Selected Essays and Dialogues by Gianni Celati Patrick Barron, 2024-03-21 *Selected Essays and Dialogues* is a collection of translations of Italian writer and filmmaker Gianni Celati's theoretical and musing work from the late 1960s to the present. Topics range from environmental perception and archaeological conceptions of historical knowledge to street theatre writing, photography, cinema, and translation. The book provides a framework of key literary, theoretical, and artistic movements of the last 50 years as well as a guide for English language readers to place Celati's work in historical, cultural, and biographical context, serving to illuminate his books available in English: namely *Towards the River's Mouth*, *Adventures in Africa*, *Voices from the Plains*, and *Appearances*. There are various paths to take, tempting readers to wander and become lost in webs of daring thought drawn ever on by Celati's fondness for the unexpected, the ordinary, and his bonhomie with others. Indeed, a genial adventurousness can be found within all of Celati's writings collected here, driven by an affectionate and light-hearted engagement with the surrounding world. Herein is a taste of a seemingly endless series of adventures of the mind and body, always tapped into a lithe sensitivity for an encompassing collective imagination, not restricted to the so-called high arts or letters, but very much also engaged with the everyday lives, places, and tales we all constantly share. Praise for *Selected Essays and Dialogues* by Gianni Celati: Barron's volume is a very welcome addition to the field. As the first collection of Gianni Celati's essays in English translation, the book makes accessible a wide selection of his critical work to an Anglophone audience. Marina Spunta, University of Leicester.

Selected Essays Virginia Woolf, 2009-10-15 A good essay must draw its curtain round us, but it must be a curtain that shuts us in, not out. According to Virginia Woolf, the goal of the essay is simply that it should give pleasure. It should lay us under a spell with its first word, and we should only wake refreshed with its last. One of the best practitioners of the art, she analysed so rewardingly, Woolf displayed her essay writing skills across a wide range of subjects, with all the craftsmanship, substance, and rich allure of her novels. This selection brings together thirty of her best essays, including the famous *Mr Bennett and Mrs Brown*, a clarion call for modern fiction. She discusses the arts of writing and of reading, and the particular role and reputation of women writers. She writes movingly about her father and the art of biography, and of the London scene in the early decades of the twentieth century. Overall, these pieces are as indispensable to an understanding of this great writer as they are enchanting in their own right.
