Secret Self Psychoanalytic Experiences:

The Secret Self Theodor Reik,1952 **Psychoanalytic Studies of Religion** Benjamin Beit-Hallahmi,1996-09-13 The first critical guide to the essential literature reflecting and expressing psychoanalytic approaches to religion this volume s concentrates on critical assessments that steer the user toward works of lasting value The book s first priority is to include publications clearly aimed at continuing the Freudian tradition and contributing to the psychoanalytic study of religion The book will be of interest to scholars and students of psychology and religion as well as the general reader who is seeking works on those topics Most of the psychoanalytic literature in English since 1920 is included and is organized in 21 topical sections Cross references and indexes increase the usefulness of the work The author has tried to include every coherent effort guided by psychoanalytic theory to offer an explanation understanding or interpretation of religion or religious behavior The work will be of interest in the fields of psychoanalysis psychology sociology anthropology history literature folklore and religion Public libraries will find this a valuable reference tool to offer the general reader who is interested in a broad spectrum of ideas **Repressed Spaces** Paul Carter,2004-11-02 In *Repressed Spaces* Paul Carter tours the cultural history of agoraphobia the fear of open space Its symptoms were first described in *The Anatomy of Melancholy* 1621 by Robert Burton the British scholar and writer although it wasn t until 1871 that Carl Otto Westphal coined the term to describe several of his patients who experienced severe anxiety when walking through streets or squares There have been many attempts to explain and treat the condition critics of modernization have linked it to bad city planning psychoanalysts calling it street panic have blamed it on the Oedipus complex psychiatrists have tied it to existential insecurity and describe it as the fear of places or situations that have triggered panic attacks Freud believed that agoraphobia like all phobias was part of an anxiety neurosis and had a sexual origin Taking as his starting point the fact that Freud himself was agoraphobic and analyzing the way people have negotiated open spaces from Greek and Roman times to the present day Paul Carter finds that space fear ultimately results from the inhibition of movement Along the way the author asks why Freud repressed his agoraphobia and examines literature the work of architects and theorists including Le Corbusier Walter Benjamin and R D Laing artists such as Munch Lapique and Giacometti and the German street films of the 1920s He concludes by proposing a new way of regarding open space a new poetics of agoraphobia one that is sensitive to the agoraphobe s point of view and provides lessons for architects and urban planners today **Hidden Self-Harm** Maggie Turp,2002-11-10 The book takes a new look at self harm focusing particularly on the under explored area of hidden self harming behaviour These behaviours may not be immediately identifiable as self harm by counsellors therapists or their clients but Turp shows how recognition and understanding of hidden self harm can improve practice with those affected **Feminizing the Fetish** Emily Apter,2018-03-15 Shoes gloves umbrellas cigars that are not just objects the topic of fetishism seems both bizarre and inevitable In this venturesome and provocative book Emily Apter offers a fresh account of the complex relationship between

representation and sexual obsession in turn of the century French culture Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive she considers fetishism as a cultural artifact and as a subgenre of realist fiction Apter traces the web of connections among fin de siècle representations of perversion the fiction of pathology and the literary case history She explores in particular the theme of female fetishism in the context of the feminine culture of mourning collecting and dressing

Dimensions of Psychotherapy, Dimensions of Experience Michael Stadter, David E. Scharff, 2005-09-16 Dimensions of Psychotherapy Dimensions of Experience explores the three basic elements of psychotherapy time space and number summarising theory setting it in context and bringing concepts to life with clinical illustrations The Meaning of Irony Frank Stringfellow, 1994-07-01 Genuinely interdisciplinary in approach The Meaning of Irony brings together literary analysis and from psychoanalysis both theory and case studies Its investigation ranges from everyday examples of verbal irony conscious and unconscious to the complex irony of literature This book provides the first full account of verbal irony from a psychoanalytic point of view Stringfellow shows how the rhetorical tradition by viewing the literal level of irony as something the speaker doesn't really mean flattens out the rich ambiguities of irony and misses the unconscious meanings that are hidden behind ironic statement He argues that only psychoanalysis can recover these unconscious meanings and reveal the origins of irony
