Selected Essays of Sean O'Faolain Brad Kent, 2016-10-01 Sean O Faolain 1900 1991 was Ireland s leading social and political critic in the period following the country s independence from the United Kingdom Since his death scholarly opinion has alternately cast him as an arch revisionist a liberal nationalist and a frustrated republican The Selected Essays of Sean O Faolain reassesses his reputation by showing that he wrote in the tradition of post Enlightenment European intellectuals and that while he was a significant figure in Ireland his work extends beyond immediate national concerns This volume includes over fifty unabridged essays by O Faolain on a wide range of subjects from canonical writers to architecture from religious scandals to economics from nationalism to internationalism from long dead historical figures to recent controversies O Faolain s fearlessness in taking on the major political cultural and religious figures of his day his masterly use of rhetoric and his intellectual acuity have contributed to his works being quoted often by scholars working across several disciplines Many of these essays appear here in print for the first time since they were published in the foremost periodicals of their day An extensive introduction and helpful annotations contextualise and explain them for a new audience In his re readings of history and challenges to dominant historiographical trends O Faolain has become a pariah to some and a hero to others The Selected Essays of Sean O Faolain bridges some of these competing visions presenting a more complex figure through his varied corpus of writing

Literature Maureen O'Rourke Murphy,James MacKillop,1987 **Remembering the Revolution** Frances Flanagan,2015-06-18 Remembering the Irish Revolution chronicles the ways in which the Irish revolution was remembered in the first two decades of Irish independence While tales of heroism and martyrdom dominated popular accounts of the revolution a handful of nationalists reflected on the period in more ambivalent terms For them the freedoms won in revolution came with great costs the grievous loss of civilian lives the brutalisation of Irish society and the loss of hope for a united and prosperous independent nation To many nationalists their views on the revolution were traitorous For others they were the courageous expression of some uncomfortable truths This volume explores these struggles over revolutionary memory through the lives of four significant but under researched nationalist intellectuals Eimar O Duffy P S O Hegarty George Russell and Desmond Ryan It provides a lively account of their controversial critiques of the Irish revolution and an intimate portrait of the friends enemies institutions and influences that shaped them Based on wide ranging archival research Remembering the Irish Revolution puts the history of Irish revolutionary memory in a transnational context It shows the ways in which international debates about war human progress and the fragility of Western civilisation were crucial in shaping the understandings of the revolution in Ireland It provides a fresh context for analysis the major writers of the period such as Sean O Casey W B Yeats and Sean O Faolain as well as a new outlook on the genesis of the revisionist nationalist schism that continues to resonate in Irish society today The Oxford Critical and Cultural History of Modernist Magazines

Peter Brooker,Andrew Thacker,2009-03-26 The first of three volumes charting the history of the Modernist Magazine in Britain North America and Europe this collection offers the first comprehensive study of the wide and varied range of little magazines which were so instrumental in introducing the new writing and ideas that came to constitute literary and artistic modernism in the UK and Ireland In thirty seven chapters covering over eighty magazines expert contributors investigate the inner dynamics and economic and intellectual conditions that governed the life of these fugitive but vibrant publications We

learn of the role of editors and sponsors the relation of the arts to contemporary philosophy and politics the effects of war and economic depression and of the survival in hard times of radical ideas and a belief in innovation The chapters are arranged according to historical themes with accompanying contextual introductions and include studies of the New Age Blast the Egoist and the Criterion New Writing New Verse and Scrutiny as well as of lesser known magazines such as the Evergreen Coterie the Bermondsey Book the Mask Welsh Review the Modern Scot and the Bell To return to the pages of these magazines returns us a world where the material constraints of costs and anxieties over censorship and declining readerships ran alongside the excitement of a new poem or manifesto This collection therefore confirms the value of magazine culture to the field of modernist studies it provides a rich and hitherto under examined resource which both brings to light the debate and dialogue out of which modernism evolved and helps us recover the vitality and potential of that earlier discussion
