Congress. Senate. Committee on the Judiciary, 1952 *War and Competition between States* Philippe Contamine, 2000-11-23 In the five hundred years covered by this volume there was scarcely a year which passed without either war or some open demonstration of hostility between the many sovereign powers which governed Europe States and peoples lived under the shadow of war were ceaselessly prompted to consider the possibility of war had to find ways of dealing with the consequences of war This volume in the *Origins of the Modern State in Europe* series focuses on the crucial role of war in the formation of state systems It starts from the assumption that interstate rivalries and conflicts were at the heart not only of the demarcation of territories but also of the ever growing need to mobilize resources for warfare Institutionalization was consequently highly dependent on such competition It was for military reasons and with military aims that the state secured control of time and space both at sea and on land The *Origins of the Modern State in Europe* series arises from an important international research programme sponsored by the European Science Foundation The aim of the series which comprises seven volumes is to bring together specialists from different countries who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders

Vermont played a critical role in the War of 1812 Burlington was a significant military base and harbor for American vessels but history isn't just about the larger hubs of activity From Swanton to Isle La Motte many smaller communities in northern Vermont played a key role in the war Local militia composed of farmers blacksmiths and merchants came from all over the northern border communities of the state to contribute to the war effort When towns got the statewide order to muster timing depended on the occupations of those called to duty the distance they needed to march or sail the unpredictable weather conditions and the condition of the roads Local historian Jason Barney uncovers the unique stories of border smuggling daring raids and everyday struggle **The Wages of War** Richard Severo,Lewis Milford,2016-03-08 A disturbing chronicle of the US government's mistreatment of American soldiers and veterans throughout history with a new introduction by Charles Sheehan Miles Time and time again the sacrifices made by veterans and their families have been repaid with scorn discrimination lack of health services scant financial compensation and other indignities This injustice dates back as far as the American Revolution when troops came home penniless and without prospects for work yet had to wait decades before the government paid them the wages they were owed When soldiers returned from the Cuban campaign after the Spanish American War they were riddled with malaria typhoid yellow fever and dysentery but the government refused to acknowledge their illnesses and finally dumped them in a makeshift tent city on Long Island where they were left to starve and die Perhaps the most infamous case of disgraceful behavior toward veterans happened after the Vietnam War when soldiers were forced to battle bureaucrats and lawyers and suffer media slander because they asked the government and chemical industry to help them cope with the toxic aftereffects of Agent Orange In *The Wages of War* authors Richard Severo and Lewis Milford not only uncover new information about the controversial use of this defoliant in Vietnam and the subsequent class action suit brought against its manufacturers but also present fresh information on every war in US history The result is exhaustive proof that save for the treatment of soldiers in the aftermath of World War II the government's behavior towards American servicemen has been more like that of a slippery insurance company than a policy rooted in the idea of justice and fair reward **Charlie Wilson's War** George Crile,2003 Recounts the events surrounding the last battle of the Cold War and discusses how those events fueled the new jihad and led to the rise of militant Islam **Congressional Record** United States.
