The pressure of Roman imperialism drove patrons and artists on the empire's borders to imbue their creations with increasingly sophisticated ideas about the future as they wrestled with consequential decisions made under periods of intense political pressure. Comprehensively illustrated and providing an important new approach to Roman material culture at the edge of empire, *Visions of the Future in Roman Frontier Kingdoms 100 BCE–100 CE* is suitable for students and scholars working on Rome and its frontiers as well as Roman material culture more broadly and those studying the aesthetics of time in art and art history. *The Grove Encyclopedia of American Art* Joan M. Friedland, Melanie Grunow Sobocinski, Elaine Gazda, 2015-01-02 The study of Roman sculpture has been an essential part of the disciplines of Art History and Classics since the eighteenth century. Famous works like the Laocoön in the Arch of Titus and the colossal portrait of Constantine are familiar to millions. Again and again, scholars have returned to sculpture to answer questions about Roman art, society, and history. Indeed, the field of Roman sculptural studies encompasses not only the full chronological range of the Roman world but also its expansive geography and a variety of artistic media, formats, sizes, and functions. Exciting new theories, methods, and approaches have transformed the specialized literature on the subject in recent decades. Rather than creating another chronological catalogue of representative examples from various periods, genres, and settings, *The Oxford Handbook of Roman Sculpture* synthesizes current best practices for studying this central medium of Roman art, situating it within the larger fields of Art History, Classical Archaeology, and Roman Studies. This comprehensive volume fills the gap between introductory textbooks and highly focused professional literature. *The Oxford Handbook of Roman Sculpture* conveniently presents new technical, scientific, literary, and theoretical approaches to the study of Roman sculpture in one reference volume while simultaneously complementing textbooks and other publications that present well-known works in the corpus. The contributors to this volume address metropolitan and provincial material from the early republican period through late antiquity in an engaging and fresh style. Authoritative, innovative, and up to date, *The Oxford Handbook of Roman Sculpture* will remain an invaluable resource for years to come. *The Alcalde*, 1984-01 As the magazine of the Texas Exes, *The Alcalde* has united alumni and friends of The University of Texas at Austin for nearly 100 years. *The Alcalde* serves as an intellectual crossroads where UT's luminaries—artists, engineers, executives, musicians, attorneys, journalists, lawmakers, and professors—among them meet bimonthly to exchange ideas. Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater. The magazine's unique name is Spanish for mayor or chief magistrate, the nickname of the governor who signed UT into existence. **Public Sculpture of Staffordshire and the Black Country** George Thomas Noszlopy, Fiona Waterhouse, 2005-01-01 The Black Country is an area historically known as the cradle of the Industrial Revolution, a thriving region built around deep coal seams conjuring up images of fiery red furnaces by night and
