Search For The Absolute In Neo Vedanta:

Search for the Absolute in Neo-Vedanta Krishnachandra Bhattacharyya, 1976 **Humanity, Truth, and Freedom** Raghunath Ghosh, 2008 The volume has a two fold purpose i to acquaint the readers and academic community with some prominent trends and their present relevance in modern Indian Philosophy with special reference to Krishna Chandra Bhattacharyya Swami Vivekananda Mahatma Gandhi Sri Aurobindo Rabindranath etc and ii to create an interest about their contributions and points of departures from the tradition among the current researchers in the field of philosophy and allied disciplines The essays deal with methodological spiritual materials socio political issues as discussed by the contemporary thinkers Interpreting across Boundaries Gerald James Larson, Eliot Deutsch, 2014-07-14 This volume is a state of the art assessment of comparative philosophy written by some of the leading practitioners of the field While its primary focus is on gaining methodological clarity regarding the comparative enterprise of interpreting across boundaries the book also contains new substantive essays on Indian Chinese Japanese and European thought The contributors are Roger T Ames William Theodore de Bary Wing tsit Chan A S Cua Eliot Deutsch Charles Hartshorne Daya Krishna Gerald James Larson Sengaku Mayeda Hajime Nakamura Raimundo Panikkar Karl H Potter Henry Rosemont Jr Ben Ami Scharfstein Ninian Smart Fritz Staal and Frederick J Streng Comparative or cross cultural philosophy can be seen as a relative newcomer to the field of philosophy It has its antecedents in the emergence of comparative studies in nineteenth century European intellectual history as well as in the sequence of East West Philosophers Conferences at the University of Hawaii which began in 1939 This book will prove to be of great significance in helping to define a field that is only now becoming fully self conscious methodologically and substantively about its role and function in the larger enterprises of philosophy and comparative studies Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Vedanta Kesari**, 1977 **Phenomenology World-Wide** Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need

to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Consciousness in Advaita Vedanta William M. Indich, 1995-01-01

The nature of consciousness or human awareness is one of the problems of perennial concern to philosophers and psychologists alike. Here is a systematic critical and comparative study of the nature of human awareness according to the most influential school of classical Indian thought. After introducing the Advaita Philosophical system and indicating the place of consciousness in this system, the author presents a detailed discussion of the Advaitin's unique non-dual understanding of man's basic intelligence. He continues with an analysis of the Advaitin's hierarchical vision of waking dream and dreamless sleep experience and compares this analysis.

Truth Felipe Fernández-Armesto, 2013-09-10. Written by a renowned Oxford historian, this fascinating volume presents a global history of truth. Sharp and authoritative, Truth manages to touch every period of human experience; it leaps from truth-telling technologies of primitive societies to the private mental worlds of great philosophers from spiritualism to science and from New York to New Guinea. In clear, lucid prose, this little book takes on an enormous subject and makes it understandable to anyone.

Yoga, Karma, and Rebirth Stephen Phillips, 2009-06-26. For serious yoga practitioners curious to know the ancient origins of the art, Phillips lays out the philosophy of action, knowledge, and devotion, as well as the processes of meditation, reasoning, and self-analysis that formed the basis of yoga in ancient and classical India.

An Introduction to Comparative Philosophy Walter Benesch, 1997-01-31. This original and accessible text is more than an introduction to comparative philosophy in the East and West. It is also a guide to philosophizing as a thinking process. In addition to outlining the presuppositions of different traditions, it discusses their methods and techniques for reasoning in what the author calls four dimensions of philosophical space: object, subject, the situational, and the aspective perspective dimension.

Exploring the Yogasutra Daniel Raveh, 2012-06-12. Patajali's Yogasutra is an ancient canonical Indian text composed in Sanskrit in the 3rd or 4th century. Belonging to a very different cultural milieu, this multi-layered text is philosophical, psychological, and practical in nature. Offering a philosophical reading of Patajali's Yogasutra, this book discusses themes such as freedom, self-identity, time, and transcendence, and translation between languages, cultures, and eras. Drawing substantially upon contemporary Indian materials, it discusses for the first time classical yoga as reflected upon by Daya Krishna (1924-2007) with constant reference to Krishna Chandra Bhattacharyya's (1875-1949) studies in yoga philosophy. The genuine attempt on behalf of these two original thinkers to engage philosophically with Patajala yoga sets the tone of the textual exploration provided here. This book features a new annotated translation of the Yogasutra, and the author provides a useful background to the extensive Samkhya terminology employed by Patajali. Daniel Raveh also offers a close reflection of the very act of translation, and the book concludes with suggestions for further reading and a glossary of central notions.

The Making of Contemporary Indian Philosophy Daniel Raveh, Elise Coquereau-Saouma, 2023-01-31. This book engages in a dialogue with Krishnachandra Bhattacharyya (K. C. Bhattacharyya, KCB, 1875-1949) and opens a vista to contemporary Indian philosophy. KCB is one of the founding fathers of contemporary Indian philosophy, a distinct genre of philosophy that draws both on classical Indian philosophical sources and on Western materials, old and new. His work offers

both a new and different reading of classical Indian texts and a unique commentary of Kant and Hegel The book re introduces KCB s philosophy identifies the novelty of his thinking and highlights different dimensions of his oeuvre with special emphasis on freedom as a concept and striving extending from the metaphysical to the political or the postcolonial Our contributors aim to decipher KCB s distinct vocabulary demand feeling alternation They revisit his discussion of Rasa aesthetics spotlight the place of the body in his phenomenological inquiry toward the subject as freedom situate him between classics Abhinavagupta and thinkers inspired by his thought Daya Krishna and discuss his lectures on S khya and Yoga rather than projecting KCB as usual solely as a Ved nta scholar Finally the contributors seek to clarify if and how KCB s philosophical work is relevant to the discourse today from the problem of other minds to freedoms in the social and political spheres This book will be of interest to academics studying Indian and comparative philosophy philosophy of language and mind phenomenology without borders and political and postcolonial philosophy
