Matibe Masterpieces Postcard:

Ocean Liner Postcards in Marine Art, 1900-1945 Robert Wall, 1998 The cards provide an enduring record of the great age of intercontinental travel by sea This book gives a fascinating picture of a more leisured age before the advent of the jet airliner

A Postcard History of the Passenger Liner Christopher Deakes, 2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting

Representations of American Imperialism in Picture Postcards of Manila, 1898-1946 Ian Morley,2025-11-18 This book utilizes postcards as a historical and visual lens to consider the built environment of the Philippines after the governmental regime change in 1898 By compiling and using visual references to show shifting patterns of urban environmental design during the Philippines American colonial era this volume will reveal the changes in Manila s built environment This book will also examine the loss of the historic urban form post 1946 In detailing the altering landscape of Manila the book reveals the relationship between the development of the built environment and its societal context **An Accidental Masterpiece** Dietrich Neumann,2020-12-07 The Complex History of a Building With the temporary exhibition pavilion of the German Reich at the 1929 International Exposition in Barcelona Mies van der Rohe designed an architectural icon but also a controversial monument of the way the Weimar Republic portrayed itself The building is one of the most unusual success stories in the history of architecture Despite its short existence its reputation grew steadily in the following decades thanks in part to magnificent photographs It was soon considered the constructed manifesto of the Modern Age and its spatial and ideational ambitions were called a milestone of Modern architecture This comprehensively broadly researched book portrays the building s complex history and its political entanglement up to and including its reconstruction according to van der Rohe s plans at the original site between 1983 and 1986 Presumably the most important and influential architectural icon of the 20th century uniquely documented and depicted On the occasion of the 50th anniversary of Mies death and the Bauhaus centenary Many never before published photographs from archives in the US Germany and Spain **Postcards from the Río Bravo Border** Daniel D. Arreola,2013-08-01 A history in postcards of Mexican tourist towns in the first half of the twentieth century with nearly two hundred illustrations Between 1900 and the late 1950s Mexican border towns came of age both as tourist destinations in some cases by luring Americans who wanted to escape Prohibition and as emerging cities Commercial photographers produced thousands of images of their streets plazas historic architecture and tourist attractions which were reproduced as photo postcards Daniel Arreola has amassed one of the largest collections of these border town postcards and in this book he uses this amazing visual archive to offer a new way of understanding how the border towns grew and transformed themselves in the first half of the twentieth century as well as how they were pictured to attract American tourists Postcards from the Río Bravo Border presents nearly two hundred images of five towns on the lower Río Bravo Matamoros Reynosa Nuevo Laredo Piedras Negras and Villa Acuña Using multiple images of sites within each city

Arreola tracks changes both within the cities as places and in the ways in which they've been pictured for tourist consumption. He also shows how postcard images when systematically and chronologically arranged can tell us a great deal about how Mexican border towns have been viewed over time. This innovative visual approach demonstrates that historical imagery no less than text or maps can be assembled to tell a fascinating geographical story. This is masterful cultural geography with rich visual materials delivered in a unique and compelling fashion. *Journal of Latin American Geography*
