## **Mtm Quality Television:**

MTM Jane Feuer, Paul Kerr, Tise Vahimagi, 1984 No Marketing Blurb      *Television's Second Golden Age* Robert J. Thompson, 1997-10-01 This is an insider's tour touching on the network's dizzying decision making process and the artists who have revolutionized the medium      **Thinking Outside the Box** Gary R. Edgerton, Brian Geoffrey Rose, 2005-01-01 Thinking Outside the Box brings together some of the best and most challenging scholarship about TV genres exploring their genesis their functions and development and the interaction of disparate genres The authors argue that genre is a process rather than a static category and that it signifies much about the people who produce and watch the shows In addition to considering traditional genres such as sitcoms soap operas and talk shows the contributors explore new hybrids including reality programs teen oriented science fiction and quality dramas and examine how many of these shows have taken on a global reach Identifying historical continuities and envisioning possible trends this is the richest and most current study of how television genres form operate and change      Quality TV Janet McCabe, Kim Akass, 2007-09-26 In his seminal book *Television's Second Golden Age* Robert Thompson described quality TV as best defined by what it is not it is not regular TV Audacious maybe but his statement renewed debate on the meaning of this highly contentious term Dealing primarily with the post 1996 era shaped by digital technologies and defined by consumer choice and brand marketing this book brings together leading scholars established journalists and experienced broadcasters working in the field of contemporary television to debate what we currently mean by quality TV They go deep into contemporary American television fictions from *The Sopranos* and *The West Wing* to *CSI* and *Lost* innovative sometimes controversial always compelling dramas which one scholar has described as now better than the movies But how do we understand the emergence of these kinds of fiction Are they genuinely new What does quality TV have to tell us about the state of today's television market And is this a new Golden Age of quality TV Original often polemic each chapter proposes new ways of thinking about and defining quality TV There is a foreword from Robert Thompson and heated dialogue between British and US television critics Also included are a great coup are interviews with *W* Snuffy Walden scored *The West Wing* among others and with David Chase *The Sopranos* creator Quality TV provides throughout groundbreaking and innovative theoretical and critical approaches to studying television and for understanding the current and future TV landscape      *Beautiful TV* Greg M. Smith, 2009-03-06 During its five year run from 1997 to 2002 the popular TV show *Ally McBeal* engaged viewers in debates over what it means to be a woman or a man in the modern workplace how romance factors into the therapeutic understanding of relationships what value eccentricity has and how much oddity society should tolerate and what utility fantasy has in the pragmatic world In addition to these social concerns however *Ally McBeal* stood out for being well constructed narratively complex and stylistically rich in short beautiful TV Starting from the premise that much of television today is drop dead gorgeous and that TV should be studied for its formal qualities as well as its social impact Greg M Smith analyzes *Ally McBeal* in terms of its aesthetic principles and

