Mozambique And The Construction Of The New African State:

Mozambique and the Construction of the New African State Chris Alden, 2001-07-19 An original study of the internationally inspired effort to rebuild this war torn African country It seeks to understand the role of the international community in constructing a new kind of African state in the aftermath of conflict and socialism At the heart of the book is the question of sustainability of the post conflict African state against the backdrop of the multiple legacies of war socialism and regional and international intervention upon an enervated Mozambican society **Mozambique and the**

Construction of the New African State C. Alden, 2001-11-02 Mozambique and the Construction of the New African State analyzes the international inspired to rebuild this war torn country It seeks to understand the role of the international community in constructing a new kind of African state in the aftermath of conflict and socialism At the heart of the book is the question of sustainability of the post conflict African state against the backdrop of the multiple legacies of war socialism and regional and international intervention upon an enervated Mozambican society *Mozambique and the Construction of the New African State* Chris Alden, 2001 **Contributions to the Study of Peacemaking** United States Institute of Peace, 1991 **Contributions to the Study of Peacemaking**, 1995 *Empire's New Clothes* Paul Passavant, Jodi Dean, 2004-08-02 The publication of *Empire* last year created a sensation that spread from academia to the media to cocktail party buzz A book that causes such a scholarly commotion comes along only once every decade or so wrote the New York Times as the book's radical vision of imperial power in the new millennium sparked both histrionic condemnation and serious academic engagement After September 11 this discussion of *Empire*'s political and legal theories was closely linked with the struggle to redefine America's place in a changed world The book was read as a diagnosis of our era and a call for liberatory action while Michael Hardt was acclaimed as the next Jacques Derrida Framing the debate about this landmark work *The Empire's New Clothes* brings together leading scholars to make sense of *Empire*'s new vocabulary and tackle its claims head on Does the author's vision accurately describe the power structure of today's world Do the processes of globalization today represent a fundamental break from the past Is the book really a communist manifesto for the new age *Empire's New Clothes* investigates these and other key issues giving academics students and lay readers a handle on a work that touches the most vital themes of current political social and economic life **Geography and Economy in South Africa and its**

Neighbours Christian M. Rogerson, 2017-05-15 The dismantling of the apartheid regime in South Africa caused massive transformation in both geographical and economic terms not only in this country but also in the region as a whole As the post apartheid government enters its second term this captivating volume assesses its progress in unravelling the geography of apartheid both in South Africa itself and in its relationships with other countries in Southern Africa and Africa It also considers the ways in which South Africa now that it is no longer a pariah state has begun to position itself within the current global economy Examining South Africa's land and agriculture mining and minerals manufacturing tourism corporate finance

the labour market and transport the volume discusses the challenges of balancing growth and redistribution the extent and nature of progress change and relationships within the regional and global economy A compelling investigation into the economics of South Africa s neighbouring states in relation to their natural resources colonialism and inter relationships with themselves and with South Africa leads to a focus on the region as a whole and its relations with the global economy

Youth and Post-conflict Reconstruction Stephanie Schwartz,2010 In Youth and Post Conflict Reconstruction Agents of Change Stephanie Schwartz goes beyond these highly publicized cases and examines the roles of the broader youth population in post conflict scenarios taking on the complex task of distinguishing between the legal and societal labels of child youth and adult *The UN's Role in Nation-Building: From the Congo to Iraq* James Dobbins,Seth G. Jones,Keith Crane,Andrew Rathmell,Brett Steele,2001-03-29 Reviews UN efforts to transform eight unstable countries into democratic peaceful and prosperous partners and compares those missions with U S nation building operations The UN provides the most suitable institutional framework for nation building missions that require fewer than 20 000 men one with a comparatively low cost structure a comparatively high success rate and the greatest degree of international legitimacy

