 Kendrick Frazier,2023-10-17 Forty three essays by thirty nine authors including Isaac Asimov Martin Gardner Carl Sagan
 Ray Hyman Paul Kurtz and James Randi examine aspects of paranormal and fringe science beliefs from an authoritative
 scientific point of view *New Age Almanac* J. Gordon Melton,Jerome Clark,Aidan A. Kelly,1991 This text considers the New
 Age phenomena with its accent on spiritual development health and healing and higher consciousness It considers New Age
 personalities and significant events and provides more than 300 definitions and descriptions and a guide to New Age
 educational institutions The Immortal Mind Ervin Laszlo,2014-10-09 Scientific evidence for the continual presence of
 consciousness with or without connection to a living organism Examines findings on the survival of consciousness beyond life
 including near death experiences after death communication and reincarnation Explains how this correlates precisely with
 cutting edge physics theories on superstrings information fields and energy matrices Reveals how consciousness manifests in
 living beings to continue its evolution Evidence now points to consciousness existing beyond the brain such as when the brain
 is temporarily incapacitated as well as to the survival of consciousness after death Conventional science prefers to dismiss
 these findings because they cannot be accommodated by a materialist view of reality Spirituality and religion embrace the
 continuity of consciousness and ascribe it to a nonmaterial spirit or soul that is immortal As such spirituality religion and
 science continually find conflict in their views But what if there truly is no conflict Based on a new scientific paradigm in sync
 with experience based spirituality Ervin Laszlo and Anthony Peake explore how consciousness is continually present in the
 cosmos and can exist without connection to a living organism They examine the rapidly growing body of scientific evidence
 supporting the continuity of consciousness including near death experiences after death communication reincarnation and
 neurosensory information received in altered states They explain how the persistence of consciousness beyond the demise of
 the body means that in essence we are not mortal we continue to exist even when our physical existence has come to an end
 This correlates precisely with cutting edge physics which posits that things in our plane of time and space are not
 intrinsically real but are manifestations of a hidden dimension where they exist in the form of superstrings information fields
 and energy matrices With proof that consciousness is basic to the cosmos and immortal in its deeper nonmanifest realm
 Laszlo and Peake reveal the purpose of consciousness is to manifest in living beings in order to continuously evolve
