Walker, 2009-11-23 Winner of the Western History Association's 2009 Hal K Rothman Award Finalist in the Western Writers of America Spur Award for the Western Nonfiction Contemporary category 2008 The San Francisco Bay Area is one of the world's most beautiful cities Despite a population of 7 million people it is more greensward than asphalt jungle more open space than hardscape A vast quilt of countryside is tucked into the folds of the metropolis stitched from fields farms and woodlands mines creeks and wetlands In *The Country in the City* Richard Walker tells the story of how the jigsaw geography of this greenbelt has been set into place The Bay Area's civic landscape has been fought over acre by acre an arduous process requiring popular mobilization political will and hard work Its most cherished environments Mount Tamalpais Napa Valley San Francisco Bay Point Reyes Mount Diablo the Pacific coast have engendered some of the fiercest environmental battles in the country and have made the region a leader in green ideas and organizations This book tells how the Bay Area got its green grove from the stirrings of conservation in the time of John Muir to origins of the recreational parks and coastal preserves in the early twentieth century from the fight to stop bay fill and control suburban growth after the Second World War to securing conservation easements and stopping toxic pollution in our times Here modern environmentalism first became a mass political movement in the 1960s with the sudden blooming of the Sierra Club and Save the Bay and it remains a global center of environmentalism to this day Green values have been a pillar of Bay Area life and politics for more than a century It is an environmentalism grounded in local places and personal concerns close to the heart of the city Yet this vision of what a city should be has always been informed by liberal even utopian ideas of nature planning government and democracy In the end green is one of the primary colors in the flag of the Left Coast where green enthusiasms like open space are built into the fabric of urban life Written in a lively and accessible style *The Country in the City* will be of interest to general readers and environmental activists At the same time it speaks to fundamental debates in environmental history urban planning and geography Explorer's Guide Salt Lake City, Park City, Provo & Utah's High Country Resorts: A Great Destination Christine Balaz, 2010-11-01 An updated edition of the most comprehensive guide to the area full of spectacular scenery and ripe for outdoor adventure In this definitive guide to Utah's Wasatch Region entertainment abounds from the ski slopes of Park City to the theaters of Salt Lake Set against the stunning backdrop of the Rockies impressive peaks this region offers the perfect pairing of outdoor escapes and urban options with convenience accessibility and affordability **Neve's The city and country purchaser and builder's dictionary** Richard NEVE (Philomath.), 1736 City, Country, Empire Jeffry M Diefendorf, Kurk Dorsey, 2012-01-26 In the urgently expanding field of environmental history two trends are emerging Research has internationalized crossing political and historical borders And

Mary Lethert Wingerd, 2010-06-07 In 1862 four years after Minnesota was ratified as the thirty second state in the Union simmering tensions between indigenous Dakota and white settlers culminated in the violent six week long U S Dakota War Hundreds of lives were lost on both sides and the war ended with the execution of thirty eight Dakotas on December 26 1862 in Mankato Minnesota the largest mass execution in American history The following April after suffering a long internment at Fort Snelling the Dakota and Winnebago peoples were forcefully removed to South Dakota precipitating the near destruction of the area s native communities while simultaneously laying the foundation for what we know and recognize today as Minnesota In North Country The Making of Minnesota Mary Lethert Wingerd unlocks the complex origins of the state origins that have often been ignored in favor of legend and a far more benign narrative of immigration settlement and cultural exchange Moving from the earliest years of contact between Europeans and the indigenous peoples of the western Great Lakes region to the era of French and British influence during the fur trade and beyond Wingerd charts how for two centuries prior to official statehood Native people and Europeans in the region maintained a hesitant largely cobeneficial relationship Founded on intermarriage kinship and trade between the two parties this racially hybridized society was a meeting point for cultural and economic exchange until the western expansion of American capitalism and violation of treaties by the U S government during the 1850s wore sharply at this tremulous bond ultimately leading to what Wingerd calls Minnesota s Civil War A cornerstone text in the chronicle of Minnesota s history Wingerd s narrative is augmented by

more than 170 illustrations chosen and described by Kirsten Delegard in comprehensive captions that depict the fascinating often haunting representations of the region and its inhabitants over two and a half centuries North Country is the unflinching account of how the land the Dakota named Mini Sota Makoce became the State of Minnesota and of the people who have called it at one time or another home Puppy Dogs and Country Girls Don't Belong on City Streets Billy Stone, 2011-02-15 As a young girl leaving her Alabama home for the first time ever Julie Leigh was no different from any other country girls who dreamed of bright lights and large crowds screaming Julie Julie The book tells the story about a young person searching for success and responding to that small voice crying out Go to Nashville Julie Leigh go to Nashville Making it big in Nashville is not a straightforward road There are many bypasses detours and sharp curves to navigate

The Country and the City Raymond Williams, 1975 As a brilliant survey of English literature in terms of changing attitudes towards country and city Williams highly acclaimed study reveals the shifting images and associations between these two traditional poles of life throughout the major developmental periods of English culture Subject Headings Used in the Dictionary Catalogs of the Library of Congress Library of Congress, Library of Congress. Subject Cataloging Division, 1966 **Country, Park and City** Francis R. Kowsky, 2003 After beginning his career as an architect in London Calvert Vaux 1824 1895 came to the Hudson River valley in 1850 at the invitation of Andrew Jackson Downing the reform minded writer on houses and gardens As Downing's partner and after Downing's death in 1852 Vaux designed country and suburban dwellings that were remarkable for their well conceived plans and their sensitive rapport with nature By 1857 the year he published his book *Villas and Cottages* Vaux had moved to New York City There he asked Frederick Law Olmsted to join him in preparing a design for Central Park He spent the next 38 years defending and refining their vision of Central Park as a work of art After the Civil War he and Olmsted led the nascent American park movement with their designs for parks and parkways in Brooklyn Buffalo and many other American cities Apart from undertakings with Olmsted Vaux cultivated a distinguished architectural practice Among his clients were the artist Frederic Church whose dream house Olana he helped create and the reform politician Samuel Tilden whose residence on New York's Gramercy Park remains one of the country's outstanding Victorian buildings A pioneering advocate for apartment houses in American cities Vaux designed buildings that mirrored the advance of urbanization in America including early model housing for the poor He planned the original portions of the Metropolitan Museum of Art and the American Museum of Natural History and conceived a stunning proposal for a vast iron and glass building to house the Centennial Exhibition in Philadelphia Especially notable are the many bridges and other charming structures that he designed for Central Park Vaux considered the Park's Terrace decorated by J W Mould as his greatest achievement An active participant in the cultural and intellectual life of New York Vaux was an idealist who regarded himself as an artist and a professional And while much has been written on Olmsted comparatively little has been published about Vaux The first in depth account of Vaux's career *Country Park and City* should be of great interest to

historians of art architecture and urbanism as well as preservationists and other readers interested in New York City's past and America's first parks
