The White Spaces of Kenyan Settler Writing Terrence L. Craig,2017-03-27 The White Spaces of Kenyan Settler Writing provides an overview of Kenyan literature by white writers in the half century before Independence in 1964 Such literature has been overshadowed by that of black writers to the point of critical ostracism It deserves attention for its own sake as the expression of a community that hoped for permanence but suffered both disappointment and dispossession It deserves attention for its articulation of an increasingly desperate colonial and Imperial situation at a time when both were being attacked and abandoned in Africa as in other colonies elsewhere and when a counter discourse was being constructed by writers in Britain as well as in Africa Kenya was likely the best known twentieth century colony for it attracted publicity for its iconic safaris and its Happy Valley scandals Yet behind such scenes were settlers who had taken over lands from the native peoples and who were trying to make a future for themselves based on the labour willing or forced of those people This situation can be seen as a microcosm of one colonial exercise and can illuminate the historical tensions of such times The bibliography is an attempt to collect the literary resources of white Kenya in this historically significant period

 independent researcher and author Gareth Patterson has spent his entire adult life working tirelessly for the greater
 protection of African wildlife and more particularly for that of the lion Born in England in 1963 Gareth grew up in Nigeria
 and Malawi From an early age he knew where his life s path would take him it would be in Africa and his life s work would be
 for the cause of the African wilderness and its wild inhabitants His is an all encompassing African story From his childhood in
 West and East Africa to his study of a threatened lion population in a private reserve in Botswana to his work with George
 Adamson celebrated as the Lion Man of Africa we witness Gareth s growing commitment to his life s mission This is nowhere
 more evident than in his account of his life as a human member of a lion pride experiencing life and death through its eyes as
 he successfully rehabilitated three famous orphaned lion cubs back into a life in the wilds At considerable risk to his own
 personal safety he exposed the sordid canned lion industry in South Africa bringing this shameful practice to international
 attention After moving to the Western Cape he took up the fight for the African elephant notably the unique endangered
 Knysna population and published his astonishing findings in his 2009 book *The Secret Elephants* Perhaps unsurprisingly
 given the stressful nature of his work Gareth suffered a massive physical and mental breakdown in his forties which he
 discusses here for the first time with an openness that underlines his courage Lesser men might have been broken but his
 lion s heart fought back and he ultimately overcame his illness Gareth Patterson s long awaited autobiography is a moving
 account of one man s single minded dedication to the preservation of Africa s wildlife It is also a stark reminder that if the
 human race does not want to lose Africa s priceless wild heritage there is no time to waste The lion is my totem animal and
 this is the story of my life in Africa for the lion **The History of Natural History** Gavin D. R. Bridson,2008 With over 5
