

An aerial photograph of the Marin Headlands coastline. The foreground shows rugged, brownish-yellow cliffs meeting the dark blue ocean. In the background, rolling hills and a distant city skyline are visible under a clear sky. A blue rectangular text box is centered in the upper half of the image.

Marin Headlands Portals Of Time

Richard A. Walker

Marin Headlands Portals Of Time:

Marin Headlands Harold Gilliam, Ann Gilliam, 1993 The Marin Headlands largely uninhabited 15 square miles of beaches cliffs valleys and ridges lie directly across the Golden Gate from San Francisco's crowded urban setting making an eloquent statement about the relationship of a metropolis to the natural world *The Medicine of Memory* Alejandro Murguía, 2010-01-01 An American Book Award winner's creative memoir traces his own family's history as well as the long story of Hispanics in America Spirited writing Library Journal People who live in California deny the past asserts Alejandro Murguía In a state where what matters is keeping up with the current trends fads or latest computer gizmo no one has the time energy or desire to reflect on what happened last week much less what happened ten years ago or a hundred From this oblivion of memory he continues comes a false sense of history a deluded belief that the way things are now is the way they have always been In this work of creative nonfiction Murguía draws on memories his own and his family's reaching back to the eighteenth century to re-construct the forgotten Chicano indigenous history of California He tells the story through significant moments in California history including the birth of the mestizo in Mexico destruction of Indian lifeways under the mission system violence toward Mexicanos during the Gold Rush Chicano farm life in the early twentieth century the Chicano Movement of the 1960s Chicano Latino activism in San Francisco in the 1970s and the current rebirth of Chicano Indian culture Rejecting the notion that history is always written by the victors and refusing to be one of the vanquished he records and draws us into his own California history *The Country in the City* Richard A. Walker, 2009-11-23 Winner of the Western History Association's 2009 Hal K Rothman Award Finalist in the Western Writers of America Spur Award for the Western Nonfiction Contemporary category 2008 The San Francisco Bay Area is one of the world's most beautiful cities Despite a population of 7 million people it is more greensward than asphalt jungle more open space than hardscape A vast quilt of countryside is tucked into the folds of the metropolis stitched from fields farms and woodlands mines creeks and wetlands In *The Country in the City* Richard Walker tells the story of how the jigsaw geography of this greenbelt has been set into place The Bay Area's civic landscape has been fought over acre by acre an arduous process requiring popular mobilization political will and hard work Its most cherished environments Mount Tamalpais Napa Valley San Francisco Bay Point Reyes Mount Diablo the Pacific coast have engendered some of the fiercest environmental battles in the country and have made the region a leader in green ideas and organizations This book tells how the Bay Area got its green grove from the stirrings of conservation in the time of John Muir to origins of the recreational parks and coastal preserves in the early twentieth century from the fight to stop bay fill and control suburban growth after the Second World War to securing conservation easements and stopping toxic pollution in our times Here modern environmentalism first became a mass political movement in the 1960s with the sudden blooming of the Sierra Club and Save the Bay and it remains a global center of environmentalism to this day Green values have been a pillar of Bay Area life and politics for more than a century It is an

environmentalism grounded in local places and personal concerns close to the heart of the city Yet this vision of what a city should be has always been informed by liberal even utopian ideas of nature planning government and democracy In the end green is one of the primary colors in the flag of the Left Coast where green enthusiasms like open space are built into the fabric of urban life Written in a lively and accessible style *The Country in the City* will be of interest to general readers and environmental activists At the same time it speaks to fundamental debates in environmental history urban planning and geography

Circling San Francisco Bay Ginny Anderson, 2006 Ginny Anderson is a sure footed guide not only to natural treasures in the Bay Area but to the richness of our inner experience *Circling San Francisco Bay* brings the outer and inner worlds together It is a gift to the community of life and a valuable tool for deeper connection a book that not only informs but also enchants Lauren deBoer executive editor *EarthLight* magazine Shamanic naturalist Ginny Anderson takes us to seven sacred sites around San Francisco Bay to gain a better understanding of their connections and ours in the complex web of life This is a celebration of our glorious bioregion and our responsibility to it and not a moment too soon M Macha NightMare priestess ritualist and author Anderson shows us how to find these pillars of our paradise as we come into a deeper and more spiritual bond with Mother Earth A numinous sentient work and a signpost on the path to true joy in life Sandy Miranda KPFA FM host producer In *Circling San Francisco Bay* a graceful meditation on reciprocity with the natural world Ginny Anderson shows us that we need look no farther than our own Bay Area greenbelt for the balm that soothes the nerves and feeds the soul Lorraine Anderson editor *Sisters of the Earth Women's Prose and Poetry About Nature* Ginny Anderson's tour of Bay Area sacred mountains elicits the fragrance of native herbs the sparkle of crystal rock outcroppings and the wisdom of the natives who dwelled in this land we now call home *Circling* offers its readers exercises to enhance their sensory awareness of specific sites and pathways to greater metaphorical insights At every stop we read the voices of other *Circling* participants telling how the wide vistas and meditations on nature's patterns have opened their souls to new understanding Debbie Mytels Associate Director of Acterra Action for a Sustainable Earth and a participant in *Circling the Bay* 1991

