among the books you don't want to be without **Microsoft Visual Basic 5 Exam Cram** Michael D. MacDonald, 1998
 MCSD Microsoft Visual Basic 5 Exam Cram covers all the objectives that have been established by Microsoft to successfully complete the Developing Applications with Microsoft Visual Basic 5 exam. Additionally, the book offers support to intermediate to advanced Visual Basic developers by covering essential Visual Basic programming topics Introduction to Transients in Electrical Circuits José Carlos Goulart de Siqueira, Benedito Donizeti Bonatto, 2021-08-13 This book integrates analytical and digital solutions through Alternative Transients Program ATP software, recognized for its use all over the world in academia and in the electric power industry, utilizing a didactic approach appropriate for graduate students and industry professionals alike. This book presents an approach to solving singular function differential equations representing the transient and steady state dynamics of a circuit in a structured manner and without the need for physical reasoning to set initial conditions to zero plus 0. It also provides for each problem presented the exact analytical solution as well as the corresponding digital solution through a computer program based on the Electromagnetics Transients Program EMTP. Of interest to undergraduate and graduate students as well as industry practitioners, this book fills the gap between classic works in the field of electrical circuits and more advanced works in the field of transients in electrical power systems, facilitating a full understanding of digital and analytical modeling and solution of transients in basic circuits **Gas Chromatography-Mass Spectrometry** Diane C Turner, Mathias Schäfer, Steven Lancaster, Imran Janmohamed, Anthony Gachanja, Jason Creasey, 2019-11-28 Gas chromatography mass spectrometry GC/MS is a powerful way to analyse a range of substances. It is used in everything from food safety to medicine. It has even been used to protect endangered vultures through analysis of poisonous pesticide molecules in their environment. I want to apply this technique where do I begin? Is GC/MS the right technique to use? How do I prepare my samples and calibrate the instruments? This textbook has the answers to all these questions and more. Throughout the book, case studies illustrate the practical process, the techniques used, and any common challenges. Newcomers can easily search for answers to their question and find clear advice with coloured images on how to get started and all subsequent steps involved in using GC/MS as part of a research process. Readers will find information on collecting and preparing samples, designing and validating methods, analysing results, and troubleshooting. Examples of pollutant food oil and fragrance analysis bring the theory to life. The authors use their extensive experience teaching GC/MS theory and practice and draw on their combined backgrounds applying the technique in academic and industry settings to bring this practical reference together. The authors also design and teach the Royal Society of Chemistry's Pan Africa Chemistry Network GC/MS course which is supported by GSK **Mastering Microsoft Visual Basic 2010** Evangelos Petroustos, 2010-04-05 The new edition of the ultimate comprehensive guide to Microsoft Visual Basic.
