## **Marcos The Rise Fall Of A Regime A Car:**

**Southeast Asian Capitalists** Ruth T. McVey,2018-05-31 This collection of essays explores the origins and roles of Southeast Asian business groups especially as they developed during the 1970s and 1980s An important contribution to studies of ethnic Chinese entrepreneurship in Southeast Asia Includes a comprehensive introduction by the editor **Crony Capitalism** David C. Kang,2002-01-24 Even in Korea corruption was far greater than the conventional wisdom allows so rampant was corruption that we cannot dismiss it rather we need to explain it BOOK JACKET The New Rich in Asia David Goodman,Richard Robison,2013-09-13 This is the first volume in the The New Rich in Asia series which examines the economic social and political construction of the new rich in the countries and territories of East and South East Asia as well as their impact internationally From a western perspective the rise of the emergent business and professional class may seem very familiar However it is far from clear that those newly enriched by the processes of modernization in East and South East Asia are readily comparable with the middle classes of the West For example civil and human rights seem to play a different role in social political and economic change and the State is clearly more central as an agent of economic development This volume is the essential introduction to the series and identifies the new rich phenomenon in Indonesia Thailand Singapore Malaysia Korea China Hong Kong and Taiwan The contributors demonstrate that the key to understanding the new rich is to realise that they are neither a single category or class but in each setting a series of different socio political groups who have a common inheritance from the process of rapid economic growth **Driven by Growth** James William Morley,2015-04-08 A thoroughly revised and updated edition of the highly regarded 1993 book Driven by Growth this work presents the political economic evolution of the Asia Pacific countries with overviews of the impact of economic development on political change This new edition now includes chapters on Burma and Vietnam New authors have been added and all the original chapters have been revised **Filipinas Magazine** ,2004 **Personalism and Personalist Regimes** Alex Baturo,Luca Anceschi,Francesco Cavatorta,2024 Personalism and Personalist Regimes offers a systematic examination of the logic of personalism or personalist rule tackling comprehensively the study of personalist leaders and personalist regimes Covertaction Information Bulletin ,1990 **A Time to Rise** Rene Ciria Cruz,Cindy Domingo,Bruce Occena,2017-10-02 A Time to Rise is an intimate look into the workings of the KDP the only revolutionary organization that emerged in the Filipino American community during the politically turbulent 1970s and 80s Overcoming cultural and class differences members of the KDP banded together in a single national organization to mobilize their community into civil rights and antiwar movements in the United States and in the fight for democracy and national liberation in the Philippines and elsewhere These personal accounts document recruitment organizing and training in the KDP More than two thirds of the stories are by women reflecting the powerful role they played in the organization and its leadership Also included are chapters on the struggle for justice for murdered KDP and union leaders Silme Domingo and

Gene Viernes These memoirs offer political insights and inspiring examples of personal courage that will resonate today A Time to Rise was made possible in part by a grant from 4Culture s Heritage Program

**Defect Or Defend** Terence Lee, 2015 Why do certain militaries brutally suppress popular demonstrations while others support the path to political liberalization by backing mass social movements Although social movements and media can help destabilize authoritarian governments not all social protest is effective or culminates in the toppling of dictatorships Frequently the military s response determines the outcome In Defect or Defend Terence Lee uses four case studies from Asia to provide insight into the military s role during the transitional phase of regime change Lee compares popular uprisings in the Philippines and Indonesia both of which successfully engaged military support to bring down authoritarian rule with protest movements in China and Burma which were violently suppressed by military forces Lee s theory of high personalism and power sharing among the armed forces leadership provides a framework for understanding the critical transitory phases of democratization He uses this theory to review and assess Eastern Europe s democratization events in 1989 the Colored Revolutions of the early 2000s and the protests and revolutions unfolding in the Middle East This book will appeal to students and scholars of comparative politics Asian studies security studies and international relations as well as defense policymakers

Democracy versus Modernization Vladislav Inozemtsev, Piotr Dutkiewicz, 2013-05-07 This book seeks to re think democracy Over the past years there has been a tendency in the global policy community and even more widely in the world s media to focus on democracy as the gold standard by which all things political are measured This book re examines democracy in Russia and in the world more generally as idea desired ideal and practice A major issue for Russia is whether the modernization of Russia might not prosper better by Russia focusing directly on modernization and not worrying too much about democracy This book explores a wide range of aspects of this important question It discusses how the debate is conducted in Russia outlines how Russians contrast their own experiences unfavourably with the experience of China where reform and modernization have been pursued with great success with no concern for democracy and concludes by assessing how the debate in Russia is likely to be resolved

The Long Peace of East Asia Timo Kivimäki, 2016-03-03 The annual number of battle deaths from interstate and intra state conflicts in East Asia has declined by 95% since 1979 During the past three decades East Asia has been more peaceful than Europe the Americas or any continent in terms of battle deaths per capita When generating theories on peace and war studies almost never look at the experiences of East Asia Yet the region by focusing on a commitment to development is a social reality that is less paranoid less militaristic and more cooperative Since 1979 there has been a commonly accepted rule to keep domestic issues domestic so that external military interference that often caused the majority of battle deaths was not needed Thus the emergence of the long peace of East Asia is historically specific and cannot be generalized by studying objective material conditions independent of common perceptions and common interpretations This does not mean that the East Asian experience is not relevant for other regions in the world but that generalizations

should not be attempted to be drawn from the material conditions but rather from the lived experience and socially constructed realities of East Asia Since East Asia is a spectacular case of pacification and since it has not contributed much to our theories of peace and conflict The Long Peace of East Asia is an important book for studies on peace and war
