Seeing Forests For Trees Environment And Environmentalism In Thailand:

Seeing Forests for Trees Philip Hirsch, 1997 Contents emerged from a conference and follow up workshop at the Asia Research Centre on Social Political and Economic Change at Murdoch University **Living at the Edge of Thai Society** Claudio Delang, 2004-03 This book is the first major ethnographic and anthropological study of the Karen for over a decade and looks at such key issues as history ethnic identity religious change the impact of government intervention and gender relations Buddhism and Postmodern Imaginings in Thailand James Taylor, 2016-12-05 This book presents a rethink on the significance of Thai Buddhism in an increasingly complex and changing post modern urban context especially following the financial crisis of 1997 Defining the cultural nature of Thai urbanity the implications for local global flows interactions and emergent social formations James Taylor opens up new possibilities in understanding the specificities of everyday urban life as this relates to perceptions conceptions and lived experiences of religiosity Changes in the centre are also reverberating in the remaining forests and the monastic tradition of forest dwelling which has sourced most of the nation s modern saints The text is based on ethnography taking into account the rich variety of everyday practices in a m lange of the religious In Thailand Buddhism is so intimately interconnected with national identity and social economic and ethno political concerns as to be inseparable Taylor argues here that in recent years there has been a marked reformulation of important conventional cosmologies through new and challenging Buddhist ideas and practices These influences and changes are as much located outside as inside the Buddhist temples monasteries The Politics of Environment in Southeast Asia Philip Hirsch, Carol Warren, 2002-01-31 The environment in Southeast Asia is now a major issue of topical concern First book to give analysis in depth of the political processes involved in environmental disputes Provides a good selection of case studies in the region Questions the assumption that the middle classes are in the vanguard of the environmental movement Nature Across Cultures Helaine Selin, 2013-04-17 Nature Across Cultures Views of Nature and the Environment in Non Western Cultures consists of about 25 essays dealing with the environmental knowledge and beliefs of cultures outside of the United States and Europe In addition to articles surveying Islamic Chinese Native American Aboriginal Australian Indian Thai and Andean views of nature and the environment among others the book includes essays on Environmentalism and Images of the Other Traditional Ecological Knowledge Worldviews and Ecology Rethinking the Western non Western Divide and Landscape Nature and Culture The essays address the connections between nature and culture and relate the environmental practices to the cultures which produced them Each essay contains an extensive bibliography Because the geographic range is global the book fills a gap in both environmental history and in cultural studies It should find a place on the bookshelves of advanced undergraduate students graduate students and scholars as well as in libraries serving those groups

Environment, Development and Change in Rural Asia-Pacific John Connell, Eric Waddell, 2006-12-05 This volume examines the economic political social and environmental challenges facing rural communities in the Asia Pacific region as

