Philippe Rahm PARKKIM LAAC and PEG office of landscape architecture among others the authors explore the influence of parametric modelling scripting real time data simulation prototyping fabrication and Building Information Modelling on the design and construction of contemporary landscapes This engagement with practice is expanded through critical reflection from academics involved in landscape architecture programs around the world that are reshaping their research and pedagogy to reflect an expanded digital realm Crossing critical theory technology and contemporary design the book constructs a picture of an emerging twenty first century practice of landscape architecture practice premised on complexity and performance It also highlights the disciplinary demands and challenges in engaging with a rapidly evolving digital context within practice and education The book is of immense value to professionals and researchers and is a key publication for digital landscape courses at all levels

**Michael Van Valkenburgh Associates** Jane Amidon, 2005-11-11 In the field of landscape architecture there is no more distinguished voice than Michael Van Valkenburgh and it therefore seems appropriate that we begin this new Source Books in Landscape series with his recently completed Allegheny Riverfront Park project for Pittsburgh Pennsylvania As part of the city's efforts to restore its downtown district and riverfront Van Valkenburgh along with artists Ann Hamilton and Michael Mercil developed an ambitious plan to reform the wasted land along the river into an urban refuge The celebrated collaboration between landscape architect and artist produced a thoughtful useful and beautiful park that has successfully renewed the city's core Source Books in Landscape Architecture produced in collaboration with Ohio State University will provide detailed documentation of important new projects following its development from conception through completion using sketches drawings models renderings working drawings and photographs

**Ken Smith Landscape Architects Urban Projects** Ken Smith, 2006 Ken Smith is unquestionably one of the most interesting voices in landscape architecture his works reflect the intensity and energy of their surroundings and challenge the distinction between landscape and art form Ken Smith Landscape Architects Urban Projects focuses on three prominent works in New York City his East River Project his work for P S 19 and his MoMA rooftop garden Through Smith's colorful playful drawings and photographs the book reveals how each project explores new expressions of landscape design in the city Ken Smith Landscape Architects Urban Projects is part of the Source Books in Landscape Architecture series sponsored by Ohio State University These books present sketches drawings models renderings working drawings and photographs Each book focuses on a recent important work or works at a level of detail that allows thorough study of the project from its conception to the completion of design and construction

**Cartographic Grounds** Charles Waldheim, Jil Desimini, 2016-06-28 Mapping has been one of the most fertile areas of exploration for architecture and landscape in the past few decades While documenting this shift in representation from the material and physical description toward the depiction of the unseen and often immaterial Cartographic Grounds takes a critical view toward the current use of data mapping and visualization and calls for a return to traditional cartographic techniques to reimagine the manifestation and manipulation of

the ground itself Each of the ten chapters focuses on a single cartographic technique sounding spot elevation isobath contour hachure hatch shaded relief land classification figure ground stratigraphic column cross section line symbol conventional sign and illustrates it through beautiful maps and plans from notable designers and cartographers throughout history from Leonardo da Vinci to James Corner Field Operations Mohsen Mostafavi dean of the Harvard Graduate School of Design introduces the book *The Architectural Review*, 2005 *Genius Loci* John Dixon Hunt, 2022-10-24 From literature to landscape architecture an expansive contemplative exploration of the significance of place For ancient Romans genius loci was literally the genius of the place the presiding divinity who inhabited a site and gave it meaning While we are less attuned to divinity today we still sense that a place has significance In this book eminent garden historian John Dixon Hunt explores genius loci in many settings including contemporary land art the paintings of Paul and John Nash travel writers such as Henry James Paul Theroux and Lawrence Durrell on Provence Mexico and Cyprus and landscape architects who invent new meanings for a site This book is a nuanced thoughtful exploration of how places become more significant to us through the myriad ways we see talk about and remember them **Peter Walker and Partners: Nasher Sculpture Center Garden**

