Seamus Heaney And The Place Of Writing:

Seamus Heaney and the Place of Writing Eugene O'Brien, 2002 An original and innovative study of Seamus Heaney's poetry and prose an overdue and welcome addition the first piece of groundbreaking scholarship that I have read on the subject in years It should convince many that Heaney has been working toward an imaginative expression of Irishness that rivals that of James Joyce Michael R Molino Southern Illinois University Exceptional With a mixture of insightful literary theory and first rate scholarship O'Brien breaks new ground This is one of the best books I've read in a long time and deserves to be on the shelf of anyone who values Heaney Irish literature or contemporary poetry Shawn O'Hare Carson Newman College Eugene O'Brien's critical study examines the attitude toward place and home in the works of Seamus Heaney He looks at the political role of Heaney's writing and argues that his complex engagement with these issues creates a pluralist and emancipatory sense of Irish identity predicated on the future rather than mired in the past O'Brien's is the first book to trace an isolated theme in Heaney's work in this case its creation of a politics of place language and identity Unlike chronological studies of Heaney's poetry O'Brien explores important elements in his entire oeuvre from his poetry and prose to translations such as the recent best selling edition of Beowulf that relate to the issue of writing and identity strident nationalism tribal identification political ideology and postcolonial poetics in particular The first sustained engagement between literary theory and the work of Heaney the book connects the ethical projects of Heaney and Derrida in terms of their views on the relationship between self and other and between the present and the past O'Brien's close reading of Heaney's poems results in a wealth of original arguments for example his examination of the Irish poet's most famous book *North* views it as opening a dialogue with other traditions Another unique emphasis is on the Viking influence on his work Finally O'Brien examines the relationship between Heaney's texts and the violence in Northern Ireland that has been the environment of much of his writing The most contemporary study of Heaney's writings to date it extends to *Electric Light* and *The Midnight Verdict* this book weaves critical theory and criticism breaking with previous scholarship to present a reading of Heaney that extends far beyond moments of inspiration and symbolism to reach the very notion of identity and the individual's relationship to the past and present Eugene O'Brien is professor of English at Mary Immaculate College University of Limerick

The Place of Writing Seamus Heaney, 1989 **Seamus Heaney** Eugene O'Brien, 2003-10-20

Thematically arranged and clearly structured this book explores the seminal themes in Heaney's writing aesthetics politics language identity and myth ethics and notions of Irishness A central strand of this study is an exploration of Heaney's ethical and political project with respect to issues of Irish identity as outlined in his writings This work suggests that there are analogies between Heaney's political and ethical thought and that of Jacques Derrida Maurice Blanchot and Emmanuel Levinas Each chapter concentrates on a single theme his sense of the aesthetic and its role in terms of politics and ethics his relationship with politics as a contemporary situation his notion of place both as a given and as something that could be

reimagined his enunciation of a sense of visceral identity his concept of ethics in terms of a relationship between selfhood and alterity his notion of the many threads which combine to produce a sense of Irishness Finally the Nobel lectures of Yeats and Heaney are examined in order to trace the complex relationship between these two writers

Philip Larkin and the Place of Writing Ujjwal Kr. Panda, 2025-01-10 This book extensively investigates the integral nature of spatiality and spatial imagination in the works of Philip Larkin It addresses Larkin's idea of space and place both private and public and reflects upon his early fictional works as well as poems To do so the book also emphasizes the essential spatiality of modern British literature with suitable examples from other great poets of the early 20th century modernist movement including T S Eliot W B Yeats W H Auden and Dylan Thomas By including detailed analysis of many unpublished poems and his early fictions the book aspires to be a comprehensive study of Larkin's oeuvre and thus examines how Larkin's sense of place changed as he developed as a writer starting with Brunette Coleman novels and going on to High Windows Featuring suitable references from his biographies and letters the book will examine Larkin's works in relation to a number of relevant ideas from the interdisciplinary spheres of literature geography and Spatial Humanities

This Strange Loneliness Peter Mackay, 2021-04-15 This *Strange Loneliness* is the first comprehensive account of the poetic relationship between Seamus Heaney and William Wordsworth Peter Mackay explores how Heaney repeatedly turns to the Romantic poet's work for inspiration corroboration and amplification and as a model for the fortifying power of poetry itself which offers the fundamental lesson that it is on this earth we find our happiness or not at all Through an in depth look at archival materials and at uncollected poems and prose by Heaney Mackay traces the evolution of Heaney's readings of Wordsworth throughout his career revealing their shared interest in the connections between poetry and education the possibility of a beneficial understanding of poetic influence the complexities of place and displacement ideas of transcendence and ultimately the

