Secrets Of The Vaulted Sky Astrology And The Art Of Prediction:

The Secrets of the Vaulted Sky David Berlinski, 2009-04-28 David Berlinski explains the power of humanity's oldest predictive system in this stunning and original new book. Astrology began at the dawn of time and over the centuries became a complex system with gifted seers often achieving results of eerie accuracy. For most of recorded history, astrologers have been found at the elbows of the rich and the powerful. However, Newton's system of the world put an end to one aspect of the astrological tradition. As a result, a method once widely used has become widely discredited, especially by scientific critics with little knowledge of astrology itself. With a genius for storytelling and penetrating analysis, Berlinski explains how astrology works and how astrological ideas, although disguised, have reappeared in modern scientific theories. **Secrets of**

the Vaulted Sky David Berlinski, 2009-11 The astrologer is a figure almost as old as history itself, and his science expresses the human desire to pierce the veil of the future. Whispering into the ears of kings, working from seedy waterfront offices, or keeping themselves in seclusion, astrologers saw in the stars a universal system of knowledge without limit. Their theory remained a fixture of thought until astrology seemed to disappear as Isaac Newton demonstrated the power of an authentic scientific system. But its doctrine has not vanished and turns up in many aspects of modern science. In this respect, astrology can't die because the desire to see into the future is an immortal human longing. This superb book traces the birth, life, and continuing power of astrology in our world.
