"One of the finest works of  
[Garth Ennis'] career." — Alan Moore

In the second terrible winter of the siege  
of Leningrad, seven women snipers find  
themselves caught up in the struggle  
against the German invaders.

Their deadliest shot is Sara, whose inner  
demons may yet prove her undoing —  
but with the enemy to their front and  
the agents of the Soviet state lurking in  
the shadows, how long can any squad  
survive the terrifying maelstrom of war?

Searching for Sarah in the Second Temple Era Joseph McDonald, 2020-02-20 Seeking to build upon recent scholarship based on Biblical women Joseph McDonald uses a character centered literary approach to read the story of Sarah as it was told and retold in the Second Temple period McDonald offers an alternative to the usual approaches to rewritten Bible narratives which often emphasize near context synoptic comparison of retold stories and their scriptural precursors arguing that examination of retold narratives as narratives reveals important aspects of their internal literary effects that may otherwise go unnoticed Taken together McDonald suggests that such readings reveal one of Sarah's trans narrative or deep traits as a curious multi faceted resemblance to the character of Abraham The richness of her images however shows that this resemblance is not the ultimate distillation of Sarah but a

symptom of the kind of restriction that she consistently faces in this literature McDonald concludes that creative readings of the narratives featuring Sarah in the Hebrew Bible the Septuagint the Genesis Apocryphon and the Jewish Antiquities of Josephus illuminate Sarah as a complex and sometimes contradictory figure whose individuality and agency often struggle to escape limitations placed upon her both by other characters such as Abraham and God and by the narrators of her tales

**Literary Digital Stylistics in Translation Studies** Anna Maria Cipriani, 2023-11-20 This book presents a systematic literary comparison of the retranslations by adopting a mixed method and bottom up inductive approach by developing an empirical corpus approach This corpus is specifically tailored to identify and study linguistic and non linguistic modernist features throughout the texts such as stream of consciousness indirect interior monologue and free indirect speech All occurrences are analysed quantitatively in the computations of inferential and comparative statistics such as tests of time trends lexical variety and lexical frequency The target texts are digitised and the resulting text files are then

analysed using a bespoke novel computer program capable of the functions not provided by commercially available software such as WordSmith Tools and WMatrix This methodology enables in depth explorations of micro and macro textual features and allows a mixed method approach combining close reading qualitative analysis with systematic quantitative comparisons The empirical study of the digital corpus of eleven Italian re translations of Virginia Woolf s *To the Lighthouse* identifies a progressive source text orientation only in a relatively few aspects of a few target texts The translators presence affects all the examined target texts in terms of register and style under the influence of the Italian translation norms usually attributed to the translation of literary classics Its intended readership comprises students of the mentioned fields and the general public of readers editors and publishers      **Find Me Again** Janet K. P. Messina,2023-10-13 Private Censorship is about free speech and how corporations and social groups can interfere with it J P Messina asks and variously answers questions like what should we think when employees get fired for things they say When is it appropriate for social media firms to deplatform users and what does it mean for our democracy that those in charge of such decisions are often wealthy

Silicon Valley executives Do search engines act as massive gatekeepers to information in troubling ways and how might they be constrained if so Messina argues that while there is much to worry about when it comes to these exercises of private power it would be a mistake to simply do away with them as some have suggested      **Language Policy in Business**