Africa A to Z: Continental and Country Profiles Pieter Esterhuysen,2013-12-07 The popularity of the first two editions of this book necessitated a third revised and updated version to record the many challenges in Africa since the first edition appeared in 1998 Africa is a vast and fascinating continent whose population has exceeded the one billion mark Africa A Z attempts to provide in a concise manner the facts for an elementary understanding of the continent and its complex problems The book falls into two main sections the five chapters on the first main section focus on the continent as a whole dealing with its physical and human diversity its eventful history and Africans struggle for economic survival The second main section contains profiles of 58 independent countries ranging from Algeria to Zimbabwe Presentation of the profiles is uniform in that the same themes are covered in each profile The data panels with the profiles contain data not provided in the text The maps appearing throughout the text were produced by AISAs cartography department Ending Africa's Wars

Roy May,2016-04-29 Post colonial Africa has seemingly been in an intractable state of conflict and war for a considerable period of time This volume explores the process by which these wars were ended discusses the lessons learnt and examines the sustainability of recently reconciled conflicts to see how far peace solutions are permanent in this region Ending Africa s Wars is an important and timely book for all those interested in conflict democracy international organizations civil society refugees gender and the economic reconstruction of Africa **Encyclopedia of the Developing World** Thomas M. Leonard,2013-10-18 A RUSA 2007 Outstanding Reference Title The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries Containing more than 750 entries the Encyclopedia encompasses primarily the years since 1945 and defines development broadly addressing not only economics but also civil society and social progress Entries cover the most important theories and measurements of development relate

historical events movements and concepts to development both internationally and regionally where applicable examine the contributions of the most important persons and organizations and detail the progress made within geographic regions and by individual countries

African Presidential Republics Jean Blondel, 2019-03-28 This book provides a systematic assessment of the behaviour of some relatively successful presidents in African presidential republics examining the part played by presidents in the development of their countries Using two groups of case studies African Presidential Republics examines the variations between presidential republics within Africa since decolonisation Jean Blondel divides the ten countries studied into those in which presidents had always been elected regularly namely Botswana Mozambique Namibia Senegal and Tanzania and those in which there was irregularity in the appointment of presidents namely Benin Uganda Ghana Liberia and Nigeria The case studies analyse the manner in which presidential republics have manifested themselves in Africa exploring the argument that the presidential republic is one of the key institutional arrangements likely to lead societies towards development African Presidential Republics will be of interest to students and scholars of African politics comparative politics and political leadership

Handbook of Oil Politics Robert E. Looney, 2012-01-25 These days one would have a difficult time picking up a newspaper or watching a newscast that did not have a lead story dealing with some aspect of oil From instability in the Middle East to stock market crashes and concerns over the health of the world economy to wars that seem to break out unexpectedly around the world to discussions of global warming and even speculation over the fate of mankind oil is usually lurking somewhere in the background To many oil markets and their linkages to a whole spectrum of events remain something of a mystery Unfortunately most of the easily obtained information on oil is deeply flawed Whole web conspiracy sites depict ruthless insiders and reckless dictators manipulating energy markets at will The 30 essays in this volume written by the leading experts in the field attempt to set the record straight While their assessments may lack the sensationalism of many popular pundits serious readers will find their insights invaluable in the years to come in providing a framework for understanding many of the events of the day The volume is divided into sections Part I provides a broad overview of the political dimensions underlying the supply of oil Some of the key questions addressed include is the world running out of oil And if so is the cause physical scarcity or political policy failure Why are many of the oil producing countries in the developing world so unstable Can oil markets be made to provide more stability to the world system Part II examines some of the political responses to oil related developments Here the key questions concern the role of the political process in the development of alternative sources of energy The various means through which countries approach their energy security is assessed as is the problem of climate change The section ends with the provocative question do governments really need to go to war for oil Oil production energy markets and the political environment produce distinct regional patterns Part III examines oil and political power in Africa Latin America the Middle East and South East Asia Part IV expands some of the main regional themes through a series of case studies on specific countries Iraq Iran Saudi Arabia

