Types of Storms of the United States and Their Average Movements Edward Hall Bowie, Richard Hanson Weightman, 1914

Seasons of a Dean's Life Walter H. Gmelch, Dee Hopkins, Sandra Damico, 2023-07-03 What are the demands of being a dean What leadership development do deans need as they progress through their academic careers How are their responsibilities changing What are institutions looking for in applicants This book identifies the range of leadership skills required and illuminates the process of building leadership capacity by drawing on interviews with over 50 sitting deans both women and men on the insights derived from conducting professional development seminars for several hundred deans and on the authors 48 years of collective experience in eight different deanships The abundant examples and accounts

of individual deans leadership successes and failures and the competences they developed along their career paths give the reader a taste of what the deanship is really like and how the role changes over time In the process of gathering their data and tracing their own and others administrative journeys the authors found similarities in how deans progress as leaders in the common rites of passage they encounter and in the evolution of their role They describe the stages or seasons of the deanship ranging from getting started the first three years of deanship springtime to hitting your stride years four to seven of deanship summer and keeping the fire alive eight years and beyond of deanship fall through to planning to step down and leaving the role winter What also emerged from the authors research is that most deans come to their positions without leadership training without prior executive experience without a clear understanding of the ambiguity of their new role or its responsibilities This book fills a void by offering guidance on applying for a deanship preparing for the role and purposefully building the needed skills and knowledge For anyone considering taking on a deanship this book offers a unique window into the role For sitting deans it offers a compass for shaping the trajectory of their careers **na** Lawrence Nubari Maeba,

Sea of Storms Stuart B. Schwartz, 2016-07-26 A panoramic social history of hurricanes in the Caribbean The diverse cultures of the Caribbean have been shaped as much by hurricanes as they have by diplomacy commerce or the legacy of colonial rule In this panoramic work of social history Stuart Schwartz examines how Caribbean societies have responded to the dangers of hurricanes and how these destructive storms have influenced the region s history from the rise of plantations to slavery and its abolition to migrations racial conflict and war Taking readers from the voyages of Columbus to the devastation of Hurricane Katrina Schwartz looks at the ethical political and economic challenges that hurricanes posed to the Caribbean s indigenous populations and the different European peoples who ventured to the New World to exploit its riches He describes how the United States provided the model for responding to environmental threats when it emerged as a major power and began to exert its influence over the Caribbean in the nineteenth century and how the region s governments came to assume greater responsibilities for prevention and relief efforts that by the end of the twentieth century were being questioned by free market neoliberals Schwartz sheds light on catastrophes like Katrina by framing them within a long and contentious history of human interaction with the natural world Spanning more than five centuries and drawing on extensive archival research in Europe and the Americas *Sea of Storms* emphasizes the continuing role of race social inequality and economic ideology in the shaping of our responses to natural disaster *An Historical Climatology of Damaging Downslope Windstorms at Boulder, Colorado* C. David Whiteman, Johanna G. Whiteman, 1974 A climatology is developed for damaging downslope windstorms at Boulder Colorado based on newspaper accounts since 1869 One hundred and fifty one documented windstorms provide the data on which statistical and climatological calculations are based The area affected by downslope windstorms is described information on the temporal distribution of the windstorms is given including annual monthly and diurnal distributions and windstorm characteristics are discussed Wind related damage is classified by severity and areal