importance of late style later poems by Wordsworth might prove a cautionary tale as well as example for any poet Placing Heaney's readings within their political historical and poetic contexts the book also explores how he negotiated the complex relationship between Irish and British culture and identity to claim a persistent form of kinship and forge a strange community with the Romantic poet With illuminating readings that reveal new contexts to and currents in Heaney's work This Strange Loneliness is a powerful evocation of the Irish poet's sense of the uplift that poetry can provide Seamus Heaney's Regions Richard Rankin Russell, 2014-06-30 Regional voices from England Ireland and Scotland inspired Seamus Heaney the 1995 Nobel prize winner to become a poet and his home region of Northern Ireland provided the subject matter for much of his poetry In his work Heaney explored recorded and preserved both the disappearing agrarian life of his origins and the dramatic rise of sectarianism and the subsequent outbreak of the Northern Irish Troubles beginning in the late 1960s At the same time Heaney consistently imagined a new region of Northern Ireland where the conflicts that have long beset it and by extension the relationship between Ireland and the United Kingdom might be synthesized and resolved Finally there is a third region Heaney committed himself to explore and map the spirit region that world beyond our ken In Seamus Heaney's Regions Richard Rankin Russell argues that Heaney's regions the first geographic historical political cultural linguistic the second a future where peace even reconciliation might one day flourish the third the life beyond this one offer the best entrance into and a unified understanding of Heaney's body of work in poetry prose translations and drama As Russell shows Heaney believed in the power of ideas and the texts representing them to begin resolving historical divisions For Russell Heaney's regionalist poetry contains a Hegelian synthesis view of history that imagines potential resolutions to the conflicts that have plagued Ireland and Northern Ireland for centuries Drawing on extensive archival and primary material by the poet Seamus Heaney's Regions examines Heaney's work from before his first published poetry volume Death of a Naturalist in 1966 to his most recent volume the elegiac Human Chain in 2010 to provide the most comprehensive treatment of the poet's work to date **Paul Muldoon and the Language of Poetry** Ruben Moi, 2020-01-13 Paul Muldoon and the Language of Poetry is the first book in years that attends to the entire oeuvre of the Irish American poet critic lyricist dramatist and Princeton professor from his debut with New Weather in 1973 up to his very recent publications Ruben Moi's book explores in correspondence with language philosophy and critical debate how Muldoon's ingenious language and inventive form give shape and significance to his poetry and how his linguistic panache and technical verve keep language forever surprising new and alive **Poets of Modern Ireland** Neil Corcoran, 1999 In Poets of Modern Ireland Text Context Intertext Neil Corcoran discusses the work of Seamus Heaney Derek Mahon Michael Longley Austin Clarke Padraic Fallon Louis MacNeice and Ciaran Carson constructing a critical account of the poets work and putting it in the context of the contemporary debate surrounding their work The contexts and intertexts Corcoran establishes for the study include the contentious debate between nationalist and revisionist criticism the relationship between Irish and American poetry the

Writing Home Elmer Kennedy-Andrews, 2008 The idea of place and of being displaced is a powerful leit motif in Northern Irish poetry It is here explored in depth from the 1960s to the present day Ideas of home place and identity have been continually questioned re imagined and re constructed in Northern Irish poetry Concentrating on the period since the outbreak of the Troubles in the late 1960s this study provides a detailed consideration of the work of several generations of poets from Hewitt and MacNeice to Fiacca and Montague to Simmons Heaney Mahon and Longley to Muldoon Carson Paulin and McGuckian to McDonald Morrissey Gillis and Flynn It traces the extent to which their writing represents a move away from concepts of rootedness and towards a deterritorialized poetics of displacement mobility openness and pluralism in an era of accelerating migration and globalisation In the new readings of place inherited maps are no longer reliable and home is no longer the stable ground of identity but seems instead to be always where it is not The crossing of boundaries and the experience of diaspora open up new understandings of the relations between places a new sense of the permeability and contingency of cultures and new concepts of identity and home Professor ELMER KENNEDY ANDREWS teaches in the Department of English at the University of Ulster

The Offense of Poetry Hazard Adams, 2011-07-01 There is something offensive and scandalous about poetry judging by the number of attacks on it and defenses of it written over the centuries Poetry Hazard Adams argues exists to offend not through its subject matter but through the challenges it presents to the prevailing view of what language is for Poetry s main cultural value is its offensiveness it should be defended as offensive Adams specifies four poetic offenses gesture drama fiction and trope and devotes a chapter to each ranging across the landscape of traditional literary criticism and exploring the various attitudes toward poetry including both attacks and defenses offered by writers from Plato and Aristotle to Sidney Vico Blake Yeats and Seamus Heaney among others Criticism Adams writes needs renewal in every age to free poetry from the prejudices of that age and the unintended prejudices of even the best critics of the past to free poetry to perform its provocative antithetical cultural role Poetry achieves its cultural value by opposing the binary oppositions form and content fact and fiction reason and emotion that structure and polarize most understandings of literature and of life Adams takes a position antithetical to the extremes of both abstract formalism and the politicization of literary content He concludes with an appreciation of what he calls the double offense of great bad poetry poetry so exceptionally bad that it transcends its shortcomings and leads to gaiety He reminds us that Blake in *The Marriage of Heaven and Hell* identified angels with the settled and coercive and assigned the qualities of energy and creativity to his devils According to Adams poetry in its broad and traditional sense of all imaginative writing may be identified with Blake s devils
