## **Security Studies For The 1990s:**

*Security Studies for the 1990s* Richard H. Shultz, Roy Godson, Ted Greenwood, 1993 The United States is grappling with a new security framework to replace the structure of the Cold War era American policymakers face a host of challenges including regional conflicts ethnic tensions and weapons proliferation that commanded little attention in the past And tomorrow is likely to bring new concerns barely on today's horizon Despite these changes the study of national security remains largely a creature of the Cold War The security studies discipline needs to be overhauled But how should it be revised so that tomorrow's citizens and experts are equipped to understand and help manage new challenges One option is to downgrade security studies and divert educational resources elsewhere Another is to redefine the subject to include the study of an all encompassing list of international problems The third choice is to retain basic definitions concepts and subjects while also making significant adjustments *Security Studies for the 1990s* addresses all three options This book is the first to reexamine security studies in the post Cold War era Scholars and directors from leading security studies programs representing a cross section of viewpoints on foreign affairs discuss what new material needs to be taught and which courses and concepts should be recast Each chapter provides an indepth review of a major security studies course proposing needed changes and a model syllabus Subjects include intelligence policy global environmental problems the causes and termination of wars and collective security A chapter on the teaching of ethics a subject often neglected in the past is also featured BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

**Challenges to American National Security in the 1990s** M. Nacht, A. Nichols, G.H. Quester, J.J. Weltman, 2012-12-06 The decade of the 1990s offers a chance to build a new and better international order What policy choices will this decade pose for the United States This wide ranging volume of essays imaginatively addresses these crucial issues The peaceful revolutions of 1989 1990 in the Soviet Union and Eastern Europe have swept away the foundations of the Cold War The Eastern European nations are free Europe is no longer divided Germany is united The Soviet threat to Western Europe is ending with the collapse of the Warsaw Pact and the withdrawals and asymmetrical cuts of Soviet forces And U S Soviet rivalry in the Third World is giving way to cooperation in handling conflicts as in Iraq and elsewhere Much of course remains uncertain and unsettled What sort of Soviet Union will emerge from the ongoing turmoil with what political and economic system and what state structure How far and how soon will the Eastern European states succeed in developing pluralist democracies and market economies Are the changes irreversible Certainly there will be turmoil backsliding and failures but a return to the Cold War hardly seems likely

**The Evolution of International Security Studies** Barry Buzan, Lene Hansen, 2009-08-27 International Security Studies ISS has changed and diversified in many ways since 1945 This book provides the first intellectual history of the development of the subject in that period It explains how ISS evolved from an initial concern with the strategic consequences of superpower rivalry and nuclear weapons to its current diversity in which environmental economic human and other

European Security in the 1990s W. Laqueur, L. Sloss, 2013-11-11 Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion There is also a problem in the perceived relative economic decline of the United States vis a vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism
