Herzlinger,2018-03-15 This manuscript is the 4th Volume of the Gesher Benot Ya aqov GBY monograph sub series The goal of
the book is to publish the lithic assemblages originating in the excavations of the Acheulian site at Gesher Benot Ya aqov GBY
Israel The authors provide the readers with detailed descriptions of the lithic assemblages illustrations maps photographs
drawings and complete inventory of the artifacts that were excavated during the seven field seasons of 1989 1997 two in
1997 under the directorship of Prof Naama Goren Inbar This manuscript includes the classification of Large Cutting Tools
bifaces handaxes and cleavers Cores and Core Tools and Flake Tools made of three different raw materials flint basalt and
limestone This major classification system enables in addition to the characterization of the assemblages intra and inter
assemblage analyses and comparisons It forms the foundation and means with which the GBY cultural sequence can be
investigated and compared with other Levantine African and Asian Acheulian entities From a methodological perspective the
authors apply a detailed attribute analysis to all lithic items a method that integrates morpho technological and stylistic
observations culminating in better understanding of the Acheulian realm as documented by the analysis This analysis is
aimed to refine and improve the understanding beyond that of types and their technology and to allow describing the
reduction sequence cha ne op ratoire of some of the major components of the lithic assemblages The unique record of diverse
data from GBY provides insight into hominin behavior through time along the margins of the paleo Lake Hula and sheds light
on processes that led to the colonization of other parts of Eurasia The book will be of interest to academics and students in
