations between human and non-human communities of the living and the dead on timescales of decades, centuries, and millennia.

Mecca and Eden Brannon Wheeler, 2006-07. Nineteenth-century philologist and Biblical critic William Robertson Smith famously concluded that the sacred status of holy places derives not from their intrinsic nature but from their social character. Building upon this insight, *Mecca and Eden* uses Islamic exegetical and legal texts to analyze the rituals and objects associated with the sanctuary at Mecca. Integrating Islamic examples into the comparative study of religion, Brannon Wheeler shows how the treatment of rituals, relics, and territory is related to the more general mythological depiction of the origins of Islamic civilization. Along the way, Wheeler considers the contrast between Mecca and Eden in Muslim rituals, the dispersal and collection of relics of the prophet Muhammad, their relationship to the sanctuary at Mecca, and long tombs associated with the gigantic size of certain prophets mentioned in the Quran. *Mecca and Eden* succeeds as few books have done in making Islamic sources available to the broader study of religion.