Egypt Russia and Brazil A final section looks to the future will the oil curse continue for many countries How will the growth and expansion of China affect oil prices and availabilities Will oil based sovereign wealth funds contribute to global stability or will they create increased political tensions between consuming and producing countries Will volatile oil markets undermine the US dollar as well as the global financial system Perhaps appropriately the volume ends with an assessment of the future of oil in a carbon constrained world All in all the essays in this volume cover the whole spectrum of the politics of oil Hopefully they will help shed light on this vital yet still often misunderstood topic The book does not represent any particular political or ideological position Instead each author has sought to objectively seek a deeper understanding as to the complexity and subtlety of forces that have all too often eluded policymakers around the world

including essays on regional issues statistical surveys and directories of invaluable contact names and addresses **The Dialectics of Inquiry Across the Historical Social Sciences** David Baronov,2013-11-07 This book turns conventional global historical analysis on its head demonstrating first that local events cannot be derived logically or historically from large scale global historical structures and processes and second that it is these structures and processes that in fact emerge from our analysis of local events This is made evident via an analysis of three disparate events the New York City Draft Riots AIDS in Mozambique and a 2007 flood in central Uruguay In each case Baronov chronicles how expressions of human agency at the level of those caught up in each event give form and substance to various abstract global historical concepts such as slavery in the Americas global capitalist production and colonial postcolonial Africa Underlying this repositioning of the local and the ephemeral is an immanent phenomenological analysis that illustrates how mere transient events are the progenitors of otherwise abstract global historical concepts Traversing the intersections of human agency and structural determinism Baronov deftly retains the nuance and serendipity of everyday life while deploying this nuance and serendipity to further embellish our understanding of those enduring global historical structures and processes that shape large scale long term historical accounts of social and cultural change across the historical social sciences **A History of Postcolonial Lusophone Africa** Patrick Chabal,David Birmingham,2002-06-13 useful timely and important a good and informative book on the Lusophone countries Portuguese colonialism and postcolonial influences Phyllis Martin Indiana University This book produced by the obvious and distinguished corps of country specialists fills a real gap in both state level and regional broadly defined studies of contemporary Africa Norrie MacQueen University of Dundee Although the five Portuguese speaking countries in Africa that gained independence in 1974 75 Angola Mozambique Guinea Bissau Cape Verde and S o Tom e Pr ncipe differ from each other in many ways they share a history of Portuguese rule going back to the 15th century which has left a mark to this day Patrick Chabal and his co authors assess the nature of the Portuguese legacy using a twofold approach In Part I three analytical thematic chapters by Chabal examine what the five countries have in common and how they differ from the rest of Africa In Part II individual chapters by leading specialists each devoted to a specific country survey the histories of those countries since independence The book places the postcolonial experience of the Lusophone countries within the context of their precolonial and colonial past and compares and contrasts their experience with that of non Lusophone African states The result is a comprehensive readable and up to date text and reference work on the evolution of postcolonial Portuguese speaking Africa **At War's End** Roland Paris,2004-05-24 All fourteen major peacebuilding missions launched between 1989 and 1999 shared a common strategy for consolidating peace after internal conflicts immediate democratization and marketization Transforming war shattered states into market democracies is basically sound but pushing this process too quickly can have damaging and destabilizing effects The process of liberalization is inherently tumultuous and can undermine the prospects for stable peace A more sensible approach to post conflict peacebuilding would

seek first to establish a system of domestic institutions that are capable of managing the destabilizing effects of democratization and marketization within peaceful bounds and only then phase in political and economic reforms slowly as conditions warrant Peacebuilders should establish the foundations of effective governmental institutions prior to launching wholesale liberalization programs Avoiding the problems that marred many peacebuilding operations in the 1990s will require longer lasting and ultimately more intrusive forms of intervention in the domestic affairs of these states This book was first published in 2004
