Searching For Vietnam Selected Writings On Vietnamese Culture And Society:

Searching for Vietnam A. Terry Rambo, 2005 Volume 9 of the Kyoto Area Studies on Asia brings together the author's selected writings about Vietnam from the past forty years. The book opens with an autobiographical account of his history as a Vietnam researcher that sets each of the selections into the context of the time and situation in which it was written. The writings are grouped into five topical sections: cultural history, religion and cultural ecology, the Vietnamese village, the impact of the war on South Vietnamese society, Vietnam's development prospects in the reform period, and problems of development in Vietnam's mountains.

State-Society Interaction in Vietnam Huynh Thi Phuong Linh, 2016 This book, based on anthropological research on local irrigation management in the Mekong Delta, sheds light on state-society interactions at the interface between bureaucratic and informal areas. Data from ethnographic case studies was framed abductively by an institutional bricolage approach. Cleaver 2012 and state power Goebel 2011. The study goes beyond an institutions process and individual bargaining to argue that local irrigation management is guided by the co-evolution between the state and local actors. It is the everyday dialogue that in the co-existence of the hierarchical state management structure and the space of local flexibility, officially and unofficially, refines the local practices. Vietnamese Stories for Language Learners Tri C. Tran, Tram Le, 2017-12-19 Vietnamese Stories for Language Learners: a language learning experience for beginner to intermediate students of the Vietnamese language. Nothing introduces students and cultural enthusiasts to a language and people better than stories. Intended for Vietnamese language students or heritage learners, the stories in this volume present the everyday vocabulary and grammar in use in Vietnam today. Forty folk stories have been edited and simplified for learning purposes and are presented in parallel Vietnamese and English versions to facilitate language learning. These delightful Vietnamese folktales immediately animate the culture, offering readers a glimpse of the social, cultural, and religious aspects of Vietnamese society in bygone eras. The English translations allow readers who are not yet studying the language to experience the wisdom and humor in these traditional, well-loved stories. Online audio recordings in Vietnamese help students improve their pronunciation and inflection and introduce readers to the uniquely Vietnamese story of storytelling. Discussion questions, vocabulary, and cultural notes are provided at the end of each story. All media content is accessible on the Tuttle Publishing website.

Reforming Vietnamese Higher Education Nhai Thi Nguyen, Ly Thi Tran, 2019-11-01 This book deepens readers' conceptual understanding of and provides practical insights into Vietnam's higher education reforms. Globalisation has had profound impacts on higher education worldwide, creating transnational linkages and junctures as well as disjunctures. At the same time, it has generated fluidities, hybridities, and mobilities. Within the postcolonial context of Vietnam, it is imperative to identify the unique global traits that characterise the Vietnamese higher education system. The book focuses specifically on key aspects of culture and values that are decisive to the reform of

Vietnamese higher education under the forces of globalisation It critically examines how global forces have shaped and reshaped Vietnam's higher education landscape At the same time the book explores local demands on Vietnamese higher education and deciphers how higher education institutions are responding to globalisation internationalisation and local demands Based on empirical research theoretical approaches and the experiences of researchers from Vietnam and overseas it addresses critical perspectives on the aspects fundamental to the reform of Vietnamese higher education and outlines viable paths for the future *The Oxford Handbook of Buddhist Practice* Paula Kane Robinson Arai, Kevin Trainor, 2022

Asia Vol 23 Professor Ito has succeeded admirably in juxtaposing her study of official documents interviews with officials and academics and the results of her own excellent first hand field work to demonstrate why ethnic classification in Vietnam has been far more a political than a scientific project Her book deserves to be read not only by those interested in Vietnam but also by others interested in the politics of ethnicity more generally Pacific Affairs Vol 87 No 4 December 2014 **Bangsa and Umma** Hiroyuki Yamamoto, 2011 Having experienced a large scale reorganization of social order over the past decade people of the Malay world have struggled to position themselves They have been classified and have classified themselves with categories as bangsa nation ethnic group and umma Islamic network In connection with these key concepts this study explores a variety of dimensions of these and other people grouping classifications which also include Malayu Jawi and Paranakan The book examines how these categories played a significant part in the colonial and post colonial periods in areas ranging from Malaysia Indonesia and the Philippines It demonstrates the extent to which shifting social conditions interact with the contours of group identity This is a collaborative work by scholars based in the US Japan Malaysia and Australia Understanding the genealogy of people grouping concepts provides valuable insight into the mechanics of power relations and how the agency of cultural identification constructs the continuity and the contentious in the political world Pacific Affairs Vol 85 No 4 December 2012 **The Reinvention of Distinction** Van Nguyen-Marshall, Lisa B. Beyond the Knowledge Trap Thomas Menkhoff, 2011 Based on the success of the World Scientific publication *Governing and Managing Knowledge* edited by Thomas Menkhoff Hans Dieter Evers and Chay Yue Wah in 2005 this unique volume presents 16 new theoretical practical papers on the strategic aspects of developing knowledge based economies with case studies from South Korea Singapore Malaysia Thailand Vietnam Indonesia Philippines and Uzbekistan A key question which the book seeks to answer is what Asian policy makers and leaders in government economy and society can do to further enhance learning and capability formation so as to foster sustainable development in an increasingly globalized world It addresses the politico cultural and socio economic challenges of effectively managing both knowledge resources and coping with the great digital divide created by globalization continuous technology innovations and rapid external change A key objective of the publication is to enable latecomers in the knowledge race to understand some of the critical success factors of sustainable knowledge based development and what it takes to build a resilient knowledge based economy **On the Frontiers of Climate and Environmental Change** Ole Bruun, Thorkil Casse, 2013-03-29 This book is intended to fill a gap in climate change literature by providing a comprehensive regional study and identifying the overall adaptation challenges in a real life context The way in which possible climate impacts interact with a range of other challenges in agriculture forestry disaster planning health care general economic development and common livelihoods are presented and it is argued that greater realism and broader vision are needed in order to address the climate challenge For instance unsuitable land use changes in both coastal and highland regions may increase the vulnerability of rural people many of whom are already living on the fringes The author's also state's that depending on context it may be pertinent to address short term and unsustainable resource use irregularities in local land management ineffective governance and social inequality which are all

likely to aggravate the impact of external climate and weather Not least it is imperative to integrate general environmental management with any climate change adaptation effort

Myths and Realities Yoshifumi Tamada, 2009 This study now in paperback traces the root of Thailand's current political instability back to the 1990s It challenges the prevailing view that the nation's democratization process during the decade was led by the active middle class The book argues that the key role played by the middle class was moderation rather than promotion of democracy The middle class achieved discursive power after the May 1992 incident and prevented the numerical majority of the population rural residents and urban lower class people from gaining the hegemony With competing forces in Thai politics under the microscope and with a particular focus on passive political actors *Myths and Realities* shows that the appeasement of the opponents of democratization is no less crucial than the emergence or empowerment of its proponents The Japanese original of *Myths and Realities* won an Ohira Masayoshi Memorial Prize in 2003
