

MAIN CONCEPTS of RUSSIAN POLITICS

OLEG KHARKHORDIN

Main Concepts Of Russian Politics

Andrew Heywood

Main Concepts Of Russian Politics:

Main Concepts of Russian Politics Oleg Kharkhordin, 2005 Main Concepts of Russian Politics addresses key concepts of political life in Russia Specific attention is given to how Russian terms relate to their English language equivalents

Main Concepts of Russian Politics Oleg Kharkhordin, 2005-05-23 Main Concepts of Russian Politics addresses key concepts of political life in Russia Specific attention is given to how Russian terms relate to their English language equivalents This book also discusses current problems within Russian politics with the help of conceptual apparatus taken from political theory classics Thus this book is a rapprochement of political theory and Russian studies It shows how familiar classics fare in an unfamiliar cultural context and how unfamiliar concerns of another culture can be made understandable with the help of these classic works *Communism and the Emergence of Democracy* Harald Wydra, 2007-02-08 Before democracy becomes an institutionalised form of political authority the rupture with authoritarian forms of power causes deep uncertainty about power and outcomes This book connects the study of democratisation in eastern Europe and Russia to the emergence and crisis of communism Wydra argues that the communist past is not simply a legacy but needs to be seen as a social organism in gestation where critical events produce new expectations memories and symbols that influence meanings of democracy By examining a series of pivotal historical events he shows that democratisation is not just a matter of institutional design but rather a matter of consciousness and leadership under conditions of extreme and traumatic incivility Rather than adopting the opposition between non democratic and democratic Wydra argues that the communist experience must be central to the study of the emergence and nature of democracy in post communist countries **Routledge**

Handbook of Russian Politics and Society Graeme Gill, James Young, 2013-03 There is an ever burgeoning number of books analyzing the Russian experience or aspects of it This Handbook is the first single volume which gives both a broad survey of the literature as well as highlighting the cutting edge research in the area Through both empirical data and theoretical investigation each chapter in the Routledge Handbook Russian of Politics and Society examines both the Russian experience and the existing literature points to research trends and identifies issues that remain to be resolved Offering focused studies of the key elements of Russian social and political life the book is organized into the following broad themes General introduction Political institutions Political Economy Society Foreign Policy Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook seeks to answer questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption and the creation of a market economy Providing a comprehensive resource for scholars and policy makers alike this book is an important contribution to the study of Russian Studies Eastern European studies and International Relations Political Ideologies in Contemporary Russia Elena Chebankova, 2020-11-18 In the realm of political discourse there is a distinct gap in understanding between Russia and the

West To an outsider the ideas that animate the actions of Russia's ruling elite opposition and civil society from the motivations driving Russia's political actors to the class structure and international and domestic constraints that shape Russia's political thinking remain shrouded in mystery Contrary to the view that a bleak discursive uniformity reigns in Vladimir Putin's Russia *Political Ideologies in Contemporary Russia* shows that the country is engaging in serious theoretical debates across a wide spectrum of modern ideologies including liberalism nationalism feminism and multiculturalism Elena Chebankova argues that the nation is fragmented and the state seeks to balance the various ideological movements to ensure that none dominates She shows that each of the main ideological trends is far from uniform but the major opposition is between liberalism and traditionalism The pluralistic picture she describes contests many current portrayals of Russia as an authoritarian or even totalitarian state Offering an alternative to the Western lens through which to view global politics *Political Ideologies in Contemporary Russia* is a major contribution to our understanding of this world power

Institutions, Ideas and Leadership in Russian Politics Julie Newton, William Tompson, 2010-06-23 A stimulating and thought provoking collection that challenges some of the emerging conventional wisdom about contemporary Russia It examines the role of leadership institutions and ideas and the interactions among them in shaping Russia's post Soviet transformation

Key Concepts in Politics and International Relations Andrew Heywood, 2015-07-07 Concepts have a particular importance for students of politics and international relations Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue fight and even go to war each claiming to be defending freedom upholding democracy or supporting justice The problem is that words such as freedom democracy and justice have different meanings to different people so that the concepts themselves come to seem problematic This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis Each term is defined clearly and fully and its significance for political argument and practice is explored The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts Renowned for its lively engaging style and user friendly approach the second edition is an invaluable companion to the study of politics and international relations

Political and Social Thought in Post-Communist Russia Axel Kaehne, 2007-11-13 This is the first comprehensive study of Russian political and social thought in the post Communist era The book portrays and critically examines the conceptual and theoretical attempts by Russian scholars and political thinkers to make sense of the challenges of post communism and the trials of economic political and social transformation It brings together the various strands of political thought that have been formulated in the wake of the collapsed communist doctrine It engages constructively with the numerous attempts by Russian political theorists and social scientists to articulate a coherent model of liberal democracy in their country The book investigates critical as well as favourable voices in the Russian debate on liberal democracy a debate often marked by eclecticism and at times little conceptual discipline As such the book will be of great interest both to

Russian specialists and to all those interested in political and social thought more widely

Russian Notions of Power and State in a European Perspective, 1462-1725 Endre Sashalmi, 2022-10-25 Winner of the 2023 Marc Raeff Book Prize A 2023 REFORC Book Award Longlist Title This book highlights the main features and trends of Russian political thought in an era when sovereignty state and politics as understood in Western Christendom were non-existent in Russia or were only beginning to be articulated It concentrates on enigmatic authors and sources that shaped official perception of rulership or marked certain changes of importance of this perception Special emphasis is given to those written and visual sources that point towards depersonalization and secularization of rulership in Russia A comparison with Western Christendom frames the argument throughout the book both in terms of ideas and the practical aspects of state building allowing the reader to ponder Russia's differentia specifica

The Concept of Political Culture Stephen Welch, 2016-07-27 erudite thought provoking and well written Archie Brown Professor of Politics Oxford University The return to prominence of the concept of political culture offers an opportunity to re-evaluate its contribution to the social sciences This study casts a broader net embracing not only political science with equal emphasis placed on the concept's use in communist studies but also sociology and history On this basis a distinctive theory of political culture and not merely another typology is developed Political culture instead of being a token in the sterile debate between interest and culture based explanation offers the means of transcending that debate

Decoding **Main Concepts Of Russian Politics**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
