**A Conductor's Guide to Symphonies I, II, and III of Gustav Mahler** Michael J. Esselstrom, 1998 Brief historical context is provided instrumentation list and phrasal analysis precede the discussion of each movement conducting commentary explains musical and technical considerations **Sacrificing Truth** Nachman Ben-Yehuda, 2002-06-01 According to a patriotic legend still current in Israel in 73 C E 960 Jewish rebels committed mass suicide at the desert fortress of Masada rather than surrender to the overwhelming force of their Roman oppressors This version of what happened at Masada is based on perhaps the most famous Israeli archaeological dig in recent history the 1963 1965 excavation of Masada led by Prof Yigael Yadin whose work at this site elevated him to the status of a national hero Is this story a true picture of the real events at the ancient wilderness stronghold According to sociologist Nachman Ben Yehuda Masada provides a casebook study of how the search for scientific truth can be influenced by the pressures of a cultural agenda In this fascinating analysis of history in the making Ben Yehuda closely examines the day by day transcripts of the archaeologists conversations at Masada to determine the way in which they evaluated the findings He skillfully demonstrates that the interpretation of the artifacts uncovered during the dig was significantly affected by the process of nation building and the forging of a national identity which was then underway in Israel Nation building required a heroic past and the pressure of this requirement subtly led to concealing facts and even falsifying the historical evidence Why did the archaeologists involved all scientifically trained scholars ignore scientific evidence in favor of a version of history that now appears to be largely a myth The answer to this question is the focus of this study which looks not only at Masada but at the whole issue of deception in science and the social construction of knowledge Beyond this Ben Yehuda considers the larger question of how society creates the symbolic moral boundaries between truth and deception as well as the subtle interplay of science politics and ideology This absorbing and thoroughly researched work makes a valuable contribution to our understanding of the construction of cultural meaning Bowker's Complete Video Directory, 1999 ,1999 **Audio Video Review Digest** ,1990 *The Publishers Weekly* ,1990 Choral Music in the Twentieth Century Nick Strimple, 2005-11 Musical works for chorus are among the great masterpieces of 20th century art This guide the first truly comprehensive volume on the choral music of the last century covers the spectacular range of music for vocal ensembles from Saint Saens to Tan Dun The book will be essential to every choral conductor and a valuable resource for choir members choral societies and choruses The Video Source Book David J.
