Aesthetics of the Familiar Yuriko Saito, 2017-07-04

Yuriko Saito explores the nature and significance of the aesthetic dimensions of people's everyday life. Everyday aesthetics has the recognized value of enriching one's life experiences and sharpening one's attentiveness and sensibility. Saito draws out its broader importance for how we make our worlds environmentally morally as citizens and consumers. Saito urges that we have a social responsibility to encourage cultivation of aesthetic literacy and vigilance against aesthetic manipulation. Yuriko Saito argues that ultimately everyday aesthetics can be an effective instrument for directing the humanity's collective and cumulative world-making project for the betterment of all its inhabitants. Everyday aesthetics has been seen as a challenge to contemporary Anglo-American aesthetics discourse which is dominated by the discussion of art and beauty. Saito responds to controversies about the nature, boundary, and status of everyday aesthetics and argues for its legitimacy. She highlights the multi-faceted aesthetic dimensions of everyday life that are not fully accounted for by the commonly held account of defamiliarizing the familiar.

Theology, Aesthetics, and Culture Robert MacSwain, Taylor Worley, 2012-09-20

David Brown is a widely respected British theologian who initially made his mark in analytic discussions of Christian doctrine such as the Trinity. However, with the publication of *Tradition and Imagination: Revelation and Change* (1999), his career entered a distinctly new phase focused on theology, imagination, and the arts. Four related volumes followed, dealing with biblical interpretation, Christian discipleship, art and icons, place and space, the body, music, metaphor, drama, liturgy, the sacraments, religious experience, and popular culture. According to Brown, the fundamental thesis underlying all five volumes is that both natural and revealed theology are in crisis, and the only way out is to give proper attention to the cultural embeddedness of both. *Theology, Aesthetics, and Culture* is the first attempt to assess the significance of this remarkable series, and its contributors include some of the most prominent philosophers, theologians, historians, biblical scholars, literary scholars, and cultural critics writing today. Aside from its exceptional interdisciplinary range and ecumenical line-up, a distinctive feature is sustained consideration of Brown's analysis of popular culture. Given the stature of the contributors, this volume is not merely of interest as a commentary on Brown's work but also makes an important original contribution to our understandings of theology, aesthetics, and culture as they relate to the life of the Church, academy, and human society.

Aesthetics of Resistance Mario Dunkel, 2012. This book illuminates the various ways in which Charles Mingus's music interacted with the sociocultural movements of the late 1950s and early 1960s. It explores the artist as a pioneer of an idiomatic aesthetics of resistance in jazz music that is rooted in African American traditions and is much more than merely a form of protest. Mingus's music presents a continuous challenge to an unimaginative, streamlined culture built on racism and conformity by openly protesting against it, by questioning its historical foundations, and by exemplifying its countercultural antithesis. Marginal Groups and Mainstream American Culture Yolanda Estes, 2000

They are often portrayed as outsiders ethnic minorities the poor the disabled and so many others all living on the margins of mainstream society Countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups Most accounts of marginalization approach the subject from a distance and tend to overemphasize the victimization of outsiders Taking a more intimate approach this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals Multidisciplinary and multicultural Identity on the Margin addresses marginalization at a variety of social levels and within many different social phenomena going beyond familiar cases dealing with race ethnicity and gender to examine such outsiders as renegade children conservative Christians and the physically and mentally disabled And because women are especially subject to the effects of marginalization feminist concerns and the marginalization of sexual practices provide a common denominator for many of the essays From problems posed by complimentary racism to the status of gays in Tony Blair s England from the struggle of Native Americans to preserve their identities to the singular problems of single mothers Identity on the Margin takes in a broad spectrum of cases to provide theoretical analysis and ethical criticism of the mechanisms of identity formation at the edges of society In all of the cases the authors demonstrate the need for theory that initiates social change by considering the ethical implications of marginalization and criticizing its harmful effects Bringing together accounts of marginalization from many different disciplines and perspectives this collection addresses a broad audience in the humanities and social sciences It offers a basis for enhancing our understanding of this process and for working toward meaningful social change
