Southern Poverty Between the Wars, 1918-1939 Richard Godden,Martin Crawford,2006 Franklin D Roosevelt once

described the South as the nation's number one economic problem. These twelve original interdisciplinary essays on southern indigence between the World Wars share a conviction that poverty is not just a dilemma of the marketplace but also a cultural and political construction. Although previous studies have examined the web of coercive social relations in which sharecroppers, wage laborers, and other poor southerners were held in place, this volume opens up a new perspective. These essays show that professed forces of change and modernization in the South—writers, photographers, activists, social scientists, and policymakers—often subtly upheld the structures by which southern labor was being exploited. Planters, politicians, and others who enforced the southern economic and social status quo not only relied on bigotry but also manipulated deeply held American beliefs about sturdy yeoman nobility and the sanctity of farm and family. Conversely, any threats to the system were tarred with the imagery of big cities, northerners, and organized labor. The essays expose vestiges of these beliefs in sources as varied as photographs from the Farm Security Administration, statistics for incarceration and child labor, and the writings of Grace Lumpkin, Ellen Glasgow, and Erskine Caldwell. This volume shows that those who work to eradicate poverty and even victims of poverty themselves can hesitate to cross the line of race, gender, memory, or tradition in pursuit of their goal.

Journeys: Young Readers' Letters to Authors Who Changed Their Lives Catherine Gourley, 2017-08. Culled from the Letters About Literature contest of the Library of Congress Center for the Book, the fifty-two letters in this collection, written by students in grades four through twelve, reveal how deeply books and poetry affect the lives of readers. [How to Teach Writing Through Reading the Classics Gr. 7-9](#) Penny Nutbrown, Learning to write is a complex process and learning to write well is not a goal that can be achieved if the learner is working without examples, some clear instruction of how and why language works as it does, and then opportunities to practice are necessary. My goal in writing this manual was to provide young people with the preceding. In this manual, the basic elements of grammar and composition are laid out in a series of steps that takes the pupil from being able to identify what a word is, understand the role of that word in a sentence, create sound sentences and paragraphs of her own, and eventually put all those skills together to be able to express herself clearly and meaningfully. Throughout, the pupil is provided with both opportunities to practice and play with the concepts about which she is learning, and most important, examples of superior writing drawn from a wide selection of quality classic English language literature. It is hoped that by proceeding thus, the young person will not only become more adept at writing but also develop an appreciation for good books and pursue reading for pleasure. The lessons in this manual are set out in an order to assist the pupil to develop an understanding of the fundamentals of language before proceeding to matters of sentence structure, grammar, and paragraph writing. However, any exercise in this book could be used out of context, depending on the needs of the pupil and/or the goals of the instructor. The important thing is that the pupil always is allowed to use the means of example, instruction, and practice to achieve the desired objectives. Reading Outcomes read from a wide variety of literary texts, both for information and for enjoyment, use simple organizational structures, i.e., headings, layout, as a means of locating
