Search For An Effective Police Handgun:

The Search for an Effective Police Handgun ,1973 Collection of research results providing police officials and officers with comparative technical information on various types and models of handguns and ammunition Prior to standardization which occurred within police departments in the 1930 s officers were usually expected to furnish their equipment including weapons and ammunition Two factors a high degree of accuracy in the 38 S W special revolver cartridge and the convenience of police exchanging a standard ammunition led to the adoption of the S W 38 by most large departments However researchers since 1900 have presented evidence that this accepted police handgun cartridge should be reevaluated in terms of effectiveness Professor Bristow offers a review of some of that research in this collection of agency evaluations factory ballistic test reports excerpted government documents and other materials which present alternatives to the 38 special as the standard police handgun Wound ballistics considerations of velocity and shock and technical concerns over accuracy versus recoil are detailed in both descriptive and statistical terms The pros and cons of high velocity expanding bullets are presented as are the implications of using large caliber revolvers and semi automatic pistols These subjects are also discussed in the context of such larger problems as the cost risk of change and community relations versus officer protection The material is intended to aid law enforcement officials and officers who have the responsibility of choosing and justifying a handgun for their agency or themselves *Document Retrieval Index* ,1974

Handgun Bullet Stopping Power George B. Bredsten,2008 For the law enforcement officer and the civilian who may be in a situation that requires the use of a handgun to stop a lethal threat action it is important that the person differentiates between the crass glib and self serving advertisements of ammunition vendors and the reality of how what and why effective stopping power occurs Factors to consider are the physiological response the psychological response the time frame parameter and bullet efficacy Of these four factors only bullet efficacy can be somewhat controlled by the person this only by understanding how and to what extent the bullet contributes to the degree of stopping power obtained A number of concepts formulae have been included so as to permit the reader to consider their merits and whether or not they are consistent with the reality of biology physics and other relevant sciences Finally the material in this book is intended to permit those persons to instruct teach or make decisions regarding the selection of a service handgun cartridge combination that will help to provide the means to prevail in a lethal threat confrontation About the Author Mr Bredsten retired from the Federal Law Enforcement Training Center Firearms Division FLETC FAD With FLETC FAD he performed duties as a firearms instructor and he also taught ballistics to the FLETC FAD staff and to students in the Law Enforcement Rifle Training Program and in the Precision Rifle Sniper and Observer Program Subjects covered included the ballistic coefficient barrel time the coefficient of reduction form Greenhill formula rate of rifling twist firearm recoil bullet time of flight bullet drop bullet midrange wind deflection bullet penetration potential and bullet terminal wounding efficacy Since retiring he has provided ballistics
