

JUNIOR PROGRAMMER

GENERAL STATEMENT OF DUTIES: Assists in analyzing, organizing and preparing detailed program instructions for electronic data processing operations; does related work as required.

DISTINGUISHING FEATURES OF THE CLASS: Under direct supervision, this class is responsible for assisting in the analysis of projects and for the development of electronic data processing programs to affect the results desired. This position differs from that of Programmer in that the level of programming is of a more routine nature and is less skilled and sophisticated. Supervision is not a responsibility of this position.

EXAMPLES OF WORK: (Illustrative only)

Assists in preparing detailed program instructions for electronic data processing operations;

Assists in analyzing the nature of the projects, the form of service information and the form of results required;

Assists in preparing input and output memory layouts and block diagrams to show the sequence of computations;

Assists in developing machine instructions for data manipulations;

Assists in the establishments of check points at regular intervals to verify the accuracy of the work in progress;

Assists in setting up machine work areas by reserving memory positions for input and output storage, processing and controls;

Assists in preparing instructions for the guidance of the computer operators;

Lists each machine step, with directions to assist operators and prepares complete text descriptions for future reference;

Assists in preparing sample test data;

Assists with the actual testing and makes modifications, revisions and corrections to programs;

Assists with the evaluation of programs to determine if other combinations of instructions would achieve greater flexibility, better machine utilization or more dependable results;
