Riverbank and Seashore in Nineteenth and Twentieth Century British Literature Gillian Mary Hanson,2005-11-17 The waters of river and sea represent a kind of freedom a liberty which as Iris Murdoch writes enables man to exist sanely without fear and to perceive what is real As settings in fiction the riverbank and seashore are rich in potential offering a sense of destiny and suggesting the possibility of self truth and self knowledge In British literature the rural costal setting shadowed by cliffs tugged by the constant movement of the sea becomes the site of revelation and generates the energy that brings characters to a new level of self awareness The river s embankments bridges and tunnels often mark specific stages of revelation and movement in plot Entrapment and isolation contingency and communication are themes that seem born of such settings This book examines the ways in which 21 modern and postmodern writers from Tennyson to Ted Hughes from

Jane Austen to Jane Gardam have made use of the physical environment of riverbank and seashore in their work. It considers how each author employs the physical settings in the service of plot and character development and how those settings are used to connect with some of the major intellectual concerns of the late 19th and 20th centuries. Appendices offer significant quotations from the texts under discussion arranged according to the location they describe: the rural river, the urban river, river into sea, the rural shore and the urban shore.

The Sea of Silence Seth Hunter, 2021-05-15. The seventh volume in the thrilling adventure series featuring Nathan Peake, British naval officer and spy during the French Revolutionary and Napoleonic Wars. The war moves to the Americas as Captain Nathan Peake, freed from service in the Royal Navy, is secretly commissioned by President Thomas Jefferson to command a naval operation in the Caribbean Sea and frustrate plans to establish a new French Empire on the North American mainland, which would pose an existential threat to the infant United States. With Europe temporarily at peace, Napoleon Bonaparte has dispatched his victorious army with a vast fleet to the Caribbean. Its aim is to re-impose French authority in the region and then occupy a vast swathe of territory stretching from New Orleans to the Canada border and westward from the Mississippi to the Rocky Mountains. But first they must reconquer Saint Domingue, now Haiti, where they are opposed by rebel slaves led by the African general Toussaint L'Ouverture. Nathan is sent from England with a small squadron crewed by British and American sailors, tasked with disrupting French supply lines at sea and running guns to the rebel forces. But if the men are caught, they will be disowned by the British and US governments and very likely hanged by the French as pirates. This adventure will lead Nathan into a running battle with the French Navy in the troubled waters off Saint Domingue, an increasingly desperate involvement in one of the most brutal colonial conflicts in history, a dangerous liaison with Pauline Bonaparte, sister of Napoleon and wife of the French commander, and a battle of ideas and ideologies that persists to the present day.

Race, Place and the Seaside Daniel Burdsey, 2016-08-18. This is the first academic monograph to focus exclusively on issues of race, ethnicity, whiteness and multiculturalism at the English seaside. The book calls for acknowledgement of the racialised nature of this environment and proposes that its distinctive spaces, places, traditions and narratives should be included within broader analyses of race in contemporary Britain. Introducing the concept of coastal liquidity to explain shifting ethno-racial demographics, migratory politics and spatial dynamics at the edge of the sea, along with the relative immobilities of the minority ethnic communities who move and reside there, the author provides a relational exploration of seaside experiences both as a locus of racialised categorisation, exclusion and subjugation, and one of resistance, conviviality and intercultural exchange. Combining theoretical insight and empirical fieldwork, the book disrupts dominant thinking that fixes ontologically minority ethnic bodies to urban spaces and overcomes their erasure and silencing from the seaside landscapes of the popular.