Saving Point Reyes Gerald Felix Warburg, 2023-08-25 The Point Reyes National Seashore PRNS is not only a stunning piece of land the first large national park created from all private lands and the first large park adjacent a major metropolitan center but the fight to save this fragile ecosystem in the 1960s was a key turning point in the environmental movement and helped transform the political landscape of California and the nation *Saving Point Reyes* is an environmental policy history that draws on archival materials oral histories and new interviews with veteran federal policymakers to understand how legislative bargaining and grassroots politics succeeded in achieving this victory for environmental protection Gerald Warburg offers the first political history focused on the battles to preserve the unique series of fragile ecosystems that surround San Francisco and the definitive study of exactly how Point Reyes was saved Most accounts of this story only focus on the 1962 bill that created the PRNS on 53 000 acres of private lands just north of San Francisco But that was just the first

act in the saga The passing of the bill only established the park in theory and the government only controlled 123 acres at Point Reyes In the months following the signing ceremony all three of the House Senate and White House champions of the Point Reyes legislation died leaving the PRNS without the leadership necessary to secure the funding to purchase the rest of the land What followed was an epic public policy battle to save Point Reyes Local grassroots lobbying organizations arose to advance the cause of PRNS and other environmental campaigns and their victory in 1970 laid the foundation for future environmental activism With this new funding the PRNS expanded to over 71 000 acres which then grew to 87 000 acres in 1972 with the creation of the Golden Gate National Recreation Area The legislative bargaining and grassroots politics in the fight to preserve Point Reyes helped create a tipping point profoundly altering the national environmental movement Warburg s deeply researched case study of NGO activism and congressional action is developed through a compelling narrative that offers specific lessons learned and hope for future environmental challenges from climate policy to public lands preservation

One Night Wilderness: San Francisco Bay Area Matt Heid, 2011-09-06 Hundreds of parks preserves and protected open spaces infuse the San Francisco Bay Area with a world of unparalleled natural wonder Straddling a remarkable range of geographic and ecological diversity it provides avenues for adventure in all terrains seasons and environments An overnight journey deepens this outdoor experience One Night Wilderness San Francisco Bay Area presents the 28 best overnight backcountry opportunities in the greater Bay Area from the deep valleys of the Coast Range to the old growth redwoods of the Santa Cruz Mountains from the shores of Point Reyes National Seashore to the remote corners of the Diablo Range in Henry Coe State Park And all of them are accessible within a two hour drive from any point in the Bay Area Discovering all of these adventures without help would be a formidable challenge Nearly a dozen different governing agencies manage the parks of the Bay Area Regulations sources of information and reservation systems vary widely by park district Plus the proximity of millions of people means that hikers usually must make reservations at least a few weeks before their trip But this comprehensive guide tells hikers what they need to know to get away from the city hubbub for a night or two Within these pages you ll find detailed information on regulations agency contact information crowds and reservations for every overnight destination plus human history natural history trail descriptions fun activities maps and more

The New Urban Park Hal Rothman, 2004 From Yellowstone to the Great Smoky Mountains America s national parks are sprawling tracts of serenity most of them carved out of public land for recreation and preservation around the turn of the last century America has changed dramatically since then and so has its conceptions of what parkland ought to be In this book one of our premier environmental historians looks at the new phenomenon of urban parks focusing on San Francisco s Golden Gate National Recreation Area as a prototype for the twenty first century Cobbled together from public and private lands in a politically charged arena the GGNRA represents a new direction for parks as it highlights the long standing tension within the National Park Service between preservation and recreation Long a center of conservation the Bay

Area was well positioned for such an innovative concept Writing with insight and wit Rothman reveals the many complex challenges that local leaders politicians and the NPS faced as they attempted to administer sites in this area He tells how Representative Phillip Burton guided a comprehensive bill through Congress to establish the park and how he and others expanded the acreage of the GGNRA redefined its mission to the public forged an identity for interconnected parks and struggled against formidable odds to obtain the San Francisco Presidio and convert it into a national park Engagingly written The New Urban Park offers a balanced examination of grassroots politics and its effect on municipal state and federal policy While most national parks dominate the economies of their regions GGNRA was from the start tied to the multifaceted needs of its public and political constituents including neighborhood ethnic and labor interests as well as the usual supporters from the conservation movement As a national recreation area GGNRA helped redefine that category in the public mind By the dawn of the new century it had already become one of the premier national park areas in terms of visitation Now as public lands become increasingly scarce GGNRA may well represent the future of national parks in America Rothman shows that this model works and his book will be an invaluable resource for planning tomorrow s parks **CRM** ,1995 *Golden Gate National Recreation Area (N.R.A.), Marin Headlands and Fort Baker Transportation Infrastructure and Management Plan* ,2009 **CRM Bulletin** United States. National Park Service. Cultural Resources Management Division,1994

Unveiling the Magic of Words: A Report on "**Marin Headlands Portals Of Time**"
