Marginal Forces Cultural Centers:

Marginal Forces/cultural Centers Michael Bérubé, 1992 Berube shows how the reception of two postwar American writers illuminates and calls into question the functions of cultural transmission Annotation copyrighted by Book News Inc Portland OR *Visualizing Blackness and the Creation of the African American Literary Tradition* Lena Hill, 2014-02-17 Negative stereotypes of African Americans have long been disseminated through the visual arts This original and incisive study examines how black writers use visual tropes as literary devices to challenge readers conceptions of black identity Lena Hill charts two hundred years of African American literary history from Phillis Wheatley to Ralph Ellison and engages with a variety of canonical and lesser known writers Chapters interweave literary history museum culture and visual analysis of numerous illustrations with close readings of Booker T Washington Gwendolyn Bennett Zora Neale Hurston Melvin Tolson and others Together these sections register the degree to which African American writers rely on vision its modes consequences and insights to demonstrate black intellectual and cultural sophistication Hill s provocative study will interest scholars and students of African American literature and American literature more broadly *Redefining Culture* John R. Baldwin, Sandra L. Faulkner, Michael L. Hecht, Sheryl L. Lindsley, 2006-08-15 Redefining Culture Perspectives Across the Disciplines argues that culture is one of the most important factors we need to know when we interact as well as in our discussions of social problems and their solutions This book picks up the dialogue where Kroeber and Kluckhohn left off in their classic 1952 collection and analysis of definitions of culture As a resource for personal and academic libraries this volume provides an updated listing of over 300 definitions of culture from a wide array of disciplines Chapters examine how the definition of culture has changed historically consider themes that cut across the definitions and provide models for organizing approaches to defining culture To round out this multi disciplinary perspective Renato Rosaldo provides a foreword and prominent authors from six disciplines write about how they conceptualize culture and use it in their research and practice This resource is an indispensable reference for scholars studying or integrating culture into their work It will appeal to anyone interested in culture particularly students and scholars in anthropology intercultural and international communication cultural studies cultural and social psychology linguistics sociology family studies political science intergroup relations cultural geography and multicultural education **The Humanities, Higher Education, and Academic Freedom** Michael Bérubé, J. Ruth, 2015-04-30 This book is a lively passionate defence of contemporary work in the humanities and beyond that of the university system that makes such work possible The book s stark accounts of academic labour and its proposals for reform of the tenure system are novel controversial timely and very necessary **Career Moves** Libbie Rifkin, 2000 How much did making it new have to do with making it For the four outsider poets considered here the connection was everything Both a social history of literary ambition in America in the 1950s and 1960s and a collective literary biography this is an account of postwar poetry underground After the End James Berger, 1999-01-01 In this study

of the cultural pursuit of the end and what follows Berger contends that every apocalyptic depiction leaves something behind some mixture of paradise and wasteland Combining literary psychoanalytic and historical methods Berger mines these depictions for their weight and influence on current culture He applies wide ranging evidence from science fiction to Holocaust literature from Thomas Pynchon to talk shows from American politics to the fiction of Toni Morrison to reveal how representations of apocalyptic endings are indelibly marked by catastrophic histories **The Full Severity of Compassion**

Chana Kronfeld,2015-12-09 Yehuda Amichai 1924 2000 was the foremost Israeli poet of the twentieth century and an internationally influential literary figure whose poetry has been translated into some 40 languages Hitherto no comprehensive literary study of Amichai s poetry has appeared in English This long awaited book seeks to fill the gap Widely considered one of the greatest poets of our time and the most important Jewish poet since Paul Celan Amichai is beloved by readers the world over Beneath the carefully crafted and accessible surface of Amichai s poetry lies a profound complex and often revolutionary poetic vision that deliberately disrupts traditional literary boundaries and distinctions Chana Kronfeld focuses on the stylistic implications of Amichai s poetic philosophy and on what she describes as his acerbic critique of ideology She rescues Amichai s poetry from complacent appropriations showing in the process how his work obliges us to rethink major issues in literary studies including metaphor intertextuality translation and the politics of poetic form In spotlighting his deeply egalitarian outlook this book makes the experimental iconoclastic Amichai newly compelling

Rhetoric at the Margins David Gold,2008-03-06 Rhetoric at the Margins Revising the History of Writing Instruction in American Colleges 1873 1947 examines the rhetorical education of African American female and working class college students in the late nineteenth and early twentieth centuries The rich case studies in this work encourage a reconceptualization of both the history of rhetoric and composition and the ways we make use of it Author David Gold uses archival materials to study three types of institutions historically underrepresented in disciplinary histories a black liberal arts college in rural East Texas Wiley College a public women s college Texas Woman s University and an independent teacher training school East Texas Normal College The case studies complement and challenge previous disciplinary histories and suggest that the epistemological schema that have long applied to pedagogical practices may actually limit our understanding of those practices Gold argues that each of these schools championed intellectual and pedagogical traditions that differed from the Eastern liberal arts model a model that often serves as the standard bearer for rhetorical education He demonstrates that by emphasizing community uplift and civic participation and attending to local needs these schools created contexts in which otherwise moribund curricular features of the era such as strict classroom discipline and an emphasis on prescription took on new possibilities Rhetoric at the Margins describes the recent revisionist turn in rhetoric and composition historiography argues for the importance of diverse institutional microhistories and argues that the nineteenth and early twentieth centuries offer rich lessons for contemporary classroom practice The study brings alive the

voices of black female rural Southern and first generation college students and their instructors effectively linking these histories to the history of rhetoric and writing Appendices include excerpts of important and rarely seen primary source material allowing readers to experience in fuller detail the voices captured in this work *Cary Nelson and the Struggle for the University* Michael Rothberg, Peter K. Garrett, 2009-01-08 Scholars engage the ideas and legacy of Cary Nelson in conversations about the corporate university teaching poetry and activism **Critical Theory And The Literary Canon** E. Dean Kolbas, 2018-03-09 Kolbas stakes out new territory in assessing the war over literary canon formation a subject that contemporary polemicists have devoted much ink to Throughout this succinct manuscript Kolbas ranges through the sociology and politics of culture aesthetic theory and literary theory to develop his point that texts not only must should be situated in the historical and material conditions of their production but also evaluated for their very real aesthetic content One reason the is an important issue Kolbas contends is that the canon is not simply enclosed in the ivory tower of academia its effects are apparent in a much wider field of cultural production and use He begins by critiquing the conservative humanist and liberal pluralist positions on the canon which either assiduously avoid any sociological explanation of the canon or treat texts as stand ins for particular ideologies Kolbas is sympathetic to the arguments of Bourdieu et al regarding positioning the canon in a wider field of cultural production than the university but argues that theirs are purely sociological explanations of aesthetics i e there is no objective aesthetic content that ignore art s autonomous realm which he argues a la Adorno exists if only problematically Ultimately he argues that critical theory particularly the arguments of Adorno on aesthetics offers the most fruitful path for evaluating the canon despite the approach s clear flaws His vision is a sociological one but one that treats the components of the canon as possessing objective aesthetic content albeit content that shifts in meaning over history