narrative construction He explores how Ally's innovative use of music special effects fantasy sequences voiceovers and flashbacks structures a distinctive fictional universe while it also opens up new possibilities for televisual expression Smith also discusses the complex narrative strategies that Ally's creator David E Kelley used to develop a long running storyline and shows how these serial narrative practices can help us understand a wide range of prime time TV serials By taking seriously the art and argument of Ally McBeal Beautiful TV conclusively demonstrates that aesthetic and narrative analysis is an indispensable key for unlocking the richness of contemporary television *An Introduction to Television Studies* Jonathan Bignell, 2013 *An Introduction to Television Studies* is a comprehensive introduction to the field It provides resources for thinking about key aspects and introduces institutional textual cultural economic production and audience centred ways of looking at television *Complex Serial Drama and Multiplatform Television* Trisha Dunleavy, 2017-11-22 This book examines the creative strategies narrative characteristics industrial practices and stylistic tendencies of complex serial drama Exemplified by shows like HBO's *The Sopranos* AMC's *Mad Men* and *Breaking Bad* Showtime's *Dexter* and Netflix's *Stranger Things* complex serials are distinguished by their conceptual originality narrative complexity transgressive lead characters and serial allure As a drama form that continues to expand and diversify in today's television HBO's *Boardwalk Empire* and *Game of Thrones* Netflix's *Orange Is the New Black* and Hulu's *The Handmaid's Tale* provide further examples Dunleavy investigates the strategies that underpin the innovations influence and success of complex serial drama giving students and scholars a nuanced understanding of this contemporary TV form **Legitimizing Television** Michael Z Newman, Elana Levine, 2012-02-27 *Legitimizing Television Media Convergence and Cultural Status* explores how and why television is gaining a new level of cultural respectability in the 21st century Once looked down upon as a plug in drug offering little redeeming social or artistic value television is now said to be in a creative renaissance with critics hailing the rise of Quality series such as *Mad Men* and *30 Rock* Likewise DVDs and DVRs web video HDTV and mobile devices have shifted the longstanding conception of television as a household appliance toward a new understanding of TV as a sophisticated high tech gadget Newman and Levine argue that television's growing prestige emerges alongside the convergence of media at technological industrial and experiential levels Television is permitted to rise in respectability once it is connected to more highly valued media and audiences Legitimation works by denigrating ordinary television associated with the past distancing the television of the present from the feminized and mass audiences assumed to be inherent to the old TV It is no coincidence that the most validated programming and technologies of the convergence era are associated with a more privileged viewership The legitimization of television articulates the medium with the masculine over the feminine the elite over the mass reinforcing cultural hierarchies that have long perpetuated inequalities of gender and class *Legitimizing Television* urges readers to move beyond the question of taste whether TV is good or bad and to focus instead on the cultural political and economic issues at stake in television's transformation in the digital age Television Aesthetics and Style

Steven Peacock, Jason Jacobs, 2013-07-04 Although Film Studies has successfully returned attention to matters of style and interpretation its sibling discipline has left the territory uncharted until now The question of how television operates on a stylistic level has been critically underexplored despite being fundamental to our viewing experience This significant new work redresses a vital gap in Television Studies by engaging with the stylistic dynamics of TV exploring the aesthetic properties and values of both the medium and particular types of output specific programmes and raising important questions about the way we judge television as both cultural artifact and art form Television Aesthetics and Style provides a unique and vital intervention in the field raising key questions about television's artistic properties and possibilities Through a series of case studies by internationally renowned scholars the collection takes a radical step forward in understanding TV's stylistic achievements

*Contemporary Television Series* Michael Hammond, 2005-05-04 No detailed description available for The Contemporary Television Series

*Meta Television* Erin Giannini, 2024-03-18 The idea of metatextuality is frequently framed as a recent television development and often paired with the idea that it represents genre exhaustion US television however with its early live performances and set bound sitcoms always suggested an element of self awareness that easily shaded into metatextuality even in its earliest days Meta Television thus traces the general history of US television's metatextuality throughout television's history arguing that TV's self awareness is nothing new and certainly not evidence of a period of aesthetic exhaustion but instead is woven into both its past and present practice elucidated through case studies featuring series from the 1970s to the present day many of which have not been critically analyzed before and the various ways they deploy metatext to both construct and deconstruct their narratives Further Meta Television asserts that this re and de construction of narrative and production isn't just a reward to the savvy and or knowledgeable viewer or consumer but seeks to make broader points about the media we consume and how we consume it This book explores the ways in which the current metatextual turn in both the usual genres in which it appears horror and sci fi fantasy and its movement into drama and sitcom represents the next turn in television's inherent self awareness It traces this element throughout television's history growing from the more modest reflexivity of programs awareness of themselves as created objects in a particular medium to the more significant breaking of the fictive illusion and therefore the perceived distance between the audience and the series Erin Giannini shows how the increased currency of metatextual television in the contemporary era can be tied to a viewership well versed in its stories and production as well as able and willing to talk back via social media If television reflects culture to a certain extent this increased reflexivity mirrors that responsive audience as a consequence of the lack of distance that metafiction embraces As Robert Stam traced the use and implications of reflexivity in film and literature this book does the same for television further problematizing John Ellis's glance theory in terms of both production and spectatorship

