Seafarers Of The Pacific:

Sailors and Traders Alastair Couper, 2008-12-09 Written by a senior scholar and master mariner *Sailors and Traders* is the first comprehensive account of the maritime peoples of the Pacific. It focuses on the sailors who led the exploration and settlement of the islands and New Zealand and their seagoing descendants, providing along the way new material and unique observations on traditional and commercial seagoing against the background of major periods in Pacific history. The book begins by detailing the traditions of sailors, a group whose way of life sets them apart. Like all others who live and work at sea, Pacific mariners face the challenges of an often harsh environment, endure separation from their families for months at a time, revere their vessels and share a singular attitude to risk and death. The period of prehistoric seafaring is discussed using archaeological data, interpretations from interisland exchanges, experimental voyaging and recent DNA analysis. Sections on the arrival of foreign exploring ships centuries later concentrate on relations between visiting sailors and maritime communities. The more intrusive influx of commercial trading and whaling ships brought new technology, weapons and differences in the ethics of trade. The successes and failures of Polynesian chiefs who entered trading with European type ships are recounted as neglected aspects of Pacific history. As foreign owned commercial ships expanded in the region, so did colonialism, which was accompanied by an increase in the number of sailors from metropolitan countries and a decrease in the employment of Pacific islanders on foreign ships. Eventually small scale island entrepreneurs expanded interisland shipping and in 1978 the regional Pacific Forum Line was created by newly independent states. This was welcomed as a symbolic return to indigenous Pacific ocean linkages. The book's final sections detail the life of the modern Pacific seafarer. Most Pacific sailors in the global maritime labor market return home after many months at sea, bringing money, goods, a wider perspective of the world and sometimes new diseases. Each of these impacts is analyzed, particularly in the case of Kiribati, a major supplier of labor to foreign ships.

Pacific Island Seafarers Jennifer Dennis, 2003 **The Sailors' Union of the Pacific** Paul Schuster Taylor, 1923 **Fishing for Islands**, 1999 From bamboo rafts to the double hulled voyaging canoe, this book is a celebration of the traditional boats of Southeast Asia and the Pacific Islands. The people of these island countries depend on the sea and their ships reflect their mastery of sailing and shipbuilding. Early sailors built simple dugout canoes, but the invention of the outrigger and the double hulled canoe allowed the Polynesians to navigate rough waters and sail thousands of miles more than 1,000 years before the Greeks and Romans mastered the Mediterranean. From New Zealand to Hawaii to Indonesia, this book discusses fishing techniques, navigational methods and boat building facts.

Globalisation and Governance in the Pacific Islands Stewart Firth,2006-12-01 The Pacific Islands are feeling the effects of globalisation Free trade in sugar and garments is threatening two of Fiji s key industries At the same time other opportunities are emerging Labour migration is growing in importance and Pacific governments are calling for more access to Australia s labour market Fiji has joined Samoa Tonga Tuvalu and Kiribati as a remittance economy with thousands of its citizens working overseas Meantime Papua New Guinea and Solomon Islands grapple with an older kind of globalisation in which overseas companies exploit mineral and forest resources The Pacific Islands confront unique problems of governance in this era of globalisation The modern democratic state often fits awkwardly with traditional ways of doing politics in that part of the world Just as often politicians in the Pacific exploit tradition or invent it to serve modern political purposes The contributors to this volume examine Pacific globalisation and governance from a wide range of perspectives They come from Papua New Guinea Solomon Islands Hawaii i the Federated States of Micronesia Samoa Fiji New Zealand and Jamaica as well as Australia Publisher s description
