Experiencing Architecture in the Nineteenth Century Edward Gillin,H. Horatio Joyce,2018-10-18 Bringing together fourteen original essays this collection opens up new perspectives on the architectural history of the nineteenth century by examining the buildings of the period through the lens of experience With a focus on the experience of the ordinary building user rather than simply on the intentions of the designer the book shows that new and important insights can be brought to our understanding of Victorian architecture The chapters present a range of ideas and new research some examining individual building case studies from grand hotels and clubhouses in New York to the parliament buildings of Westminster and others exploring conceptual questions about the nature of architectural experience whether sensory or otherwise Yet they share the premise that the idea of the experience of architecture took on a new and particular significance with the rise of industrial modernity and they examine what contemporary people both architects and non architects understood by this idea The insights in this volume extend beyond the study of Victorian architecture Together they suggest how experience might be used as a framework to produce a more convincingly historical account of the artefacts of architectural history

The Lady Cornaro Jane Howard Guernsey,1999 Chronicling the life of the first woman to earn a university degree The Lady Cornaro reveals one of the world s most magnetic but largely unknown stories Elena Lucrezia Cornaro Piscopia a woman of keen mind soaring spirit and regal beauty left a monumental legacy during her brief life in the mid seventeenth century **Humanizing Landscapes** ,2000 **Among the Stars** Margaret Moore Booker,2007 *James Stewart Polshek* James Stewart Polshek,1988 James Stewart Polshek b 1930 Akron Ohio is an American architect living in New York City He is the founder of Polshek Partnership in 1963 the firm at which he was Principal Design Partner for more than four decades Polshek worked for I M Pei prior to starting his own firm He served as the Dean of Columbia University s Graduate School of Architecture Planning and Preservation from 1972 to 1987 Polshek is unusual among top tier architects for taking the position that architecture is more craft than fine art and that architects have some measure of social responsibility Polshek currently serves as the architect commissioner on the NYC Design Commission Committed to principles of community history and environment Polshek has devoted his fifty plus year career to serving the common good James Stewart Polshek has witnessed changing architectural tastes worked with numerous high profile personalities and designed many of America s most prominent buildings His notable and immediately recognizable projects include the William J Clinton Presidential Center in Little Rock Arkansas and the renovation and expansion of Carnegie Hall in New York City Polshek feels that the true importance of architecture lies in its ability to solve human problems not stylistic ones A building is too permanent and too influential on public life and private comfort to be created primarily as public art Modern abstractions or nostalgic borrowings from the past cannot themselves generate ideas for structures of lasting value Only buildings that serve

broader social political or cultural purposes can achieve this In this book Polshek explains the principles he feels an architect should adhere to while balancing the myriad constraints the world poses It also has multiple photographs and designs for the many buildings he has done during this time From Amazon com **Independent Schools** ,1985 **Private Independent Schools** ,1996 **Vassar College Buildings** Vassar College.
