Majangir Ecology And Society Of A Southwest Ethiopian People:

The Majangir Jack Stauder, 2007-09-17 The Majangir live on the thickly forested slopes of the south western edge of the Ethiopian plateau between the Anuak of the plains and the Galla of the highlands Their way of life is markedly different from that of their neighbours and is well adapted to their habitat They are agriculturalists and the structure of their society is loose and simple They have no political leaders the only individuals of any authority being ritual leaders whose influence is restricted Domestic groups tend to farm plots adjacent to those of friends or kin but the settlements remain small and constantly change in composition as well as in location In addition to farming in which the men and women share the work the men make occasional hunting and fishing trips as well as spending quite a considerable amount of time tending and making bee hives Dr Stauder examines the various social and spatial groupings of Majang society and demonstrates the intimate ecological relationship between these groupings and the system of slash and burn cultivation practised by the Majangir *The Southern Marches of Imperial Ethiopia* Donald Donham, Wendy James, 1986 This international collection of essays offers a unique approach to the understanding of imperial Ethiopia out of which the present state was created by the 1974 revolution After the 1880s Abyssinia under Menilek II expanded its ancient heartland to incorporate vast new territories to the south Here for the first time these regions are treated as an integral part of the empire The book opens with an interpretation of nineteenth century Abyssinia as an African political economy rather than as a variant on European feudalism and with an account of the north's impact on peoples of the new south Case studies from the southern regions follow four by historians and four by anthropologists each examining aspects of the relationship between imperial rule and local society In revealing the region's diversity and the relationship of the periphery to the centre the volume illuminates some of the problems faced by post revolutionary Ethiopia Oromo Nationalism and the Ethiopian Discourse Asafa Jalata, 1998 Ibss: Anthropology: 1971 International Committee for Social Science Information and Documentation, 1973-08-09 First published in 1973 Routledge is an imprint of Taylor Francis an informa company **The Ethnopolitics of Ethnofederalism in Ethiopia** Jan Erk, 2017-12-01 Ethiopia is the darling of development economists since 2005 the country's economic growth rate has consistently been over the 10% mark Ethiopia is also a regional superpower with political influence across East Africa and the Horn Furthermore the African Union has its headquarters in the capital Addis Ababa which further underscores the country's growing international profile On top of everything since 1995 Ethiopia has a federal constitution explicitly committed to granting political autonomy to all ethnic groups within the country Ethiopia's federalism has also direct relevance to the country's neighbours Eritrea Somalia Kenya South Sudan and Djibouti who have ethnic kin across the borders with Ethiopia Yet despite the generous promises to the country's ethnic groups stated in the constitution not everything is well As marked by the recent unrest throughout various regions of the country the federal constitution's promises and the reality do not always perfectly align But there is a shortage of even handed scholarly analyses

of this complex country and in particular its unique federal system Based on chapters focusing on different parts of the federal system the collection takes stock of the last 20 years and distils lessons and insights for a broader international comparative readership The chapters originally published in *Ethnopolitics and Regional Federal Studies* Understanding Contemporary Ethiopia Gérard Prunier,Éloi Ficquet,2015 Seeks to dispel the myths and clichés surrounding contemporary perceptions of Ethiopia by providing a rare overview of the country's recent history politics and culture Explores the unique features of this often misrepresented country as it strives to make itself heard in the modern world Publisher description

From Blessing to Violence Maurice Bloch,1986-04-30 This detailed description and analysis of Madagascar's Merina tribe and its ancient circumcision ritual is significant as a basis for the analysis of anthropological theories of ritual in general

