Mathis der Maler Paul Hindemith,1935 *Selected Essays on Opera* Ulrich Weisstein,2006 Ulrich Weisstein an international authority in the fields of comparative literature and comparative arts has been a pioneer paving the way for present day intermedia studies Among his broad intermedial interests opera has always held a central place For the first time this volume makes available his major contributions to opera criticism in compact form thus meeting a serious scholarly demand The necessarily stringent selection of essays from Professor Weisstein s large output on opera reflecting fifty years of involvement with the genre is primarily governed by the wish to present texts that are representative of their author s work and at the same time are unlikely to be readily available through other channels The fourteen essays collected are arranged in chronological order some of them showing Ulrich Weisstein as an initiator of librettology others tracing adaptive processes extending from textual sources to final operas or investigating writer composer collaborations Further topics are satirical reflections on operatic activities in early eighteenth century Italy and practices of opera censorship artist operas or definitions of romantic and epic opera The essays are written in an accessible essentially non technical language and are expected to make both a profitable and a pleasurable reading for literary scholars as well as musicologists and general art lovers

"The Artist-Operas of Pfitzner, Krenek and Hindemith " Claire Taylor-Jay,2017-07-05 This is the first book length study of the genre of artist opera in which the work s central character is an artist who is uncomfortable with his place in the world It investigates how three such operas Pfitzner s *Palestrina* 1915 Krenek s *Jonny spielt auf* 1926 and Hindemith s *Mathis der Maler* 1935 contributed to the debate in early twentieth century Germany about the place of art and the artist in modern society and examines how far the artist character may be taken as functioning as a persona for the real composer of the work Because of their concern with the place of art within society the works are also engaged with inherently political questions and each opera is read in the light of the political context of its time conservatism circa World War I Americanism and democracy and the rise of National Socialism