global issues intersect with local contexts Such challenges from climatic change and volcanic eruption to population growth and violent civil unrest have stimulated local resilience amongst communities and led to evolving regional institutions and environment management practices changing social relationships and producing new forms of stratification Bringing together case studies from across mainland Southeast Asia and the Island Pacific an expert team of international contributors reveal how communities at the periphery take charge of their lives champion the virtues of their own local systems of production and consumption and engage in the complexities of new structures of development that demand a response to the vacillations of global politics economy and society Inherent in this is the recognition that development as we have come to know it is far from over Each chapter emphasizes the growing recognition that ecological and environmental issues are key to any understanding and analysis of structures of sustainable development Providing diverse multidisciplinary theoretical and empirical perspectives Environment Development and Change in Rural Asia Pacific makes an important contribution to the revitalization of development studies and as such will be essential reading for scholars in the field as well as those with an interest in Asia Pacific studies economic geography and political economy Global Change and Mountain Regions Uli M. Huber,Harald K.M. Bugmann,Mel A. Reasoner,2006-03-09 Mountain regions occupy about a quarter of the global terrestrial land surface and provide goods and services to more than half the humanity Global environmental change threatens the integrity of these systems and their ability to provide the goods and services upon which humanity has come to depend This book gives an overview of the state of research in fields pertaining to the detection understanding and prediction of global change impacts in mountain regions More than 60 contributions from paleoclimatology cryospheric research hydrology ecology and development studies are compiled in this volume each with an outlook on future research directions Cross-sectoral Policy Developments in Forestry Yves C. Dubé,Franz Schmithüsen,2014-05-14 Forestry practices are closely linked to decisions that address measures on climate change biodiversity and the institutional framework for sustainable development This book documents the progress made in creating the political economic and social conditions that are necessary for a sustainable and multifunctional use of forest resources **Globalization, Development And Security In Asia (In 4 Volumes)** ,2014-04-28 Asian countries are undergoing rapid political economic and social transformations meanwhile there is a growing demand for knowing more about Asia This Major Reference Set is designed to help general readers as well as specialists to have a good grasp of the latest developments in Asia in the key areas of economic growth trade energy environment foreign policy and security With 4 volumes this set covers all major dimensions of Asia s political economy Contributors include both scholars and practitioners who provide first hand description and analysis of fundamental issues in Asia Peace and political stability are of ultimate importance with Asia at the forefront of wealth creation in the global economy Volume 1 unpacks and examines the foreign policy strategies of key states and the role of regional institutions in responding to the security demands of an Asian century Volume 2 studies the strong economic

integration through trade and cross border investment that has been essential to Asia. The region's future prosperity depends on it being able to remain open and outward looking. As Asia grows larger and richer, more concerted efforts are required to surmount regional rivalry and to further strengthen the regional architecture of economic cooperation. Volume 3 looks at the emerging economies' thirst for energy that creates huge competition around which domestic, regional and international political economy unfolds. Climate change and aspiration for sustainable development further complicate the challenge. Volume 4 offers a comprehensive coverage of subjects on environment and sustainable development in Asia with case studies of selected and representative countries that are at different stages of economic development and facing different environment related problems and challenges in the twenty first century. This interdisciplinary set is a fine example of international cooperation with contributors hailing from different parts of Asia as well as North America and Europe. It is a must have for anyone keen on understanding Asia's dynamic and changing scene.

Finding Their Voice Charles Keyes, 2014-01-05. The rural Lao speaking people of northeastern Thailand constitute over a third of the entire population of Thailand. Over the last century this ethnically separate community has evolved from a traditional peasantry into cosmopolitan villagers who are actively shaping Thai politics. Eminent anthropologist Charles Keyes traces this evolution in detail beginning with the failure of a Buddhist millenarian uprising in 1901 and concluding with the successful election of the Thai Rak Thai Party in the 2000s. In the intervening century rural northeasterners have become more educated and prosperous and they have gained a sophisticated understanding of the world and of their position in it as Thai citizens. Although northeasterners have often been thwarted in their efforts to press government agencies to redress their grievances, they have rejected radical revolutionary efforts to transform the Thai political system. Instead they have looked to parliamentary democracy as the system in which they can make their voices heard. As the country engages with the processes of democracy, the Pheu Thai Party and the Red Shirt movement appear to have established the people of northeastern Thailand as an authentic voice in the nation's political landscape. **Highlights** Traces the evolution of a marginalized peasantry into a significant political force in Thai society. Examines the disjunction between the urban middle class negative perspectives on the northeastern Thai rural population and real characteristics of that population. **Highlights** the different views of political authority and legitimacy in Thailand that have contributed to the twenty first century crisis in the Thai political order. **What Others Are Saying** *Finding Their Voice* by anthropologist Charles Keyes is a culmination of decades of careful ethnography consistently combined with an astute political analysis and sense of history. Reminiscent of Eugen Weber's classic *Peasants into Frenchmen*, Keyes's book shows that the people of Isan have become the makers and undoers of governments and are more firmly wedded to the modern notion of parliamentary democracy than are the refined urban elites. This book has as much to say about the polarized politics of Thailand as it does about the rich culture and history of Isan. Philip Hirsch, University of Sydney.