The Making of the Modern Greek Family Paul Sant Cassia,Constantina Bada,1992 This 1991 study deals with a specific set of institutions in nineteenth century Athens Relying on matrimonial contracts travellers accounts memoirs and popular literature the authors show how distinctive forms of marriage kinship and property transmission evolved in Athens in the nineteenth century These forms then became a feature of wider Greek society which continued into the twentieth century Greece was the first post colonial modern nation state in Europe whose national identity was created largely by peasants who had migrated to the city As Athenian society became less agrarian a new mercantile group superseded and incorporated previous elites and went on to dominate and control the new resources of the nation state Such groups developed their own more mobile systems of property transmission mostly in response to external pressures of a political and economic character This is a persuasive piece of detective work which has advanced our knowledge of modern Greece It is a model for scholarship on the development of family and other intimate ideologies where nation states encroach upon local consciousness

The Anthropology of Numbers Thomas Crump,1992-10-15 Numbers are an important feature of almost all known cultures In this detailed anthropological study Thomas Crump examines how people from a wide range of diverse cultures and from different historical backgrounds use and understand numbers By looking at the logical psychological and linguistic implications he analyses how numbers operate within different contexts The author goes on to consider the relationship of numbers to specific themes such as ethnohistory politics measurement time money music games and architecture The Anthropology of Numbers is an original contribution to scholarship written in a clear and accessible style It will be of interest to anthropologists who study cognition symbolism primitive thought and classification and to those in adjacent disciplines of psychology cognitive science and mathematical social science

Kinship and Marriage Robin Fox,1983 New paperback edition of Robin Fox's study of systems of kinship and alliance which has become an established classic of social science literature

The Abandoned Narcotic Ron Brunton,1989 In this book Ron Brunton attempts to explain the strange geographical distribution of kava a narcotic drink once widely consumed by south west Pacific islanders

Historical Dictionary of Ethiopia David H. Shinn,Thomas P. Ofcansky,2013-04-11 Ethiopia is clearly one of the most

important countries in Africa First of all with about 75 million people it is the third most populous country in Africa Second it is very strategically located in the Horn of Africa and bordering Eritrea Sudan Kenya and Somalia with some of whom it has touchy and sometimes worse relations Yet its capital Addis Ababa is the headquarters of the African Union the prime meeting place for Africa's leaders So if things went poorly in Ethiopia this would not be good for Africa and for a long time this was the case with internal disruption rife until it was literally suppressed under the strong rule of the recently deceased Meles Zenawi The Historical Dictionary of Ethiopia Second Edition covers the history of Ethiopia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Ethiopia

Time Resources, Society and Ecology Tommy Carlstein, 2019-09-18 Originally published in 1982 Time Resources Society and Ecology examines and seeks to examine the time dimension in terms of the ecology technology social organization and spatial structure of the human habitat Approaches to time resources sociological time budget studies anthropological activity analysis and economic analysis of money allocation have been limited by their sectoral scope or their failure to relate effectively to the processes of social interaction technological change and environmental structure In this book the book's articulation of time resources is developed in a general theoretical framework of action and interaction in time and space The book examines constraints and possibilities facing preindustrial societies and throws light on the impact of technology on modern societies Basic models of time allocation are presented and finally a cross cultural comparison is made of the mobilization of time resources in preindustrial societies Geographers social anthropologists and human ecologists should find this work directly relevant to their interest in understanding the interactions between man and environment

The Languages and Linguistics of Africa Tom Güldemann, 2018-09-10 This innovative handbook takes a fresh look at the currently underestimated linguistic diversity of Africa the continent with the largest number of languages in the world It covers the major domains of linguistics offering both a representative picture of Africa's linguistic landscape as well as new and at times unconventional perspectives The focus is not so much on exhaustiveness as on the fruitful relationship between African and general linguistics and the contributions the two domains can make to each other This volume is thus intended for readers with a specific interest in African languages and also for students and scholars within the greater discipline of linguistics

