**Rape** Mithu Sanyal,2019-05-14 A bold honest and unflinching look at the way we talk and think about rape Thanks to Title IX cases MeToo and Times Up the issue of rape seems to be constantly in the news But our thinking on the subject has a long history one that cultural critic Mithu Sanyal elegantly reconstructs She narrates a history spanning from Lucretia whose legendary rape and suicide was said to be the downfall of the last Roman king to second wave feminism Tarzan and Roman Polanski Sanyal demonstrates that the way we understand rape is remarkably and alarmingly consistent across the ages even though the world has changed beyond recognition It is high time for a new and informed debate about sexual violence sexual boundaries and consent Mithu Sanyal shows that our comprehension of rape is closely connected to our understanding of sex sexuality and gender Why is it that we expect victims to be irreparably damaged When we think of rapists why do we think of strangers rather than uncles husbands priests or boyfriends And in the era of MeToo what should justice look like Rape From Lucretia to MeToo examines the role of race and the recurrent image of the black rapist the omission of male victims and what we mean when we talk about rape culture Sanyal takes on every received opinion we have about rape arguing with liberals conservatives and feminists alike

**The way of trauma. Trusting the course of change** Tatiana Neves, Barbora Janeckova, Yvonna Lucká, 2024-02-01 Trauma has been part of human history since the beginning of time Many approaches have been used to understand and work with traumatized clients but it is only recently that the importance of the body in this work has begun to be acknowledged The Biosynthetic Psychotherapy is a somatic approach that sees trauma from an embryological perspective and uses this basis to work on all dimensions of the individual whether physical psychological emotional or spiritual in order to recover the contact with the Essence In this book we try to integrate the most recent finds and standpoints on trauma through a bodily outlook We enriched it with case studies and practical exercises The focus of the Biosynthetic Psychotherapy is not on the devastating aspects of trauma but rather on restoring the harmony and integrity of the Self for a safe journey towards healing The body knows the way it just needs to be reminded of it

**Paul at the Crossroads of Cultures** Kathy Ehrensperger, 2013-09-12 Based on recent studies in intercultural communication Kathy Ehrensperger applies the paradigm of multilingualism which includes the recognition of cultural distinctiveness to the study of Paul Paul's role as apostle to the nations is seen as the role of a go between as that of cultural translator This role requires that he is fully embedded in his own tradition but must also be able to appreciate and understand aspects of gentile culture Paul is viewed as involved in a process in which the meaning of the Christ event is being negotiated in the space between cultures with their diverse cultural coding systems and cultural encyclopaedias It is argued that this is not a process of imposing Jewish culture on gentiles at the expense of gentile identity nor is it a process of eradication of Jewish identity Rather Paul's theologizing in the space between implies the task of negotiating the meaning of the Christ event in relation to and in appreciation of both Jewish and gentile identity
