Matisse Rhythm And Line:

Matisse Jacqueline Guillaud, Maurice Guillaud, Henri Matisse, 1987 Never have Matisse's intense colors and vibrant patterns been displayed with such drama and sensitivity This book offers a fresh new vision of the great Fauve colorist with 275 paintings in full color together with important sculpture etchings and facsimiles of books *Rhythmical Subjects* Laura Marcus, 2024-02-15 Drawing on extensive archival research *Rhythmical Subjects* shows the ways in which literature dance music the visual arts and architecture drew from and fed into the realms of social and anthropological thought

Transformations Roger Fry, 1926 *Vogue for Russia* Caroline Maclean, 2015-01-20 Explores the influence of Russian aesthetics on British modernists In what ways was the British fascination with Russian arts politics and people linked to a renewed interest in the unseen How did ideas of Russianness and the Russian soul prompted by the arrival of the Ballets Russes and the rise of revolutionary ideals attach themselves to the existing British fashion for theosophy vitalism and occultism In answering these questions this study is the first to explore the overlap between Slavophilia and mysticism between 1900 and 1930 in Britain The main Russian characters that emerge are Fedor Dostoevsky Boris Anrep Vasily Kandinsky Petr Ouspensky and Sergei Eisenstein The British modernists include Roger Fry Virginia Woolf Mary Butts John Middleton Murry Michael Sadleir and Katherine Mansfield Key Features Draws on unpublished archive material as well as on periodicals exhibition catalogues reviews diaries fiction and the visual arts Addresses the omission in modernist studies of the importance of Russian aesthetics and Russian discourses of the occult to British modernism Challenges the dominant Western European and transatlantic focus in modernist studies and provides an original contribution to our understanding of new global modernisms Combines literary studies with aesthetics modernist history the history of modern esotericism film history periodical studies and science studies *ABM*, 1989 Abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century Photography is covered from its invention in 1839 to the present A particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature Approximately 13 000 new entries are added each year Published with title LOMA from 1969 1971 **Graphic Modernism** Art Institute of Chicago, 2003 This exhibition catalog highlights a recent gift of works on paper to the Art Institute of Chicago from the Gecht family longtime Chicago collectors The catalog comprises 135 drawings prints and sculptures from the collection all of which embody a broad definition of Modernism The book spans two centuries and contains artists such as Cezanne and Van Gogh as well as Mark Rothko and Philip Guston Toulouse Lautrec Matisse and Picasso form the backbone of the collection with nearly 30 works of art apiece Suzanne Folds McCullagh curator of prints drawings Art Inst of Chicago provides a short introductory essay that tracks the evolution of the collection Authored by a bevy of contributors the well written entries maintain a consistent tone and quality and strike a good

balance between biographical information and interpretations of the work of art itself While the Gecht collection is certainly quite a boon for the institute it is not comprehensive enough in itself to make the catalog essential for all art libraries It does however belong on library shelves with strong modern art and graphics collections Kraig A Binkowski Delaware Art Museum Wilmington 135 colour illustrations New York Magazine ,1987-12-07 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *Mondrian's Philosophy of Visual Rhythm* Eiichi Tosaki,2017-11-15 This volume investigates the meaning of visual rhythm through Piet Mondrian s unique approach to understanding rhythm in the compositional structure of painting drawing reference from philosophy aesthetics and Zen culture Its innovation lies in its reappraisal of a forgotten definition of rhythm as stasis or composition which can be traced back to ancient Greek thought This conception of rhythm the book argues can be demonstrated in terms of pictorial strategy through analysis of East Asian painting and calligraphy with which Greek thought on rhythm has identifiable commonalities The book demonstrates how these ideas about rhythm draw together various threads of intellectual development in the visual arts that cross disparate aesthetic cultural practices As an icon of early 20th Century Modernism Mondrian s neoplasticism is a serious painterly and philosophical achievement In his painting Mondrian was deeply influenced by Theosophy which took its influence from Eastern aesthetics particularly East Asian and Indian thought However Mondrian s approach to visual rhythm was so idiosyncratic that his contribution to studies of visual rhythm is often under recognized This volume shows that a close inspection of Mondrian s own writing thinking and painting has much to tell scholars about how to understand a long forgotten aspect of visual rhythm Rodin s famous criticism of photography athlete in motion is forever frozen can be applied to Muybridge s zoopraxiscope the Futurists rendition of stroboscopic images and Duchamp s *Nude Descending a Staircase* Through a comparative study between Mondrian s painting and these seminal works this volume initiates a new convention for the cognition of the surface of painting as visual rhythm Mondrian s simultaneous emphasis on the static and the rhythmic is hardly fodder for a publicist Eiichi Tosaki has taken on the challenge of elucidating Mondrian s theories of rhythm and particularly his conception of static rhythm The result is a tour de force that will forever alter the reader s encounter with the works of Mondrian Prof Kathleen Higgins **Scribner's Monthly, an Illustrated Magazine for the People** ,1914 **The Connoisseur** ,1988