The Blue and the Green Jack Stauder, 2016-03-22 In The Blue and the Green anthropologist Jack Stauder analyzes how large scale political social and environmental processes have transformed ranching and rural life in the West Focusing on the community of Blue Arizona Stauder details how the problems of overgrazing erosion and environmental stresses on the open range in the early twentieth century coincided with a push by the newly created US Forest Service to develop fenced grazing allotments on federal lands Later in the twentieth century with the enactment of the Endangered Species Act and other laws the growing power of urban

based environmental groups resulted in the reduction of federal grazing leases throughout the West The author combines historical research with oral interviews to explore the impact of these transformations on the ranchers residing in the Blue River Valley of eastern Arizona Stauder gives voice to these ranchers along with Forest Service personnel environmental activists scientists and others involved with issues on the Blue shedding light on how the ranchers rural way of life has changed dramatically over the course of the past century This is a fascinating case study of the effects of increasing government regulations and the influence of outsiders on ranching communities in the American West

Women and Property in Morocco Vanessa Maher,1974 A study of the effects of modernization on the social and economic world of women in Morocco

Contexts of Kinship Esther N. Goody,2005-07-07 In her study of domestic organization in Gonja Esther Goody has concentrated on tracing the interrelationships between political and domestic institutions in a bilateral kinship system

Resettlement and Famine in Ethiopia Alula Pankhurst,1992 This book is the inside story of the Ethiopian resettlement programme carried out in the mid 1980s by the Ethiopian government amid fierce international controversy It relies on the views of the settlers themselves and is based on an in depth study carried out by an anthropologist who lived in a resettlement village Alula Pankhurst dispels current myths about resettlement while showing the importance of famine and coercion he highlights social factors in the mosaic of settlers motivation He documents the attempt to institute a collectivist model of agriculture and analyses the reasons for its failure He also examines the effects of Ethiopia s recent economic liberalisation and the impact of aid agencies The book addresses an increasing Third World phenomenon state organised relocation It is a major contribution to the literature on mass migration and on refugees By focusing on the interaction between people and the state it also reassesses a fundamental development problem the gulf between local and national priorities Accessible and thought provoking Resettlement and famine in Ethiopia will be of interest to anthropologists students of development studies and practitioners and all those concerned by famine forced migration and socialist attempts to transform societies

Greater Ethiopia Donald N. Levine,2024-05-31 Greater Ethiopia combines history anthropology and sociology to answer two major questions Why did Ethiopia remain independent under the onslaught of European expansionism while other African political entities were colonized And why must Ethiopia be considered a single cultural region despite its political religious and linguistic diversity Donald Levine s interdisciplinary study makes a substantial contribution both to Ethiopian interpretive history and to sociological analysis In his new preface Levine examines Ethiopia since the overthrow of the monarchy in the 1970s Ethiopian scholarship is in Professor Levine s debt He has performed an important task with panache urbanity and learning Edward Ullendorff Times Literary Supplement Upon rereading this book it strikes the reader how broad in scope how innovative in approach and how stimulating in arguments this book was when it came out In the past twenty years it has inspired anthropological and historical research stimulated theoretical debate about Ethiopia s cultural and historical development and given the impetus to modern political thinking about the complexities and

challenges of Ethiopia as a country The text thus easily remains an absolute must for any Ethiopianist scholar to read and digest J Abbink Journal of Modern African Studies *Studies in African Linguistic Typology* F. K. Erhard Voeltz, 2006-03-22

The twenty one papers that make up this volume reflect the broad perspective of African linguistic typology studies today Where previous volumes would present language material from a very restricted area and perspective the present contributions reflect the global interest and orientation of current African linguistic studies The studies are nearly all implicational in nature Based upon a detailed survey of a particular linguistic phenomenon in a given language or language area conclusions are drawn about the general nature about this phenomenon in the languages of Africa and beyond They represent as such a first step that may ultimately lead to a more thorough understanding of African linguistic structures This approach is well justified Taking the other road attempting to pick out linguistic details from often fairly superficially documented languages runs the risk that the data and its implications for the structure investigated might be misunderstood Consequentially only very few studies of this nature giving the very broad perspective the overview of a particular structure type covering the whole African continent are represented here
