Figure Sculpture in Wax and Plaster Richard McDermott Miller, Gloria Bley Miller, 1987-01-01 In this splendidly detailed generously illustrated text the well known American sculptor Richard McDermott Miller introduces the art of modeling the human figure in two media known for their liveliness and spontaneity Recognizing the needs of the beginner as well as the interests of the professional artist the book masterfully puts you quickly in possession of the basic procedures you'll need to get started provides specific details on materials and tools and launches you into actual projects specifically designed to teach you sculptural skills The book first analyzes the human figure and describes the way the sculptor translates the figure into the modeled form finding a personal style working from photographs or memory working from life and capturing gesture proportion and anatomy Mr Miller then describes step by step how to work with wax how to sketch a small figure in wax how to model the figure on a wax armature and the process of hollow wax modeling He follows the same procedure as he introduces working with plaster from mixing it to modeling a hollow torso Many other important topics from mold making techniques to working with models to finding out where and how to buy materials and tools are presented Throughout Mr Miller emphasizes the practice rather than the theory of sculpture emphasizing that apart from the artist's need for personal expression sculpture is a physical task involving the manipulation of materials His concentration on the sculptor's working problems makes this an unusually useful and valuable guide to sculpting the human figure Dover 1987 unabridged slightly updated republication of the edition originally published by Watson Guphill Publications New York 1971

Stop-Motion Puppet Sculpting Tom Brierton, 2004-08-13 Stop motion puppet animation is one of the most unusual and demanding art forms in the world It uses a variety of skills including design sculpting metal work mold making and casting taxidermy filmmaking storytelling and acting and can be seen in the simplest commercial spots on television to more complex animated shorts and science fiction and fantasy feature films This work explains research and design of puppets and details the fabrication of stop motion puppets around a metal armature skeleton using the build up and foam injection processes The former technique uses pre cut blocks of foam formed with a pair of scissors or other instrument into the shape desired and attaching them to the armature In the latter technique the character is sculpted in clay over the armature This clay sculpture is then replaced with foam by using a plaster mold and injection gun techniques Finishing techniques described include the
