Seeing Through Self Deception:

Seeing Through Self-Deception Annette Barnes, 1998-01-22 Annette Barnes offers a challenge to the standard characterization of other deception and self deception

Seeing through Self-Deception Annette Barnes, 2007-08-06

What is it to deceive someone And how is it possible to deceive oneself Does self deception require that people be taken in by a deceitful strategy that they know is deceitful The literature is divided between those who argue that self deception is intentional and those who argue that it is nonintentional In this study Annette Barnes offers a challenge to both the standard characterization of the deception of others and current characterizations of self deception examining the available explanations and exploring such questions as the self deceiver's false consciousness bias and the irrationality of self deception

Self-Deception's Puzzles and Processes Jason Kido Lopez, 2016-08-16 The contemporary literature on self deception was born out of Jean Paul Sartre's work on bad faith lying to oneself As time has progressed the conception of self deception has moved further and further away from Sartre's conception of bad faith In *Self Deception's Puzzles and Processes* A Return to a Sartrean View Jason Kido Lopez argues that this departure is a mistake and that we should return to thinking about self deception in a Sartrean fashion in which we are self deceived when we intentionally use the strategies and methods of interpersonal deception on ourselves Since literally tricking ourselves cannot work we will always see through our own self deception after all self deception merely consists of the attempt to trick ourselves in this way Other scholars have rejected this notion of self deception historically dismissing it as paradoxical Lopez argues first that it isn't paradoxical and he further suggests that moving away from this notion of self deception has caused the contemporary literature on the topic to be littered with disparate and conflicting theories Indeed there are a great many ways to avoid the allegedly paradoxical Sartrean notion of self deception and the resulting plethora of accounts lead to a fragmented picture of self deception If however the Sartrean view isn't paradoxical then there was no need for the host of contradictory theories and most researchers on self deception have missed what was originally so intriguing about self deception that it like bad faith is the process of literally trying to trick oneself into believing what is false or unwarranted *Self Deception's Puzzles and Processes* will be of great interest to students and scholars of epistemology philosophy of mind psychology and continental philosophy and to anyone else interested in the problems of self deception

Human Agency and Divine Will Charlotte Katzoff, 2020-05-26 This book explores the conjuncture of human agency and divine volition in the biblical narrative sometimes referred to as double causality A commonly held view has it that the biblical narrative shows human action to be determined by divine will Yet when reading the biblical narrative we are inclined to hold the actors accountable for their deeds The book then challenges the common assumptions about the sweeping nature of divine causality in the biblical narrative and seeks to do justice to the roles played by the human actors in the drama God's causing a person to act in a particular way as He does when He hardens Pharaoh's heart is the exception rather than the rule On the whole the biblical

heroes act on their own their personal initiatives and strivings are what move the story forward How does it happen then that events remarkably conspire to realize God s plan The study enlists concepts and theories developed within the framework of contemporary analytic philosophy featured against the background of classical and contemporary bible commentary In addressing the biblical narrative through these perspectives this book holds appeal for scholars of a variety of disciplines bible studies philosophy religion and philosophical theology as well as for those who simply delight in reading the Bible

Social Justice in Practice Juha Räikkä, 2014-07-08 In this book the practical dimension of social justice is explained using the analysis and discussion of a variety of well known topics These include the relation between theory and practice in normative political philosophy the issue of justice under uncertainty the question of whether we can and should unmask social injustices by means of conspiracy theories the issues of privacy and the right to privacy the issue of how certain psychological states may affect our moral obligations in particular the obligation to treat others fairly and finally the concepts of morality fairness and self deception The primary goal of the book is to provide readers with an updated discussion of some important and practical social justice issues These issues are presented from a new perspective based on the author s research It is hoped that bringing these topics together in a single book will promote the emergence of new insights and challenges for future research Juha R äikk is a professor at the Department of Philosophy at the University of Turku Finland His research focuses on ethics and political philosophy **Seeing through Spiritual Eyes** Kirk Farnsworth, 2014-09-22

Rather than looking at Jesus the popular conception of the historical Jesus John Baggett contends that we should instead look with Jesus at the realities of God and neighbor as he perceived them Baggett incorporates the witness of the key human relationships of Jesus looking at why those earliest believers and friends considered him divine Baggett then asks how Christ s transcendence can ultimately translate to significance for life and faith in today s story **Practical Rules** Alan H. Goldman, 2001-09-06

Rules proliferate some are kept with a bureaucratic stringency bordering on the absurd while others are manipulated and ignored in ways that injure our sense of justice Under what conditions should we make exceptions to rules and when should they be followed despite

particular circumstances The two dominant models in the literature on rules are the particularist account and that which sees the application of rules as normative Taking a position that falls between these two extremes Alan Goldman provides a systematic framework to clarify when we need to follow rules in our moral legal and prudential decisions and when we ought not to do so The book distinguishes among various types of rules it illuminates concepts such as integrity self interest and self deception and finally it provides an account of ordinary moral reasoning without rules This book will be of great interest to advanced students and professionals working in philosophy law decision theory and the social sciences **The Self-deceiving Muse** Alan Singer, 2010 Focuses on the phenomenon of self deception and proposes a radical revision of our commonplace understanding of it as a token of irrationality Argues that self deception can illuminate the rationalistic functions of character Provided by publisher
