For All My Walking Santoka Taneda, 2003-11-12 In April 1926 the Japanese poet Taneda Santoka 1882-1940 set off on the first of many walking trips journeys in which he tramped thousands of miles through the Japanese countryside These journeys were part of his religious training as a Buddhist monk as well as literary inspiration for his memorable and often painfully moving poems The works he wrote during this time comprise a record of his quest for spiritual enlightenment

Although Santoka was master of conventional style haiku which he wrote in his youth the vast majority of his works and those for which he is most admired are in free verse form He also left a number of diaries in which he frequently recorded the circumstances that had led to the composition of a particular poem or group of poems In *For All My Walking* master translator Burton Watson makes Santoka's life story and literary journeys available to English speaking readers and students of haiku and Zen Buddhism He allows us to meet Santoka directly not by withholding his own opinions but by leaving room for us to form our own Watson's translations bring across not only the poetry but also the emotional force at the core of the poems This volume includes 245 of Santoka's poems and of excerpts from his prose diary along with a chronology of his life and a compelling introduction that provides historical and biographical context to Taneda Santoka's work

Mencius Mencius, 2009 Known throughout East Asia as Mengzi or Master Meng Mencius 391-308 B C E was a Chinese philosopher of the late Zhou dynasty an instrumental figure in the spread of the Confucian tradition and a brilliant illuminator of its ideas Mencius was active during the Warring States Period 403-221 B C E in which competing powers sought to control the declining Zhou empire Like Confucius Mencius journeyed to one feudal court after another searching for a proper lord who could put his teachings into practice Only a leader who possessed the moral qualities of a true king could unify China Mencius believed and in his defense of Zhou rule and Confucian philosophy he developed an innovative and highly nuanced approach to understanding politics self cultivation and human nature profoundly influencing the course of Confucian thought and East Asian culture *Mencius* is a record of the philosopher's conversations with warring lords disciples and adversaries of the Way as well as a collection of pronouncements on government human nature and a variety of other philosophical and political subjects *Mencius* is largely concerned with the motivations of human actors and their capacity for mutual respect He builds on the Confucian idea of ren or humaneness and places it alongside the complementary principle of yi or rightness advancing a complex notion of what is right for certain individuals as they perform distinct roles in specific situations Consequently Mencius's impact was felt not only in the thought of the intellectual and social elite but also in the value and belief systems of all Chinese people
