El español hablado en Guadalajara Patricia Córdova Abundis, Daniel Barragán Trejo, 2021-11-30 A cinco años de haber iniciado el proyecto del Corpus sociolingüístico del habla de Guadalajara hemos concluido la transcripción y terceras revisiones de las 72 grabaciones representativas de hombres y mujeres de tres niveles de instrucción y de tres grupos generacionales según la metodología del Proyecto de Estudios Sociolingüísticos del Español de España y de América PRESEEA coordinado por Francisco Moreno Fernández con el apoyo de Ana María Cesteros Mancera en la coordinación técnica. El presente volumen se compone de cinco partes. En la primera, El estudio del habla de Guadalajara, Antecedentes, abordamos los corpus sobre el habla de la ciudad que han antecedido al presente. Previo al puntual recorrido sobre los diversos ejercicios para capturar el habla de nuestra ciudad, nos hemos concedido una licencia histórica al presentar una viñeta sobre el sentido y el gozo de retratar el entorno cultural de Guadalajara con verdad y belleza. En la segunda parte, PRESEEA Guadalajara, hacemos referencia a algunas particularidades de la metodología PRESEEA con que se realizó el presente trabajo. Le siguen datos demográficos que ya habíamos presentado en Viven para contarla, el habla de Guadalajara 2018, aunque actualizados con el censo realizado en el año 2020 por el Instituto Nacional de Estadística y Geografía. En la tercera, cuarta y quinta parte se desglosan los tres grupos de hablantes.

intonation of expectations Jan Fließbach, 2023-06-08 This book provides a new perspective on prosodically marked declaratives wh exclamatives and discourse particles in the Madrid variety of Spanish It argues that some marked forms differ from unmarked forms in that they encode modal evaluations of the at issue meaning Two epistemic evaluations that can be shown to be encoded by intonation in Spanish are obviousness and mirativity which present the at issue meaning as expected and unexpected respectively An empirical investigation via a production experiment finds that they are associated with distinct intonational features under constant focus scope with stances of disagreement showing an impact on obvious declaratives Wh exclamatives are found not to differ significantly in intonational marking from neutral declaratives showing that they need not be miratives Moreover we find that intonational marking on different discourse particles in natural dialogue correlates with their meaning contribution without being fully determined by it In part these findings quantitatively confirm previous qualitative findings on the meaning of intonational configurations in Madrid Spanish But they also add new insights on the role intonation plays in the negotiation of commitments and expectations between interlocutors En Activo:
