Stumpf, 2024 In the early

eighties as world superpowers engaged in the aggressive stockpiling of weapons of mass destruction US president Ronald Reagan's announcement of the Strategic Defense Initiative began the development and coordination of missile technologies applicable to strategic defense against civilization's most dangerous inventions While the initial focus of this effort was the intercontinental ballistic missiles carrying nuclear threats from the Soviet Union or China by the end of the decade attention turned to potential ICBM threats from rogue states such as North Korea Iran and Iraq And so a new time for ballistic missile defense had begun The Last Thirty Seconds A Brief History of the Evolution of Hit To Kill Technology is a masterful record of

the evolution of improved ballistic missile defense capabilities in the decades since the height of the nuclear arms race With an exceptionally researched style David K Stumpf recounts the development of midcourse and terminal phase defense commonly known as hit to kill a nonnuclear technique at the center of current ballistic missile defense systems using kinetic energy rather than explosives for the destruction of reentry vehicles carrying chemical biological or nuclear warheads With the aid of recently declassified documents Stumpf guides the reader through the complex history of the evolution of a technology that many said could never be achieved bringing its story to life with dozens of rare photographs and technical illustrations While much of the subject remains classified what is described in this detailed study will be welcomed by librarians engineers and high technology history professionals for the depth of its access the substance of its references and the exposure of archival material on the missiles the have defined military defense from the Cold War to the present

May the Armed Forces Be with You Stephen Dedman, 2016-09-13 Science fiction and the United States military often inhabit the same imaginative space Weapons technology has taken inspiration from science fiction from the bazooka and the atomic bomb to weaponized lasers and drones Star spangled superheroes sold war bonds in comic books sent to GIs during World War II and adorned the noses of bombers The same superheroes now appear in big budget movies made with military assistance fighting evil in today s war zones A missile shield of laser satellites dreamed up by writers and embraced by the high command is partially credited with ending the Cold War Sci fi themes and imagery are used to sell weapons programs military service and wars to the public Some science fiction creators have willingly cooperated with the military others have been conscripted Some have used the genre as a forum for protest This book examines the relationship between the U S military and science fiction through more than 80 years of novels comics films and television series including Captain America Starship Troopers The Twilight Zone Dr Strangelove Star Trek Iron Man Bill the Galactic Hero The Forever War Star Wars Aliens Ender s Game Space Above and Beyond and Old Man s War
