Maharishi International University Scholarly Exchange With The Universities Of China

Maria Della Lucia, Ernestina Giudici

Maharishi International University Scholarly Exchange With The Universities Of China:

Maharishi International University ,1985 **The Big Fish** Anna Bonshek,Corrina Bonshek,Lee

Fergusson,2007-01-01 While debate continues in the fields of the sciences and humanities as to the nature of consciousness and the location of consciousness in the brain or as a field phenomenon in the Vedic tradition consciousness has been understood and continues to be articulated as an infinite field of intelligence at the basis of all forms of existence This infinite field of intelligence is accessible to human awareness being the very nature of the mind and the structuring dynamics of the physiology from the DNA to the cell tissues organs and to the whole body and its sophisticated functioning This two part volume The Big Fish Consciousness as Structure Body and Space considers in Part One the Vedic approach to consciousness specifically referencing Maharishi Vedic Science and discusses themes pertinent to the arts including perception and cognition memory as awareness history and culture artistic performance and social responsibility observatory instruments as spaces and structures to enhance consciousness and beyond metaphor architectural sites as multi layered enclosures of the brain detailed in the Shrimad Devi Bhagavatam and as cosmic habitat or Vastu aligned to the celestial bodies Presenting some more general consciousness based readings Part Two includes essays by various authors on Agnes Martin and her views on art perfection and the Classic unified field based education and freedom of expression versus censorship in art prints from the Renaissance to the contemporary era as allegories of consciousness the work of Australian artist Michael Kane Taylor as beyond a modern postmodern dichotomy the photographic series The Ocean of Beauty by Mark Paul Petrick referencing the Vedic text the Saundarya Lahari a Deleuzian analysis of the dual screen multi arts work Reverie I and an account of the making of Reverie II a single screen video projection inspired by the idea of dynamics of awareness This book therefore presents a broad range of interests and reading while offering a unique yet profoundly transformative perspective on consciousness Forthcoming Books Rose Arny,1992 **Bibliography of Asian Studies** ,1988 **Ideal India** ,2001

IDSA News Review on China/Koreas/Mongolia ,1985 **Subject Guide to Books in Print** ,1971 **Humanistic Management and Sustainable Tourism** Maria Della Lucia,Ernestina Giudici,2021-02-25 Tourism is a fast growing and changing industry which has become a driver of economic development in both developed and underdeveloped countries While the tourism industry s potential for shared value creation and sustainable development is acknowledged the concerns around the environmental and social pressures remain a challenge for businesses organizations and destinations This is because sustainable tourism arguably conflicts with the predominant neoliberal structure of the economy and with the hierarchical profit and consumption driven societies The emphasis on competition growth and profitability may undermine economic viability itself by consuming unreproducible resources and by undermining the six essential elements dignity people prosperity social justice planet and partnership that are conceptually linked to sustainable development The crises recurrently challenging the global travel and tourism environment including climate change bushfires extreme weather

disasters pandemics and the financial crisis show the weaknesses of neoliberal approaches and the collective economic dependency of countries on tourism that is vulnerable if not completely unsustainable This vulnerability asks for understanding that the collective future depends on developing entirely new approaches and interpretation of tourism to effectively respond to the human societal social and climate challenges This book offers a novel and original perspective entailing the application of a humanistic management approach to sustainable tourism which is centered on the value of human life the protection of human dignity and the promotion of well being Multiple theoretical approaches methods and practical cases on an international scale shed light on shared value creation and human dignity as a necessary condition for its achievement in different contexts Implicitly and explicitly they respond to the current urgency to implement strategies to recover from the worldwide impact of the pandemic crisis and to provide a vision of what tourism could and should be when it recovers It will be of interest to researchers academics professionals and postgraduates in the fields of management sustainability and tourism development *Paperbound Books in Print* ,1991 Books in Print ,1991
