Billboard, 1973 Religion and Magic in Socialist and Post-Socialist Contexts Alexandra Cotofana, James M. Nyce, 2017-03-28 Religion and magic have played important roles within Eastern European societies where social reality and socio political balance may differ greatly from those in the West Although often thought of as being two distinct even antagonistic forces religion and magic find ways to work together By taking on various examples in the multicultural settings of post Soviet and post socialist spaces this collection brings together diverse historical and ethnographic analyses of orthodoxy and heterodoxy from the pre and post 1989 periods studies on the relationship of religious and state institutions to individuals practicing alternative forms of spirituality and examples of borderlands as spaces of ambiguity This volume is at the crossroads of anthropology history as well as cultural memory studies Its archival and field research findings help understand how repurposing religious and magic practices worked into the transition that countries in Eastern Europe and beyond have experienced after the end of the Cold War **Investigations into Magic, an Edition and Translation of Martín Del Río's Disquisitionum magicarum libri sex** José Manuel García Valverde, Peter Maxwell-Stuart, 2023-01-23 The sixteenth century saw the world as being mortally threatened by Satan who was encouraged by the widespread popularity of magic and other occult practices Church and society struck back to defend people from this tidal wave of wickedness Del Río's panoramic and detailed treatise provided a powerful weapon in that battle Far from dry scholarship however Investigations is an engaging fascinating earnest conversation between Del Río and his readers and a major contribution to understanding key aspects of everyday sixteenth century behaviour and the problem of evil **Journal** Philadelphia Orchestra, 1923 Rock Eras James M. Curtis, 1987 From 1954 to 1984 the media made rock n roll an international language In this era of rapidly changing technology styles and culture changed dramatically too In the 1950s wild eyed Southern boys burst into national consciousness on 45 rpm records and then 1960s British rockers made the transition from 45s to LPs By the 1970s rockers were competing with television and soon MTV made obsolete the music only formats that had first popularized rock n roll Paper is temporarily out of stock Cloth 0 87972 368 8 is available at the paper price until further notice **THE TORY LOVER SARAH ORNE JEWETT**, 1901 the bakitara John Roscoe, 1968

Museum Rhetoric M. Elizabeth Weiser, 2017-09-25 In today's diverse societies museums are the primary institutions within the public sphere in which individuals can both engage critical thought and celebrate community This volume uses the lens of rhetoric to explore the role these societal repositories play in establishing and altering cultural heritage and national identity Based on fieldwork conducted in over sixty museums in twenty two countries across six continents Museum Rhetoric explores how heritage museum exhibits persuade visitors to unite their own sense of identity with that of the broader civic society and how the latter changes in response Elizabeth Weiser examines what compels communities organizations and nations to create museum spaces and how museums operate as sites of both civic engagement and rhetorical persuasion

Moving beyond rhetorical explorations of museums as memory sites she shows how they intentionally straddle the divides between style and content intellect and affect and unity and diversity and why their portrayal of the past matters to civic life and particularly studies of nationalism in the present and future Deeply researched and artfully argued *Museum Rhetoric* sheds light on the public impact of cultural and aesthetic heritage and opens avenues of inquiry for scholars of museum studies and public history *Educators Guide to Free Films* ,1970 **The Realities of Witchcraft and Popular Magic in Early Modern Europe** E. Bever,2008-06-11 Exploring the elements of reality in early modern witchcraft and popular magic through a combination of detailed archival research and broad ranging interdisciplinary analyses this book complements and challenges existing scholarship and offers unique insights into this murky aspect of early modern history