*The Legacy of Mad Men* Karen McNally, Jane Marcellus, Teresa Forde, Kirsty Fairclough, 2019-11-30 For seven seasons viewers worldwide watched as ad man Don Draper moved from adultery to self discovery secretary Peggy

Olson became a take no prisoners businesswoman object of the gaze Joan Holloway developed a feminist consciousness executive Roger Sterling tripped on LSD and smarmy Pete Campbell became a surprisingly nice guy Mad Men defined a pivotal moment for television earning an enduring place in the medium's history This edited collection examines the enduringly popular television series as Mad Men still captivates audiences and scholars in its nuanced depiction of a complex decade This is the first book to offer an analysis of Mad Men in its entirety exploring the cyclical and episodic structure of the long form series and investigating issues of representation power and social change The collection establishes the show's legacy in televisual terms and brings it up to date through an examination of its cultural importance in the Trump era Aimed at scholars and interested general readers the book illustrates the ways in which Mad Men has become a cultural marker for reflecting upon contemporary television and politics

**Indie TV** James Lyons, Yannis Tzioumakis, 2023-03-27 This edited collection is the first book to offer a wide ranging examination of the interface between American independent film and a converged television landscape that consists of terrestrial broadcasters cable networks and streaming providers in which independent film and television intersect in complex multifaceted and creative ways The book covers the long history of continuities and connections between the two sectors as seen in the activities of PBS HBO or Sundance It considers the movement of filmmakers between indie film and TV such as Steven Soderbergh Rian Johnson the Duplass brothers Joe Swanberg Lynn Shelton and Gregg Araki details the confluence of aesthetic and thematic elements seen in shows such as Girls Breaking Bad Master of None or Glow points to a shared interest in regional sensibilities evident in shows like One Mississippi or Fargo and makes the case for documentaries and web series as significant entities in this domain Collectively the book builds a compelling picture of indie TV as a significant feature of US screen entertainment in the 21st Century This interdisciplinary landmark volume will be a go to reference for students and scholars of Television Studies Film Studies and Media Studies

**Television Histories** Gary R. Edgerton, Peter C. Rollins, 2021-09-15 From Ken Burns's documentaries to historical dramas such as Roots from A E's Biography series to CNN television has become the primary source for historical information for tens of millions of Americans today Why has television become such a respected authority What falsehoods enter our collective memory as truths How is one to know what is real and what is imagined or ignored by producers directors or writers Gary Edgerton and Peter Rollins have collected a group of essays that answer these and many other questions The contributors examine the full spectrum of historical genres but also institutions such as the History Channel and production histories of such series as The Jack Benny Show which ran for fifteen years The authors explore the tensions between popular history and professional history and the tendency of some academics to declare the past off limits to nonscholars Several of them point to the tendency for television histories to embed current concerns and priorities within the past as in such popular shows as Quantum Leap and Dr Quinn Medicine Woman The result is an insightful portrayal of the power television possesses to influence our culture

Prestige Television Seth Friedman, Amanda Keeler, 2022-11-11

Prestige Television explores how an array of 21st century US programming is produced and received in ways that elevate select series above the competition in a saturated market Essays focusing on diverse series ranging from widely recognized constituents such as *The Americans* to contested examples like *Queen of the South* highlight how contributing authors extend conceptions of the genre beyond expected parameters      **Television by Stream** Christina Adamou,Sotiris

