**The Naval Monument**, 1816      **Mutinous memories** Matt Perry, 2019-05-14 This book explores the eight-month wave of mutinies that struck the French infantry and navy in 1919 Based on official records and the testimony of dozens of participants it is the first study to try to understand the world of the mutineers Examining their words for the traces of sensory perceptions emotions and thought processes it reveals that the conventional understanding of the mutinies as the result of simple war weariness and low morale is inadequate In fact an emotional gulf separated officers and the ranks who simply did not speak the same language The revolt entailed emotional sequences ending in a deep ambivalence and sense of despair or regret Taking this into account the book considers how mutineer memories persisted after the events in the face of official censorship repression and the French Communist Party's co-option of the mutiny      **A Translation of the New Testament: by Gilbert Wakefield ... Subramanian, 2009-04-28 After a clerical sanction prohibited them from fishing for a week a group of Catholic fishers from a village on India's southwestern coast took their church to court They called on the state to recognize them as custodians of the local sea protect their right to regulate trawling and reject the church's intermediary role In *Shorelines* Ajantha Subramanian argues that their struggle requires a rethinking of Indian democracy citizenship and environmentalism Rather than see these fishers as non-moderns inhabiting a bounded cultural world or as moderns wholly captured by the logic of state power she illustrates how they constitute themselves as political subjects In particular she shows how they produced new geographies of regionalism common property alternative technology and fisher citizenship that underpinned claims to rights thus using space as an instrument of justice Moving beyond the romantic myth of self-contained natural resource dependent populations this work reveals the charged political maneuvers that bound subalterns and sovereigns in South Asia In rich historical and ethnographic detail *Shorelines* illuminates postcolonial rights politics as the product of particular histories of caste religion and development allowing us to see how democracy is always provincial
