*Opera and the Morbidity of Music* Joseph Kerman, 2008-04-08 The death of classical music the distinguished critic and musicologist Joseph Kerman declares is a tired vacuous concept that will not die In this wide ranging collection of essays and reviews Kerman examines the ongoing vitality of the classical music tradition from the days of Guillaume Dufay John Taverner and William Byrd to contemporary operas by Philip Glass and John Adams Here are enlightening investigations of the lives and works of the greatest composers Bach and his Well Tempered Clavier Mozart s and Beethoven s piano concertos Schubert s songs Wagner s and Verdi s operas Kerman discusses The Magic Flute as well as productions of the Monteverdi operas in Brooklyn and the Ring in San Francisco and Bayreuth He also includes remembrances of Maria Callas and Carlos Kleiber that make clear why they were such extraordinary musicians Kerman argues that predictions let alone assumptions of the death of classical music are not a new development but part of a cultural transformation that has long been with us Always alert to the significance of historical changes from the invention of music notation to the advent of recording he proposes that the place to look for renewal of the classical music tradition in America today is in opera in a flood of new works the rediscovery of long forgotten ones and innovative productions by companies large and small Written for a general audience rather than for experts Kerman s essays invite readers to listen afresh and to engage with his insights into how music works His gift is so uncommon as to make one sad Alex Ross has said

[Festival Cities](#) John R. Gold, Margaret M. Gold, 2020-12-03 Festivals have always been part of city life but their relationship with their host cities has continually changed With the rise of industrialization they were largely considered peripheral to the course of urban affairs Now they have become central to new ways of thinking about the challenges of economic and social change as well as repositioning cities within competitive global networks In this timely and thought provoking book John and Margaret Gold provide a reflective and evidence based historical survey of the processes and actors involved charting the ways that regular festivals have now become embedded in urban life and city planning Beginning with David Garrick's rain drenched Shakespearean Jubilee and ending with Sydney's flamboyant Mardi Gras celebrations it encompasses the emergence and consolidation of city festivals After a contextual historical survey that stretches from Antiquity to the late nineteenth century there are detailed case studies of pioneering European arts festivals

in their urban context Venice's Biennale the Salzburg Festival the Cannes Film Festival and Edinburgh's International Festival Ensuing chapters deal with the worldwide proliferation of arts festivals after 1950 and with the ever increasing diversification of carnival celebrations particularly through the actions of groups seeking to assert their identity The conclusion draws together the book's key themes and sketches the future prospects for festival cities Lavishly illustrated and copiously researched this book is essential reading not just for urban geographers social historians and planners but also for anyone interested in contemporary festival and events tourism urban events strategy urban regeneration regeneration or simply building a fuller understanding of the relationship between culture planning and the city Cinema's Illusions, Opera's Allure David Schroeder, 2016-10-06 The invention of cinema was ingenious so much so that virtually no one quite knew what to do with it In its earliest stages especially with the advent of the feature film it needed models and opera proved to be especially useful in that regard The allure of opera to cinema early in the twentieth century held up through the silent era into sound films through the golden age of movies and beyond This book explores the numerous ways some predictable some unexpected and some bizarre in which this has happened The influence of Richard Wagner on filmmakers has been especially striking and some have even devised visual images that seem to emerge from a kind of non verbal Wagnerian essence a formative musical urge that can underlie a cinematic idea defying explanation and remaining purely sensory Directors like Griffith DeMille Eisenstein Chaplin Bunuel or Hitchcock have intuited this possibility Schroeder provides a fascinating well researched and always entertaining account of the influence of one medium on another and shows that opera can often be found lurking in the background or booming in the foreground of an impressive range of films **Evil** Andrew P. Chignell, 2019-04-16 The code of conduct for a leading tech company famously says Don't Be Evil But what exactly is evil Is it just badness by another name the shadow side of good Or is it something more substantive a malevolent force or power at work in the universe These are some of the ontological questions that philosophers have grappled with for centuries But evil also raises perplexing epistemic and psychological questions Can we really know evil Does a victim know evil differently than a perpetrator or witness What motivates evil doers Satan's rebellion Iago's machinations and Stalin's genocides may be hard to understand in terms of ordinary reasons intentions beliefs and desires But what about the more banal evils performed by technocrats in a collective how do we make sense of Adolf Eichmann's self conception as just an effective bureaucrat deserving of a promotion Evil A History collects thirteen essays that tell the story of evil in western thought starting with its origins in ancient Hebrew wisdom literature and classical Greek drama all the way to Darwinism and Holocaust theory Thirteen interspersed reflections contextualize philosophical developments by looking at evil through the eyes of animals poets mystics witches librettists film directors and even a tech product manager Evil A History will enlighten readers about one of the most alluring and difficult topics in philosophy and intellectual life and will challenge their assumptions about the very nature of evil Mozart Julian Rushton, 2006-02 Synthesizes existing research into a chronologically based narrative

Turkey and Turkish music Head locates the composer's exoticisms in shifting power relations between the Austrian and Ottoman Empires and in an emerging orientalist project At the same time Head complicates a presentist post colonial critique by exploring commercial stimuli to Mozart's turquerie and by embedding the composer's orientalism in practices of self disguise epitomised by masquerade and carnival In this context Mozart's Turkish music offered fleeting liberation from official and proscribed identities of the bourgeois Enlightenment
