Seeing Angels True Contemporary Accounts Of Hundreds Of Angelic Experiences:

Seeing Angels - True Contemporary Accounts of Hundreds of Angelic Experiences Emma Heathcote James, 2009

Collected here are more than 50 fascinating case histories of individuals who have claimed to encountered or been saved by a heavenly being According to Time magazine 69% of American people believe in angels and 46% feel they have a guardian angel In fact people the world over have claimed to have experienced visions of angels These people are not crazy new age loonies but ordinary individuals from all walks of life from professionals to prisoners to children *Seeing Angels - True Contemporary Accounts of Hundreds of Angelic Experiences* Emma Heathcote James, 2009-05-04 Emma Heathcote James has analysed over 800 such accounts for her PhD into Contemporary Experiences of Angels Hundreds of people have claimed to have experienced visions of angels These people are not crazy new aged loonies but ordinary people from all walks of life from professionals to prisoners to children This absorbing book the product of painstaking research gets to grips with the issues surrounding these strange manifestations What do they mean How do we know that we ve seen one When are they seen The weight of the evidence may well lead you to adjust the way you have previously considered the supernatural

Encountering Mystery Dale C. Allison, 2022-07-26 Despite widespread skepticism on the matter a significant number of people today have stories of religious experience moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions How should rationally minded people respond What would your reaction be if someone told you that one night while sitting alone she saw through the window a brilliant light descend from the sky until it was so large that it filled the room and that it radiated a feeling of pure love And what would you say if a friend confided that one night he woke up and could not move felt he was being suffocated and sensed an evil spirit in the room By default in the secular age we are skeptical about anything mysterious or supernatural More likely than not most people would respond to the stories above with embarrassment and concern about the person s grasp of reality or they would attempt to explain them away through rational or scientific means But the truth is that religious experiences like these are not as uncommon as they seem although talking about such experiences often is This is the case even in a faith tradition such as Christianity despite the Bible s numerous accounts of miraculous and mysterious happenings In *Encountering Mystery* noted biblical scholar Dale Allison makes the argument that stories of religious experience are meaningful and not to be marginalized and that we have a moral prerogative to lovingly engage with such stories regardless of whether we have had similar experiences Through a close look at phenomena such as moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions Allison shows how ordinary practices of faith need not be at odds with individual religious experiences Above all he enjoins us to be honest about the persistence of religious experience in a secular age and to make space for those who encounter mystery in their lives **Intuitive Knowing as Spiritual Experience** Phillip H. Wiebe, 2015-09-16

This book is Wiebe's defense of the claim that a significant form of spiritual experience is found in knowing something we have no right to know. He selects forty-five first-hand accounts from a data base at the University of Wales to make his case and in solidarity with those people recounts something of his own experience. *Gifts from Angels* Chrissie Astell, 2012-01-01

Angels are everywhere ready to help in times of need. We just have to open ourselves to their healing energies and this uplifting collection shows how. Drawing on leading expert Chrissie Astell's personal experiences of angelic intervention along with moving accounts from her readers, course participants and workshop attendees, *Gifts from Angels* tells stories of children protected, accidents avoided and other life-changing miracles. Astell also provides practical visualizations and meditations along with guidance on guardian angels, archangels and the life to come. **Spiritual**

Encounters with Unusual Light Phenomena Mark Fox, 2013-06-15 This book is a study of unusual light phenomena based on almost 400 unpublished accounts of modern-day encounters with strange lights collected over a period of thirty years held at the University of Wales Lampeter. It is an original and perennially topical book that goes beyond existing studies of unusual light phenomena such as lights encountered during angelic experiences, near-death experiences, after-death communications in a number of ways. It shows, for example, that experiences of unusual spiritual, religious and paranormal lights are cross-cultural, trans-historical and are reported widely in the present day but not necessarily experienced when near to death. It also demonstrates that these experiences share to a remarkable degree a common core, showing by drawing on a large number of vivid unpublished and dramatic testimonies that unusual lights typically manifest at times of crisis and are overwhelmingly benign and loving, producing turning points in the lives of experiencers and typically setting them in new spiritual and creative directions. Jesus' Resurrection and Apparitions Jake O'Connell, 2016-11-03

Did Jesus rise physically from the dead or did he rise as a real non-bodily apparition like those reported in the parapsychological literature? In this book, which is the first book-length examination of the question in over fifty years, Jake O'Connell argues in favor of the physical resurrection hypothesis. In order to do so, he employs Bayes' Theorem, a mathematical theorem which encapsulates the way humans think when they analyze the probability of a hypothesis. In addition, he provides a thorough overview of the evidence for the reality of apparitions of the dead. **The Truth about Angels** Theresa Cheung, 2021-03-04 The Truth about Angels is the one book you need to discover the angels within. With the world in turmoil, spiritual forces are needed more than ever before. Harnessing the angel and new age movement can help you make sense of life when it feels directionless. Angels provide us with hope and illuminate a new path forward. They are appearing with more frequency and intensity in both our daily lives and our dreams as they're wanting us to see, hear and know them, because consciously or unconsciously we have collectively been asking for them. Rather than visiting or becoming dependent on gurus, psychics or mediums, expert Theresa Cheung is here to show you how to directly communicate with angels on your own. Divided into three parts: The Secret World of Angels, The Secret Language of Angels and Angels and Miracles, Theresa Cheung's much-anticipated book will teach you

everything you need to know including how to decode the secret language they speak to us in how to look within rather than externally to find angels as well as sharing real life anecdotes on how angels have changed the lives of people all over the world In The Truth about Angels Theresa will also share her own spiritual story her book is based on decades of research personal experience and is underpinned by science Theresa Cheung is mysterious illuminating kind and informative Russell Brand Theresa Cheung shows us that the way forward is to understand that consciousness spiritual awareness is the fundamental ground of all experience Deepak Chopra Theresa offers fascinating and practical advice to aid people in personally exploring mind bending concepts and applying them to their own lives Eben Alexander In a world full of naysayers and skeptics Theresa is helping to steer us on a new course She not only offers support and understanding to those with the gift of inner sight but also helps the non believer to come to terms with the existence of the paranormal and non corporeal with down to earth explanations that are backed by science Alexandra Wenman Sky well being Angel expert author of the Archangel Fire Oracle [The Lost Sheep in Philosophy of Religion](#) Blake Hereth, Kevin Timpe, 2019-09-04 Contemporary research in philosophy of religion is dominated by traditional problems such as the nature of evil arguments against theism issues of foreknowledge and freedom the divine attributes and religious pluralism This volume instead focuses on unrepresented and underrepresented issues in the discipline The essays address how issues like race sexual orientation gender identity disability feminist and pantheist conceptions of the divine and nonhuman animals connect to existing issues in philosophy of religion By staking out new avenues for future research this book will be of interest to a wide range of scholars in analytic philosophy of religion and analytic philosophical theology **What Does the Bible Say About Angels and Demons?** John Gillman, Clifford M. Yearly, 2021-02-21 Modern western culture seems to find angels demons and even dragons irresistible They are the topic of many books films and television series A recent poll indicated that nearly eighty percent of people believe in such beings But they are hardly a modern invention Such creatures that go beyond time and space have been imagined for centuries The Bible itself addresses the topic with various tales of angels and demons and yes even dragons If you are intrigued about this background this book is for you It reveals how thoroughly biblical these creatures are and what they can still teach us