Petridis,2023-05-22 Online television streaming has radically changed the ways in which programs are produced disseminated and watched While the market is largely globalized with some platforms streaming in multiple countries audiences are fragmented due to a large number of choices and often solitary viewing However streaming gives new life to old series and innovates conventions in genre narrative and characterization This edited collection is dedicated to the study of the streaming platforms and the future of television It includes a plethora of carefully organized and similarly structured chapters in order to provide in depth yet easily accessible readings of major changes in television Enriching a growing body of literature on the future of television essays thoroughly assess the effects new television media have on institutions audiences and content      **Constructions of Media Authorship** Christiane Heibach,Angela Krewani,Irene

Schütze,2020-11-23 The author is dead long live the author This paradox has shaped discussions on authorship since at least the 1960s when the dominant notion of the individual author genius was first critically questioned The ongoing discussion has mainly focused on literature and the arts but has ignored nearly any artistic practice beyond these two fields *Constructions of Media Authorship* aims to fill this gap the volume s interdisciplinary contributions reflect historical and current artistic practices within various media and attempt to grasp them from different perspectives The first part sheds a new light on different artistic and design practices and questions the still dominant view on the individual identifiable author The second part discusses creative practices in literature emphasizing the interrelation of aesthetic discourses and media practices The third part investigates authoring in audiovisual media especially film and TV while the final part turns to electronic and digital media and their collective creativity and hybrid mediality The volume is also an attempt to develop new methodological approaches focusing on the interplay between various human and non human actors in different media constellations      *Television and New Media* Jennifer Gillan,2010-10-18 We watch TV on computers phones and other mobile

devices television is now online as much as it is on air *Television and New Media* introduces readers to the ways that new media technologies have transformed contemporary broadcast television production scheduling distribution and reception practices Drawing upon recent examples including *Lost* *24* and *Heroes* this book examines the ways that television programming has changed transforming nearly every TV series into a franchise whose on air online and on mobile elements are created simultaneously and held together through a combination of transmedia marketing and storytelling Television studios strive to keep their audiences in constant interaction with elements of the show franchise in between airings not only to boost ratings but also to move viewers through the different divisions of a media conglomerate Organized around key

industrial terms platforming networking tracking timeshifting placeshifting schedule shifting micro segmenting and channel branding this book is essential for understanding how creative and industrial forces have worked together to transform the way we watch TV

**History by HBO** Rebecca Weeks, 2022-07-12 The television industry is changing and with it the small screen's potential to engage in debate and present valuable representations of American history Founded in 1972 HBO has been at the forefront of these changes leading the way for many network cable and streaming services into the post network era Despite this most scholarship has been dedicated to analyzing historical feature films and documentary films leaving TV and the long form drama hungry for coverage In *History by HBO* Televising the American Past Rebecca Weeks fills the gap in this area of media studies and defends the historiographic power of long form dramas By focusing on this change and its effects *History by HBO* outlines how history is crafted on television and the diverse forms it can take Weeks examines the capabilities of the long form serial for engaging with historical stories insisting that the shift away from the network model and toward narrowcasting has enabled challenging histories to thrive in home settings As an examination of HBO's unique structure for producing quality historical dramas Weeks provides four case studies of HBO series set during different periods of United States history *Band of Brothers* 2001 *Deadwood* 2004-2007 *Boardwalk Empire* 2012-2014 and *Treme* 2010-2013 In each case HBO's lack of advertiser influence commitment to creative freedom and generous budgets continue to draw and retain talent who want to tell historical stories Balancing historical and film theories in her assessment of the roles of mise en scene characterization narrative complexity and sound in the production of effective historical dramas Weeks' evaluation acts as an ode to the most recent Golden Age of TV as well as a critical look at the relationship between entertainment media and collective memory

**Blockbuster TV** Janet Staiger, 2000-10 Considers four blockbuster sitcoms defined as a series program that achieved audience ratings markedly higher than those of any of its contenders looking at *The Beverly Hillbillies* *All in the Family* *Laverne and Shirley* with *Happy Days* and *The Cosby Show* Staiger teaches communication at the University of Texas Austin c Book News Inc