Jane Amidon, 2006-07-06 One of America's leading landscape architects Peter Walker has created a variety of significant landscapes worldwide including joint projects with architects I M Pei Norman Foster and Renzo Piano Walker's broad field of practice includes urban design and planning and the creation of landscapes ranging in size from parks and university campuses to corporate headquarters plazas and private gardens Peter Walker and Partners Nasher Sculpture Center Garden focuses on his garden in Dallas Texas a set of outdoor galleries showcasing the Nasher collection of modern and contemporary sculpture A museum without a roof the garden with its subtle balance of art and nature is also a serene urban park whose beauty perfectly complements Renzo Piano's design for the center Peter Walker's informative sketches drawings and plans along with photographs of the final design reveal the delicate balance between art culture and context at the heart of the Nasher Foundation Sculpture Garden Source Books in Landscape Architecture produced in collaboration with the Knowlton School of Architecture at Ohio State University provide detailed documentation of important new projects

*Transitions: Concepts + Drawings + Buildings* Christine Hawley, 2017-03-02 Most architectural books written by practising architects fall into two categories theoretical texts or monographs that describe and illustrate the author's projects This book combines both as it explores and illustrates the methodological journey required to translate a concept to a drawing and a drawing to a building While the term methodological might imply an Aristotelian logic there is no attempt here to rationalise the process of conception but instead an acknowledgement of an experimental approach that presupposes a subtle knowledge of the projects It shows the architect's fascination with the opaque and the not said and illustrates how architecture works through agreement and contradiction e.g. the built and the un-built material and immaterial Organised into three essays Urban Collage Ground Surface Shadows and Lines the book examines how conceptual threads begin to

compose a specific architectural design language and how they interweave from one direction to another. Importantly the projects that illustrate the text also demonstrate how imperative or marginal the original ideas become and to an extent they demonstrate the design process its successes, illogicality and failures. The essays also discuss the importance of iteration through time where ideas may occasionally be developed as a linear process but more often emerge through a series of creative digressions. Although the essays and the projects have dominant themes these should not be regarded as autonomous as throughout the development of both drawings and buildings ideas inevitably segue from one domain to another. Ideas have both fluidity and the ability to transform.

Grant Jones / Jones & Jones Grant R. Jones, 2007-05-31 Grant Jones founding principal of the noted landscape architecture firm Jones Jones has practiced ecological design for more than 30 years and has been a pioneer in river planning scenic highway design zoo design and landscape aesthetics. The latest addition to our successful Source Books in Landscape Architecture series Grant Jones Jones Jones ILARIS focuses on Jones's green print plan for Puget Sound in Washington State. Working in collaboration with the Trust for Public Lands and using new GIS technology Jones Jones developed the software tool ILARIS. This CAD like tool helps to evaluate the aesthetic resources of landscape regions and is used as a basis for future planning. The Puget Sound model can be applied to other landscapes at risk. Including an interview with Grant Jones critical essays discussing his work as well as numerous diagrams plans and photographs Grant Jones Jones Jones ILARIS is a thorough study of an important project. **Azure**, 2005 Great City Parks Alan Tate, 2015-03-05 Great City Parks is a celebration of some of the finest achievements of landscape architecture in the public realm. It is a comparative study of thirty significant public parks in major cities across Western Europe and North America. Collectively they give a clear picture of why parks have been created how they have been designed how they are managed and what plans are being made for them at the beginning of the twenty first century. Based on unique research including extensive site visits and interviews with the managing organisations this book is illustrated throughout with clear plans and photographs with this new edition featuring full colour throughout. Tate updates his seminal 2001 work with 10 additional parks including The High Line in NYC Golden Gate Park in San Francisco and Westergasfabriek Amsterdam. All the previous city parks have also been updated and revised to reflect current usage and management. This book reflects a belief that well planned well designed and well managed parks and park systems will continue to make major contributions to the quality of life in an increasingly urbanized world. **LANDSCAPE DESIGN No.103** □□□□, LANDSCAPE DESIGN LANDSCAPE DESIGN the magazine provides timely information on built landscapes and new techniques for ecologically sensitive planning and design with photographs and graphics in Asia and all over the world useful for landscape architects or garden designers and housing building city several constructors monument sculpture etc. LANDSCAPE DESIGN No.99 □□□□, LANDSCAPE DESIGN LANDSCAPE DESIGN the magazine provides timely information on built landscapes and new techniques for ecologically sensitive planning and design with photographs and
